Herff Jones, Inc. Profit Sharing Plan

Notes to Financial Statements
December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined-contribution plan sponsored by Herff Jones, Inc. (Company) for the benefit of its employees who are not subject to a collective bargaining agreement, have at least one year of service and are age 21 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company (Principal) serves as the Plan trustee and recordkeeper.

Contributions

The Plan permits eligible employees, through a salary deferral election, to make annual contributions of up to 50% of eligible compensation. Participants may also make Roth elective deferrals and employee rollover contributions are permitted. The Company makes matching contributions of 100% of employees' salary deferral amounts up to 4% of employees' compensation. Company profit-sharing contributions are discretionary as determined by the Company's Board of Directors. Contributions are subject to certain limitations.

Profit-sharing amounts are allocated to participants employed by the Company at the end of the Plan year using a formula which takes into account each employee's compensation level in relation to the Social Security Taxable Wage Base. Due to an enhanced ESOP benefit arrangement established by the Company, management has not made, nor does it intend to make, profit-sharing contributions in the foreseeable future. Forfeitures are used, first to pay Plan expenses, then to reinstate previously forfeited account balances of former participants that have been reemployed by the Company, and lastly, the remainder is used to reduce Company contributions.

For the years ended December 31, 2013 and 2012, $14 and $16, respectively, of forfeited non-vested accounts were used to pay Plan expenses and $131 and $68,263, respectively, were used to reduce Employer contributions. At December 31, 2013, unused forfeited nonvested accounts totaled $13,241. There were no unused forfeited nonvested accounts at December 31, 2012.

During 2013 and 2012, funds in the amount of $373,168 and $348,091, respectively, were transferred to the Plan by participants of the Herff Jones, Inc. Employee Stock Ownership Plan (ESOP) that elected to diversify their investment options. These amounts are presented as transfers from related plans on the statements of changes in net assets available for benefit.

Participant Investment Account Options

Investment account options available include a variety of funds. Each participant has the option of directing his contributions into any of the investment options and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contributions made prior to January 1, 2006, plus earnings thereon is based on years of continuous service. Participants become 20 percent vested after two years of service, with 20 percent each year thereafter until participants are 100 percent after six years. Effective January 1, 2006, the Plan was amended to qualify as a safe harbor plan. As a result, participants are immediately vested in the Company's contributions made after January 1, 2006. Participants also become 100 percent vested in all employer contributions plus earnings thereon upon retirement on or after age 60, disability, or death. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, a participant receives a lump-sum amount equal to the vested value of his account. At December 31, 2012, Plan assets included $203,731 allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been paid. There were no similar amounts as of December 31, 2013.

Notes Receivable From Participants

As part of acquisitions that occurred in February 2005 and February 2009, participants of the acquired companies' 401(k) plans were allowed to rollover their participant loans into the Plan. These loans were "grandfathered" in and no new participant loans may be taken.

All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest rates on the loans are the same as previously determined by the former plan.

Notes receivable from participants are reported at the amortized principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

During 2012, the last remaining grandfathered notes receivable from participants were distributed out of the Plan's asset due to default.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The statements of net assets available for benefits present the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

For part 2012, the Plan invested in the Stable Value N4 Fund, which is a collective trust fund where Wells Fargo & Company and its subsidiaries serve as the trustee, custodian, administrator and investment advisor. The fund seeks to provide safety of principal and a stable credited rate of interest, while generating competitive returns over time compared to other conservative investments, such as money market funds or short-term yields available in the fixed income market. The fund invests in various instruments including guaranteed investment contracts, bank investment contracts and security-backed contracts. During 2012, the Plan transferred all assets previously in the Stable Value N4 Fund to the Stable Value U Fund. This fund seeks to provide investors with a moderate level of stable income without principal volatility. The fund invests in various instruments including guaranteed investment contracts, bank investment contracts and security-backed contracts.

During 2012 and for part of 2013, the Plan also invested in the Equity Index Fund, Mid Cap Equity Index Fund, and U.S. Debt Index Fund, which are bank-maintained collective investment funds maintained and managed by BlackRock Institutional Trust Company, N.A.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. The amounts shown in Note 3 for securities that have no quoted market prices are estimated fair values, as determined by the trustee. The Plan's investment in the collective trust fund as of December 31, 2013 and 2012 is valued based on contractual terms of the underlying agreements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan obtained its latest determination letter on February 7, 2014, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2010.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the employer or the Plan, at the employer's discretion.

Note 3: Investments

Note 4: Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Recurring Measurements

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include the collective trust fund. The objective of the Equity Index Fund, Mid Cap Equity Index Fund and U.S. Debt Index Fund are to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of a particular index. For the Equity Index Fund, the index is the S&P 500, for the Mid Cap Equity Index Fund, the index is the S&P Mid Cap 450, and for the U.S. Debt Index Fund, the index is the Barclays U.S. Aggregate Bond Index. These funds are comingled funds, not mutual funds.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective trust fund: Valued based on contractual terms of the underlying agreements, providing a daily rate of income accretion.

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2013 and 2012:

		2013 Fair Value Measurements Using

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period beginning date.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, and relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Plan paid $141,914 and $76,637 of administrative fees to parties-in-interest during 2013 and 2012, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 6: Reconciliation of Form 5500 to Financial Statements

The differences between the Form 5500 filed with the Internal Revenue Service and the accompanying financial statements include the reporting of the Wells Fargo Stable Value Fund U in the Form 5500 at fair value and in the accompanying statements of net assets available for benefits at net contract value, and the accrual of a distribution requested in 2012 and paid to a participant in 2013 on the 5500. Other immaterial differences were identified between the Form 5500 filing and the accompanying statements of net assets available for benefits and changes in net assets available for benefits.

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$ 116,687,418	$ 105,468,812

Adjustment from fair value to contract value	115,158	500,214
Other immaterial differences	4,140	48,844
Net assets available for benefits per Form 5500	$ 116,806,716	$ 105,814,139

The following is a reconciliation of benefit payments per the financial statements to the Form 5500:

	2013	2012
Benefit payments per the financial statements	$ 16,160,150	$ 16,498,125
Benefit payments accrued on Form 5500 - beginning of year	(203,731)	-
Benefit payments accrued on Form 5500 - end of year	-	203,731
Benefit payments per the Form 5500	$ 15,956,419	$ 16,701,856

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
