Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Pension Plan for Employees of JPS Industries, Inc. (the "Plan"), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by the Bank of New York Mellon, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's assets and executes transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

As discussed in Note 2 to the financial statements, the financial statements include the Company's common stock valued at \$22,530,515 and \$13,768,648, which represents 24.2% and 19.3% of net assets available for benefits at December 31, 2013 and 2012, respectively. The stock value has been estimated by an independent valuation specialist in the absence of a readily ascertainable market value. Because of the inherent subjectivity of any valuation the estimated value may differ significantly from the value that would have been used had a ready market for the stock existed and the difference could be material.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012**

1. Plan Description

The following description of the Retirement Pension Plan for Employees of JPS Industries, Inc. (the "Plan") provides only general information. Participants should refer to the Plan Document and Summary Plan Description (not included herein) for more complete information regarding the Plan's provisions.

General - The Plan is a non-contributory defined benefit plan for salaried and hourly employees of the Company ("Company" refers to JPS Industries, Inc. and electing subsidiaries) who have attained the age of 21 and completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Administrative Committee, as defined in the Plan document, serves as the administrator (the "Plan Administrator") of the Plan. As of March 1, 2005, the Plan was amended to discontinue the addition of new participants to the Plan and to provide that rehired employees cannot accrue additional benefits, even though they may otherwise be a Plan participant. Effective December 31, 2005 and through June 1, 2012, no participant accrued additional benefits under the Plan. On June 1, 2012, eligible employees, as defined above, began accruing benefits under a new formula, as described below.

The Plan is administered by the Plan Administrator, which is as provided in the Plan Document, a committee appointed by the President of the Company. The Plan Committee has overall responsibility for the operation and administration of the Plan. In addition, the Plan Document provides for an Investment Committee, also appointed by the President, that determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the President.

Pension Benefits - The Plan provides for a monthly normal retirement benefit at the later of the date on which a participant attains age 65 or 5 years of service. The Plan has special provisions for early retirement and death. For benefits earned on or prior to December 31, 2005, the monthly retirement benefit formula for salaried employees participating in the Plan is 0.6% of final average pay less than covered compensation (as defined) times credited service divided by 12, plus 1.2% of final average pay greater than covered compensation (as defined) times credited service divided by 12. Also, participants' annual earnings used in calculating benefits are capped at the limits specified by federal law. For hourly employees, the monthly retirement benefit formula is .42% of final average compensation (defined as the highest 5 of the last 10 years worked) times credited service divided by 12. Except for vesting, service or compensation paid after December 31, 2005 until January 1, 2012 is not considered in any benefit determination under the above formulas. Eligible employees active on or after June 1, 2012 that have met participation requirements are eligible to participate under a new formula. The new formula is 0.08% multiplied by Career Average Compensation, as defined, and Years of Benefit Services, as defined, on or after January 1, 2012. This benefit is in addition to any prior Plan benefits. The new benefit can be taken as a lump sum, subject to any restrictions in federal law. For participants who were participating in the Plan on June 30, 1989, the benefit will never be less than the accrued benefit at that date.

Death and Disability Benefits - If an active participant dies before their normal retirement date, no benefit will become payable unless the participant is fully vested (five years of service) and has a spouse who is eligible to receive retirement income under the Pre-Retirement Spouse Benefit. If a participant dies after their retirement date and has an eligible spouse, a 50% survivor annuity will be paid to such a spouse unless an alternate form of payment has been elected. If, on such participant's death, the participant does not have a spouse, then benefit payments will cease. If a vested participant becomes disabled, their accrued benefits will become payable at normal retirement date or at the time they become eligible for early retirement.

Funding Policy - The Company makes contributions to the Plan, when necessary, to meet minimum funding requirements under applicable laws and regulations.

Contributions of \$15,671,078 and \$3,483,802 were made by the required dates for the years ended December 31, 2013 and 2012, respectively. These amounts met or exceeded the minimum funding requirements of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, the actuarial present value of accumulated plan benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the changes in net assets available for benefits and changes in the actuarial present value of accumulated plan benefits during the reporting period. Actual results could differ from those estimates.

The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock. The financial statements include the Company's common stock valued at \$22,530,515 and \$13,768,648 at December 31, 2013 and 2012, respectively. The stock's value has been estimated by an independent valuation specialist in the absence of a readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed, and the difference could be material.

