Pacific Consolidated Industries 401(k) Retirement Plan
NOTES TO FINANCIAL STATEMENTS
Year Ended December 31, 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Pacific Consolidated Industries ("Company") 401(k) Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended, effective January 1, 2013, is a participant-directed, defined contribution plan covering all employees of the Company. All employee's that are eighteen years or older are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For 2013, participant's contributions can't exceed the lessor of 100% of their salary or $17,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in excess of the maximum contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. A 401 (k) contribution can either be a Pre-Tax 401(k) contribution or Post-Tax Roth 401(k) contribution. Participants select the investment of their contributions into various investment options offered by the Plan. The Plan currently offers forty fund options for participants.

For 2013, in order to maintain QACA status the Company matched participating employee contributions. The match is calculated at 100% of an employee salary deferral that does not exceed 1% of wages plus 50% of salary deferrals between 1% and 6% of wages. The Company made matching contributions of $170,129 for the year ended December 31, 2013.

Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in the same manner as the 401(K) contribution is invested. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution, if any. Profit sharing allocations, if any, are allocated in the ratio of a participant's compensation to the total compensation of all Participants eligible to receive an allocation for the Allocation Period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN - Continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. The following schedule describes the participant's level of vesting for matching contributions after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
1	33%
2	66%
3	100%

The following schedule describes the participant's level of vesting for qualified Safe Harbor contributions after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
Less than 2 years	0%
2	100%

Distribution of Benefits

Upon termination of employment due to termination of service, death, disability, or retirement, participants may elect to receive the value of their vested account balance in installments, partial withdrawals, or lump-sum distribution. Participants may also take a financial hardship withdrawal under certain circumstances.

Forfeited Accounts

Forfeitures are generated when an employee takes a distribution/rollover after termination or after an employee takes five consecutive breaks in service. Participants forfeit their non-vested balances and these are used to pay plan expenses or reduce Company contributions. During 2013, $1,173 of forfeited amounts was added to the unapplied forfeiture account. Unallocated forfeitures approximated $7,702 and $6,038 as of December 31, 2013 and 2012, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participant's account and bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regular bi-weekly payroll deductions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution plan attributed to a fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the applicable standards, the Statements of Net Assets Available for Plan Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from the fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted by the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan documents.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Net Appreciation in Fair Value of Investments

Realized gains and losses on investments are based on the market value of the asset at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day the investments are sold during the year. Unrealized gains and losses on investments are based on the market value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the realized fair value at the end of the year. Net realized and unrealized appreciation in fair value of investments is reflected in the accompanying Statement of Changes in Net Assets Available for Plan Benefits.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the administrative agent and independent public accountants, may be paid by the Plan. The Company, at its discretion, decided to pay for certain of these administrative expenses on behalf of the Plan. Most investment options have management fees, which reduce the overall return on assets. The net realized and unrealized appreciation in fair value of investments is reflected net of these fees.

Subsequent Events

For the year-ended December 31, 2013, the Company has evaluated subsequent events for potential recognition and disclosure through September 30, 2014, the date of financial statement issue.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 4 – INVESTMENTS

Contributions to participant-directed investment accounts are invested in mutual funds held in a separated account and a fully benefit-responsive investment contract held by Transamerica through April 2012. All investments were transferred from Transamerica to the Hartford Life Insurance Company. Participants are able to periodically direct the investment of funds credited to their accounts.

The following presents investments which are five percent or more of the Plan's net assets at December 31, 2013 and 2012. Investments with balances that do not exceed five percent of the Plan's net assets are identified by an asterisk (*) in the table below:

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5 – FAIR VALUE MEASUREMENTS - Continued

Level 3 – Inputs to the evaluation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Mutual Funds: Values at the net asset value (NAV) of shares held by the plan at year-end.

- Fixed Annuities: The Plan offered a fully benefit-responsive investment in 2013 with Hartford. Hartford maintains contributions in a general account. The account is credited with quarterly interest at a rate that the Hartford declares for each calendar quarter. Hartford guarantees the declared interest rate applicable to any quarter to the end of the year in which the rate was applied. The fixed interest rate will never be less than the minimum interest rate specified in the contract. The contracted interest rate for the period January 1 to December 31, 2013 is 3%. Hartford may, from time to time, credit interest rates in excess of the minimum interest rate.

  Because the stable value fund investments are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund investment. The Hartford has stated that the contract value approximates the fair value so there is no adjustment made on the face of the Statements of Net Assets Available for Benefits.

  There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Hartford investment at December 31, 2013 and 2012 was $272,349 and $906,217. The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

- Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – TAX EXEMPT STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2011, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since then, the Plan Administrator believes that the Plan has been operated in accordance with the applicable provisions of the Internal Revenue Code (IRC). The Company routinely self-reviews the administration of the Plan and self-corrects any compliance issues in accordance with the Employee Plan Compliance Resolution System. Accordingly, the Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the IRC and, accordingly, are exempt from income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions. In June 2014, the U.S. Department of Labor conducted a review of the Plan to determine its compliance with ERISA. The review is still ongoing as of the date of the audit report, September 30, 2014. The Plan Administrator believes it is no longer subject to income tax examinations for plan years ending on December 31, 2010, or prior.

NOTE 7 – SUMMARY OF UNAUDITED INFORMATION

The Trustee of the Plan certified certain information, which was not audited in accordance with the Plan Administrator's instructions and as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Information certified by the Trustee consists of the following:

- Fair value of investments as reflected in the Statement of Net Assets Available for Plan Benefits as of December 31, 2013 and 2012.
- Investment income as reflected in the Statement of Changes in Net Assets Available for Plan Benefits for the Period from January 1 to December 31, 2013.
- Investment information as reflected in Notes 4 and 5 to these financial statements.
- Investment information reflected in the Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013.

The Plan's independent public accountants did not perform auditing procedures with respect to the above information, except for comparing such information to the related information included in the financial statement and supplemental schedule.

NOTE 8 – RELATED PARTY TRANSACTIONS

Hartford Life Insurance Company ("Hartford") is the Trustee of the Plan and holds and manages investments. Transactions with Hartford are party-in-interest transactions, as defined by ERISA.

NOTE 9 – PLAN TERMINATION

The Company has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 10 – RECONCILATION TO FORM 5500

The following is a reconciliation of net assets available for plan benefits per the financial statement to the Form 5500 at December 31, 2013 and 2012.

	2013	2012

Net assets available for plan benefits per the Form 5500	$ 4,718,606	$ 3,557,426

The following is a reconciliation of the change in net assets per the financial statement to the Form 5500 for the year ended December 31, 2013.

Net increase in plan assets per the financial statement	$ 1,159,906
Company contributions receivable	(1,833)
Delinquent participant note receivable treated as distribution	3,107
Net increase in plan assets per the Form 5500	$ 1,161,180

NOTE 11 - EMPLOYER MATCH CALCULATION ERROR

Shortly after December 31, 2013, the Plan Administrator discovered an error in the calculation of the employer match. The cause of the problem was due to a programming error that was made by the outside payroll service. Total employer match was understated for the period January 1, 2013 to December 31, 2013 by $7,872. The understated match was paid in 2014 by using $6,039 in forfeitures and a $1,833 contribution by the employer. The $1,833 has been recorded as a receivable at 12/31/13.

NOTE 12 – DELINQUENT PARTICIPANT CONTRIBUTIONS

The Department of Labor (DOL Reg. 2580.412-11) requires an employer to segregate participant contributions from its general assets as soon as practicable, but in no event later than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages. During the year ended December 31, 2013, the Company adequately segregated all participant contributions and there were no delinquent remittals of participant contributions to the Custodian.
