Note 1. Description of Plan

The following description of the FabSouth, LLC (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document, a prototype plan document prepared by Transamerica Retirement Solutions, who is the Plan's third party administrator, for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution 401(k) profit sharing plan for all full-time employees who have completed six months of employment and who have attained the age of 18. Participating subsidiaries as of December 31, 2013 and 2012 included Fabco Metal Products, L.P.; Lyndon Steel Company, L.P.; Steel Fabricators, L.L.C. and Steel, LLC. State Street Bank & Trust Company is the trustee of the Plan's assets. Transamerica Retirement Solutions provides certain accounting and administrative services to the Plan. The Plan's investment portfolio is comprised of mutual funds and separate accounts available on the service/investment platform through Transamerica Retirement Solutions. The Plan has appointed CapTrust Financial Advisors as an investment advisor.

Contributions:

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained the age of fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company will make a matching contribution equal to 100% of the first 3% that a participant contributes to the Plan and 50% of the next 2% that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company. During the year ended December 31, 2013, the Company made $631,537 in contributions to the Plan. There was no discretionary profit sharing contribution for the year ended December 31, 2013. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are 100% vested in both Company and participant contributions upon entering the Plan.

Note 1. Description of Plan, Continued

Notes receivable from participants:

Participants may borrow from their fund accounts up to the lesser of 50% of their vested account balance or $50,000 less the amount of their highest outstanding loan balance in the previous twelve months. Loan terms range from 1 to 5 years, except for loans used for purchasing a primary residence, which may have a term up to 10 years. The Plan Administrator approves the interest rate, which is based on the applicable prime rate and the duration of the loan. Interest rates ranged from 3.25% to 3.50% and 3.25% to 8.25% at December 31, 2013 and 2012, respectively.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive contracts.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies, Continued

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events:

The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.

Note 3. Investments

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

Interest and dividends	$ 279,856
Net appreciation in fair value of investments	3,007,572
	$ 3,287,428

Note 4. Trustee Certifications

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and related income:

	2013	2012
Cash	$ 6,541	$ 20,381
Investments at fair value		
Mutual funds	19,392,491	16,872,490
Investments at contract value		
Common collective trust fund	647,914	591,023
Interest receivable	640	735
Notes receivable from participants	867,682	723,198
	$ 20,915,268	$ 18,207,827

The Trustee also certified to the completeness and accuracy of $3,007,572 net appreciation in fair value of investments, $279,856 of interest and dividends related to the aforementioned Plan investments and $25,795 in interest income on notes receivables from participants for the year ended December 31, 2013.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Cash: Includes interest bearing cash. The carrying amount of such instruments is deemed to be a reasonable estimate of fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund: Valued at NAV. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 5. Fair Value Measurements, Continued

Personal Choice accounts: Valued at the quoted market price of shares held by the Plan at year end. See Note 6 for discussion of security with no regularly established market value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Note 5. Fair Value Measurements, Continued

The following table for December 31, 2013 and 2012 sets forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value:

	December 31, 2013			
Investment	Fair value	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund:				
Stable Value Fund (a)	$ 653,219	$ -	Daily	None

	December 31, 2012			
Investment	Fair value	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund:				
Stable Value Fund (a)	$ 608,388	$ -	Daily	None

(a) This category includes a stable value common collective trust fund. At December 31, 2013, the fund invested all of its assets in the Wells Fargo Stable Return Fund G ("Fund G"). The value of this investment is based on the underlying unit value reported by Fund G. Fund G invests in investment contracts and security-backed contracts. An investment contract is issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. In accordance with the terms of the fund's trust, the net asset value of the fund is determined daily. Units are issued and redeemed at the latest net asset value.

Note 6. Personal Choice Accounts

Investments held in a Personal Choice account include a security with no regularly established market value. The security's December 31, 2013 and 2012 audited financial statements indicate that the last sale of common stock was at an offering price of $1.00, which occurred during 2011. Therefore, as of December 31, 2013 and 2012, the aforementioned security has been written down to reflect this value.

Note 7. Stable Value Fund

The Diversified Investment Advisors Stable Pooled Fund is comprised of fully benefit-responsive contracts and is therefore valued at contract value, which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate was 1.52% and .94% at December 31, 2013 and 2012, respectively. The average yield was 1.36% and 1.95% for the years ended December 31, 2013 and 2012, respectively.

Note 8. Related-Party and Party-In-Interest Transactions

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator totaling $94,281 which were not covered by revenue sharing. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 10. Tax Status

The Company has adopted the Plan based on a prototype plan document sponsored by Transamerica Retirement Solutions. Transamerica Retirement Solutions has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The Plan Administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the prototype plan. While the Plan cannot rely on the IRS opinion letter, the Company and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2013:

Net assets available for benefits per the financial statements	$ 20,976,063
Price adjustment in personal choice account	42,800