Recently Issued Accounting Standards - On July 8, 2013, the FASB issued ASU No. 2013-09, Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04, which was effective upon issuance. The amendments in this ASU defer indefinitely the effective date of certain required disclosures in ASU 2011-04 of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this ASU do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. ASU 2013-09 has been adopted and reflected in Note 4.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's investment policies utilizing information provided by its investment advisers, trustee and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Subsequent Events - The Plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

The accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective. The actuarial present value of accumulated plan benefits as of December 31 is as follows:

	<u>12/31/2013</u>	<u>12/31/2012</u>
Vested benefits:		
Active participants	\$ 3,304,548	\$ 3,262,059
Participants currently receiving benefits	72,020,849	75,080,121
Other participants	<u>11,622,320</u>	<u>12,627,498</u>
Total vested benefits	86,947,717	90,969,678
Non-vested benefits	<u>32,710</u>	<u>38,880</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 86,980,427</u>	<u>\$ 91,008,558</u>

Reconciliation of changes in the actuarial present value of accumulated plan benefits is as follows:

	<u>Year Ended 12/31/2013</u>	<u>Year Ended 12/31/2012</u>
Actuarial present value of accumulated plan benefits as of beginning of year	\$ 91,008,558	\$ 90,325,091
Increase for interest	6,891,813	7,263,279
Additional benefits accrued and adjustment based on actual experience	(1,161,683)	(5,624)
Increase due to changes in assumptions	154,215	3,377,798
Benefit payments	<u>(9,912,476)</u>	<u>(9,951,986)</u>
Actuarial present value of accumulated plan benefits as of end of year	<u>\$ 86,980,427</u>	<u>\$ 91,008,558</u>

Significant actuarial assumptions used or significant changes in the valuation of the actuarial present value of accumulated plan benefits as of December 31, 2013 and 2012 were:

- The Projected Unit Credit actuarial method was used.
- The assumed discount rate in valuing the future liability for plan benefits was 8.00% for both years ended December 31, 2013 and 2012, respectively.
- Mortality tables used are in accordance with the RP-2000 Employee Mortality Table with Blue-Collar Adjustment projected to 2023 for 2013 and 2022 for 2012 for active participants, the RP-2000 Health Annuitant Mortality Table with Blue-Collar Adjustment projected to 2023 for 2013 and 2022 for 2012 for retirees, beneficiaries, and terminated vested participants, and the Revenue Ruling 96-7 Mortality Table for males and females for disabled participants.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used between December 31, 2013 and 2012.

Insurance separate account: Recorded at the fair value of the underlying assets which is equivalent to the contract value.

Common trust funds: Valued at net asset value ("NAV"). The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value, and has been determined based on the unit values of the funds. Unit values are determined by the bank sponsoring such common trust funds by dividing the fund's net assets at fair value by its units outstanding at each valuation date.

Employer common stock: Estimated by the Plan administrator based on a valuation by an independent valuation specialist. In estimating value, the specialists use inputs from the Company's independent sources as well as multiple methodologies. Such inputs include historical and projected income and cash flow, interviews with Company management, independent market analysis and comparative Company analysis. A variety of valuation techniques are also used including public trading analysis, guideline transaction analysis and discounted cash flow analysis.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan's Level 3 equity securities are employer common stock. The fair value of the Level 3 stock is estimated using market valuation techniques that rely heavily on historical data, Company management assumptions and valuation expert assumptions and qualitative observations. Under the market approach, the fair value of the Company's stock is computed using limited quantitative and qualitative observations of activity for similar companies in the current market. Because the Company operates in more than one distinct industry, observations are applied separately to each industry.

The modeling to determine value utilizes, as applicable:

- Transactions for comparable companies in similar industries.
- Key significant unobservable inputs in this technique include implied earnings before interest, taxes, depreciation and amortization multiples, earnings before interest and taxes, assets and revenue multiples.
- Additionally, the fair value of the employer common stock is estimated based on recent transactions in active markets for similar securities. These transactions are also evaluated using the inputs above.
- A discounted cash flow model is also used to value the business units of the Company.
- Key significant unobservable inputs in this technique are cost of debt, statutory tax rate, long term market risk premium, risk free rate, size premium, unsystematic risk premium and terminal value multiple.

Significant changes in any of these inputs could result in significantly lower or higher fair value measurements. Throughout the procedures discussed above, the third party valuation expert has processes for validating information and understanding of assumptions and inputs used in valuation. They determine the proper inputs and adjustments based on both the quantitative and qualitative observations. Using all of these methods, any separate valuations are combined, different methods are evaluated, adjustments required by size control and other factors are applied and a valuation estimate is determined for the securities held by the Plan. Because of the number of inputs required as well as the

adjustments required, a table or range of values for each unobservable input is not provided and summarized data would not provide useful information.

