NOTE 1. DESCRIPTION OF PLAN

The following description of the Automotive Racing Products, Inc. Profit-Sharing Plan (the "Plan") provides only general information. Participants should refer to the summary plan description or the plan agreement for a more complete description of the Plan's provisions.

General

On January 1, 1994, Automotive Racing Products, Inc. (the "Employer") established the Automotive Racing Products, Inc. Profit-Sharing Plan, which was subsequently amended and restated. The Plan is a defined-contribution plan covering all eligible employees who are at least 21 years of age and who have a minimum of 12 months (and, generally, 1,000 hours) of service as defined in the Plan. Semi-annual entry dates apply – January 1 and July 1. As a contributory profit-sharing plan under Sections 401(a) of the Internal Revenue Code, the Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan does not permit employee contributions and the Plan is solely funded by the Employer.

Contributions

Each plan year, the Employer will contribute to the Plan such amounts, as it may in its sole discretion determine, on behalf of each its eligible participants. Effective January 1, 2006, each eligible participant is considered a separate allocation group, although such allocation groups have been effectively categorized as follows: Group 1 – consisting of the Secretary of the Corporation, Group 2 – consisting of the President of the Corporation, Group 3 – consisting of the Vice President of the Corporation, Group 4 – consisting of all eligible participants not included in Group 1, 2, or 3 who have completed 1,000 hours of service during the plan year and are employed on the last day of the plan year, Group 5 - consisting of all eligible participants not included in Group 1, 2, 3, or 4 who are employed on the last day of the plan year, and Group 6 – consisting of all eligible participants not included in Group 1, 2, 3, 4, or 5 who have completed 501 hours of service during the plan year and are not employed on the last day of the plan year. The amount contributed for each allocation group will be allocated to the participant's account of each eligible participant who is a member of that group in the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants who are members of that group.

The Employer contributions are subject to the limitations set forth under Internal Revenue Code sections 404 and 415. For 2013, this means that the maximum deduction for contributions is 25% of the aggregate compensation of all participants in the Plan, and the maximum annual contribution and other additions to a participant's account may not exceed the lesser of 100% of the participant's compensation (not exceeding $255,000) or $51,000. The Employer contributions must also meet certain nondiscrimination tests under Internal Revenue Code sections 401 and 410.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Participant accounts

Participant accounts are credited with their allocated share of Employer contributions as described above. As of each valuation date (the last day of the plan year), participant non-segregated accounts that have not been distributed since the prior valuation date will have the net income of the Trust Fund (defined as the net of any interest, dividends, unrealized appreciation and depreciation, capital gains and losses, and investment expenses of the Trust) allocated to them in the ratio that the value of each non-segregated account as of the preceding valuation date bears to the total value of all non-segregated accounts as of the preceding valuation date. The forfeiture account will not share in this allocation. Participant segregated accounts (none currently applicable) will only have the net income earned thereon allocated thereto.

Vesting

A participant's vested interest in his or her participant's account will be determined according to the following schedule: participants vest at 20% after two years of credited service; the percentage increases by 20% annually until the employee is fully vested after six years of credited service, except that a participant will have a 100% vested interest in his or her participant's account upon reaching normal retirement age (the later of the date a participant reaches age 65 or the 5th anniversary of the date the participant commences participation in the Plan) prior to termination of employment, or upon death or disability prior to that date.

Funding policy

The Employer funds its contribution annually by the due date of the Employer's corporate income tax return.

Notes receivable from participants

Participant loans are not permitted.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Forfeited accounts

Participants who terminate employment before becoming fully vested in Employer matching contributions and receive a distribution of the vested portion of their accounts will forfeit the non-vested portion of their accounts. Forfeitures of matching contributions shall be used to reduce future Employer contributions. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $16,799 and $11,114, respectively. During the year ended December 31, 2013, forfeitures of $10,283 were utilized to reduce employer cash contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets.

Plan administration

The Employer is the Plan sponsor and the Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America necessarily requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment valuation and income recognition (Continued)

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

NOTE 3. INVESTMENTS AND 2013 CERTIFICATION BY TRUSTEE

For the year ended December 31, 2013 the plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the 2013 information certified by the trustee as complete and accurate to the best of their knowledge, except for comparing such information certified by the trustee to information included in the Plan's 2013 financial statements and supplemental schedule.

Total investments held and certified by Massachusetts Mutual Life Insurance Company in the accompanying statements of net assets available for benefits were $5,660,821 as of December 31, 2013. The net investment income of $619,166 in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.

NOTE 3. INVESTMENTS AND 2013 CERTIFICATION BY TRUSTEE (Continued)

Investments that represented 5% or more of total net assets available for benefits as of December 31, 2013 and 2012 were as follows:

Investments at Fair Value at December 31:	2013	2012
BlackRock LifePath 2020 Investor A	$ 1,239,387	$ 1,077,447
BlackRock LifePath 2030 Investor A	$ 1,667,864	$ 1,334,959
BlackRock LifePath 2040 Investor A	$ 410,477	$ 301,200
Ivy Large Cap Growth R	$ 707,067	$ 496,994

All of the above investments for both 2013 and 2012 were participant directed.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $213,270. These investments consist of mutual funds offered by Mass Mutual.

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
  inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at cost, plus earned interest.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

Large Cap	$1,401,544	$ -	$ -	$1,401,544

NOTE 5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Mass Mutual. Mass Mutual is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. As described in Note 2, the Plan made direct payments to the third party administrator totaling $2,810. The Employer pays directly any other fees related to the Plan's operations.

NOTE 6. TAX STATUS

The Employer adopted a volume submitter document, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, that are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS corrections policies.

NOTE 6. TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7. PLAN TERMINATION

The plan sponsor has not expressed any intent to terminate the Plan, but is free to do so at any time subject to the provisions of ERISA and the Internal Revenue Code. The Board of Directors and the Committee reserve the right to further amend or modify the Plan, including the adoption of any retroactive amendments or modifications, to the extent necessary or desirable to effectuate the termination of the Plan.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The Plan invests through mutual funds in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.
