1. Description of the Plan

The following description of the Medical Linen Services, Inc. 401(k) Profit Sharing Plan & Trust ("the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan effective January 1, 2013 is a defined contribution 401(k) profit sharing plan covering all of the employees of Medical Linen Services, Inc. Employees are eligible to participate in the Plan providing they have attained age 21 and completed 1 year of service. Participants may begin deferring a portion of their salary into the Plan immediately following eligibility. Non-resident aliens, union employees, and employees as the result of a merger, stock acquisition, or similar transaction are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 401(a) of the Internal Revenue Code. The Plan administrator is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions to the Plan

Participants may defer up to 92% of their eligible compensation to the Plan subject to certain anti-discrimination tests required under the Internal Revenue Code and to an annual restriction of $17,500 for 2013 ($23,000 for those participants who are age 50 or over). Roth contributions are also permitted under the Plan.

The Plan sponsor has adopted the safe harbor matching provision whereby eligible participants receive 100% of employee deferrals up to 3% of employee compensation for the plan year plus 50% of employee deferrals that exceed 3% of compensation but do not exceed 5% of employee compensation for the plan year. Eligibility for matching and profit sharing contributions is the same as for deferrals. The plan sponsor has the discretion under the Plan to make profit sharing contributions. The plan sponsor has elected to forego a profit sharing contribution for the year ended December 31, 2013.

Participant Accounts

All of the Plan's assets are invested, as directed by the participants, as pooled funds. A participant's account balance in the Plan is derived through an allocation of these investments. Each participant's account is credited with the participant's contribution, plan sponsor contributions, and an allocation of investment activity pursuant to the participant's selection of investments and timing of purchase. Participant accounts are also charged with an allocation of administrative expenses that are paid by the Plan.

Vesting and Forfeitures

Participants are 100% vested in their contributions, safe harbor matching contributions and related earnings at all times. Participants vest in plan sponsor profit sharing contributions in ratable installments of 20% after the first year of service; Participants are fully vested in plan sponsor profit sharing contributions in the event of death, or disability. Forfeitures may be used to pay plan expenses or reduce plan sponsor matching contributions. At December 31, 2013, there were no forfeitures available to pay plan expenses or offset future plan sponsor's contributions. During the year ended December 31, 2013, no forfeitures were used to pay plan expenses or reduce plan sponsor's contributions.

Payment of Benefits

The Plan provides for the payment of benefits to the participant (or, if applicable, the beneficiary) at retirement, disability, death, or termination of employment. In-service distributions are also available for participants attaining age 59½. Participants who qualify for retirement benefits and withdrawals may elect to receive their benefits in the form of installment payments, partial payments, or a lump sum payment.

The benefit to which a participant is entitled is the benefit that can be provided solely from the participant's vested account balance. Participants who separate from service and have vested account balances of $5,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Retired participants must begin receiving a distribution from their account balance no later than April 1 following the calendar year they turn age 70½.

Notes Receivable from Participants
Participants may borrow up to the lesser of $50,000 or one-half of 95% of their vested account balance. The minimum loan amount is $1,000 and participants may only have one loan outstanding at any time. Loans are repaid through regular payroll deductions and generally must be repaid within 5 years (unless the loan is used to acquire a principal residence). All loans are immediately payable upon termination of employment. Loans are segregated investments and to the extent a participant borrows, his or her account will not share in the earnings and gains in value attributable to other Plan investments. Loans bear an interest rate of 1 percent above prime rate determined on the date of the advance by the plan administrator. The interest participant's pay on their loans will be directly credited their account. The loans are secured by the balance in the participant's account and in the event of default, the unpaid loan principal will be offset against the participant's vested account balance.

Plan Amendments
The Plan was without amendment during 2013.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with ERISA. Contributions from participants are recorded when withheld from the participant. Plan sponsor contributions are recorded when approved by the plan sponsor. Benefit payments are recorded when paid.

Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value as determined by the plan custodian (see Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from the participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued.

3. Certification of Assets

Mid Atlantic Trust Company ("Mid Atlantic") serves as the trustee and custodian of the Plan's assets. In that capacity, Mid Atlantic holds the Plan's assets and executes investment transactions. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). As permitted under such election, the plan administrator has obtained certifications from Mid Atlantic as of December 31, 2013, and for the year ended December 31, 2013, that all investment information supplied to the plan is complete and accurate. Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013, and interest, dividends and net appreciation in fair value of investments for the year ended December 31, 2013, was obtained or derived from the certified information.

4. Fair Value Measurements - unaudited

Assets at Fair Value as of December 31, 2013:

		Level 1
Mutual Funds:		
Equity Funds	$	15,423
International Equitty Funds		8,131
Balanced Funds		15,602
Target Retirement Funds		17,815
Bond Funds		11,153
		68,124
Interest-bearing cash		2,395
Total	$	70,519

The framework for measuring fair value provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements.) The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets and or liabilities in active markets that the plan has the ability to access.

Level 2
Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Money market funds: Valued at the quoted net assets value of shares held by the plan at year-end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net assets value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments – unaudited

The following investments equaled or exceeded 5% of the net assets available for benefits of the Plan at December 31, 2013:

	2013
Oppenheimer Developing Markets Fund	$ 5,112
Pimco Income Fund	5,920
American Funds American Balanced Fund	15,602
T.Rowe Price Retirement 2010 Fund	5,587
T.Rowe Price Retirement 2005 Fund	4,309

For the year ended December 31, 2013, the Plan's mutual funds (including gains or losses on investments bought and sold, as well as held during the year) appreciated in value by $2,899.

6. Tax Status

The plan sponsor has adopted the Paychex Volume Submitter plan. The Volume Submitter plan received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the Submitter plan is designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since the opinion letter, the Plan sponsor and administrator believe that the Plan is

currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the plan sponsor and administrator believe that the Plan is qualified and its related trust is exempt from tax.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Plan Termination

Although it has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become 100 percent vested in their employer contributions.

8. Related Party Transactions

Mid Atlantic Trust Company ("Mid Atlantic") serves as the trustee and custodian of the plan's assets. All transactions with Mid Atlantic qualify as party-in-interest transactions.

Fees incurred by the plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As describe in Note 2, the Plan made direct payments totaling $674 to the third party administrator, which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying financial statements.

10. Commitments and Contingencies

The Plan was not in compliance with ERISA fidelity bonding requirements as of January 1, 2013. Effective June 1, 2013 the Plan is in compliance. As of October 9, 2014, in the opinion of those in charge of the Plan's governance no incidents have occurred that would give rise to a claim.