The following table for December 31, 2013 and 2012 sets forth a summary of the Plan's investments with a reported NAV:

- (a) This category is composed of core (large-cap, mid-cap, and small-cap), value, and index U.S. funds. The core category includes funds that typically represent a blend in the value and growth investment styles. The value category includes a fund that primarily holds stocks that are deemed to be undervalued in price and that are likely to pay dividends. The index category includes a fund that seeks to replicate the movements of an index of a specific financial market, regardless of market conditions.
- (b) This category includes funds that invest primarily in common stocks and other equity securities of issuers in countries other than the U.S. These are primarily composed of value funds that invest in stocks that are deemed to be undervalued in price and that are likely to pay dividends.
- (c) This category includes a fund that seeks to track the performance of the Barclays Capital U.S. Aggregate Index, regardless of market conditions.
- (d) This category seeks to provide a market rate of return consistent with the preservation of capital through a shorter maturity, high quality portfolio.

5. Plan Termination

Although it has no intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under, the group annuity contract and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit. The statutory ceiling is adjusted periodically. For plan terminations occurring during 2013, that ceiling was \$4,790. Subsequently, for plan terminations occurring during 2014, the ceiling has been increased to \$4,943 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For older annuitants or for those who elect to receive their benefits in some form less valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted upward. Conversely, for younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the financial condition of the Plan sponsor, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

6. Income Tax Status

The Plan obtained its latest determination letter dated July 5, 2012, in which the Internal Revenue Service stated that the Plan, as amended effective January 1, 2012, and the related trusts were in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The January 1, 2012 amendment and restatement included prior amendments as well as additional required amendments. The required amendment had no impact on Plan operations or accrued benefits. The restatement and determination letter did not include the amendments adopted in May, 2012 to “unfreeze” the Plan. The Company believes that the Plan is currently designed and is operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the applicable federal or state taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

7. Trustee Certifications

The Bank of New York Mellon (“BNYMellon”) serves as trustee of the Plan’s assets held in a trust account for the Plan (the “Trust”) and thus has responsibility for maintaining plan assets and processing plan investment transactions. Except for the estimated fair value of the employer common stock as of December 31, 2013 and 2012 and its related appreciation (depreciation) for the years ended December 31, 2013 and 2012, the investment

information in the accompanying financial statements has been derived from information provided by the trustee. The trustee has provided certification that such investment information is complete and accurate, as required under the method of compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA elected by the Plan administrator. The investment information supplied by the trustee was not audited by an independent public accountant, as permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

The following is a summary of the unaudited information regarding the Plan as of December 31, 2013 and 2012, and for the years then ended, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information prepared by BNYMellon and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	<u>2013</u>

8. Investments

The following presents individual investments which exceeded 5% of the net assets available for benefits as of December 31, 2013 and 2012:

	<u>12/31/2013</u>	<u>12/31/2012</u>
JPS Industries, Inc. Common Stock	\$ 22,530,515	\$ 13,768,648

BNY Mellon Capital – EB Enhanced Large Cap Core Fund	5,357,488	4,663,792

Net gain (loss) from investment activity is comprised of the net realized and unrealized gain (loss) from investment activity. Net realized gain (loss) from investment activity is determined based upon the difference between the sales proceeds for investments sold and the fair market value of such investments at the beginning of the plan year, or historical cost if such investments were purchased during the current plan year. Unrealized gain (loss) from investment activity is determined based upon the difference between the fair market value of investments as of the beginning of the plan year, or historical cost for investments purchased during the current plan year and the fair market value of such investments at the

end of the plan year. The net gain (loss) earned by each type of investment held by the Plan for the years ended December 31, 2013 and 2012 was as follows:

	Year Ended <u>12/31/2013</u>	Year Ended <u>12/31/2012</u>
Employer common stock, at estimated fair value	\$ 8,761,867	\$ (6,451,045)
Common trust funds	9,267,236	5,214,129
Insurance separate account	<u>(894,268)</u>	<u>1,049,076</u>
	<u>\$ 17,134,835</u>	<u>\$ (187,840)</u>

9. Insurance Separate Account

The Plan holds a deposit administration group annuity contract with an immediate participation guarantee from Transamerica Life Insurance Company ("TFLIC"). The contract covers all active salaried participants' accumulated plan benefits at June 30, 1984. The immediate participation guarantee from TFLIC covers most retired salaried employees as of June 30, 1984; these contracts will collectively be referred to as the "TFLIC Contracts". The TFLIC Contracts unconditionally guarantee benefits to salaried Plan participants earned through June 30, 1984 in the Plan of a predecessor employer. All benefits earned subsequent to June 30, 1984 are covered by the Plan's beneficial interest in the Trust. Accordingly, since the accumulated plan benefits relating to remaining benefits earned through June 30, 1984 are guaranteed by the TFLIC Contracts, the liabilities for such benefits have been effectively satisfied.

The assets deposited under the contract, which are held by BNYMellon in a separate custodial account, are owned by TFLIC. However, under the contract arrangements with TFLIC and the trustee, investments which relate to the TFLIC Contracts and the related investment earnings (collectively, the "TFLIC Assets") remain in a non-pooled separate custodial account to fund the benefit payments for guaranteed benefits earned as of June 30, 1984. For pension accounting purposes, the assets underlying the TFLIC Contracts are included in the investments of the Trust as insurance company separate accounts.

At such time as the TFLIC Assets might decrease to the level of the trigger point (as defined in the contracts and as computed by TFLIC), which represents the Guaranteed Benefit Obligation ("GBO," which is an amount computed by TFLIC representing the accumulated plan benefits as of June 30, 1984 and is guaranteed by TFLIC plus an Immunization Corridor, as defined in the contracts), TFLIC has the right to transfer the TFLIC Assets from the separate account to TFLIC's general account and cause annuities to be purchased for the individuals covered by these contract arrangements and for whom benefits have been unconditionally guaranteed by TFLIC. Should the TFLIC Assets be insufficient to purchase such annuities, TFLIC is obligated to fund the deficiency. At the discretion of the trustee, all or a portion of certain funds in excess of the trigger point may be transferred from the separate account to the general assets of the Trust and may be used to satisfy non-TFLIC Contract liabilities.

TFLIC determines on a quarterly basis the GBO and trigger point for the contract. Since the TFLIC Assets were in excess of the trigger point at the quarterly testing date ending on December 31, 2013, assets were not transferred from their separate account to TFLIC's general account and no annuities were purchased for the individuals covered by these contract arrangements.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

11. Party-In-Interest Transactions

Certain plan investments are shares of the Plan sponsor's common stock. The Plan held 1,925,685 shares of the Plan sponsor's common stock at both December 31, 2013 and 2012, valued at \$22,530,515 and \$13,768,648, respectively. This investment and transactions in this investment qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

Also, certain Plan investments are units or interests in common trust funds managed by BNYMellon, the trustee of the Plan. In accordance with the provisions of ERISA, transactions involving such investments qualify as party-in-interest transactions. Amounts paid to BNYMellon for investment and administrative fees totaled \$395,707 and \$294,667 for the years ended December 31, 2013 and 2012, respectively.

12. Subsequent Event

Effective May 1, 2014, the Stevens Urethane division "the Division" of the Company was sold to an unrelated entity and the approximately eighty active employees of the Division were terminated from active participation. In connection with the sale, the Plan was amended to vest all active participants of the Division that were not fully vested at the time of termination. The vesting of such participants increased the actuarial present value of accumulated plan benefits by less than 0.01%. The approximately eighty active employees of the Division were terminated from active participation, but will remain in the Plan as non-active participants until such time as they, or if applicable their beneficiary, no longer have a benefit under the Plan due to payment and/or death.

RETIREMENT PENSION PLAN FOR EMPLOYEES OF JPS INDUSTRIES, INC.
EIN/PIN 57-0868166 / 001

Schedule SB, Part V – Statement of Actuarial Assumptions & Methods

Prescribed Funding Assumptions and Methods

Funding interest rates

The plan sponsor decided to use the segment rates determined under section 430(h)(2) of the Internal Revenue Code, as amended by the Moving Ahead for Progress in the 21st Century Act (MAP-21) but before amendment by HATFA, for purposes of determining both the minimum funding requirements in accordance with ERISA and the plan's Adjusted Funding Target Attainment Percentage (AFTAP) for the 2013 plan year.

Current Year:	Segment Rates with four month lookahead:	
	First Segment Rate	1.75%
	Second Segment Rate	4.62%
	Third Segment Rate	5.72%

In accordance with MAP-21, the first, second and third Segment Rates are constrained to an 85%-115% Corridor around the average Segment Rates for the 25-year period ending September 30, 2012, or **4.94%, 6.15% and 6.76%**, respectively for minimum funding and benefit restrictions but not for maximum tax-deductible purposes.

Effective Interest Rate	6.16%
(Based on MAP-21 rates)	

Prior Year:	Segment Rates with four month lookahead:	
	First Segment Rate	2.06%
	Second Segment Rate	5.25%
	Third Segment Rate	6.32%

In accordance with MAP-21, the first, second and third Segment Rates are constrained to a 90%-110% Corridor around the average Segment Rates for the 25-year period ending September 30, 2011, or **5.54%, 6.85% and 7.52%**, respectively for minimum funding and benefit restrictions but not for maximum tax-deductible purposes.

Effective Interest Rate	6.85%
(Based on MAP-21 rates)	

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative and investment expenses to be paid from plan assets during the year.

Schedule SB, Part V – Statement of Actuarial Assumptions & Methods

Non-Prescribed Funding Assumptions and Methods

Expenses

Expected plan administrative and investment expenses of \$795,000 were added to the Target Normal Cost.

Frequency of optional payment forms

Benefits are paid assuming that 50% of future retirees will elect the single life annuity form of benefit, 40% will elect the 100% joint & survivor life annuity form of benefit, and 10% will elect the 50% joint & survivor life annuity form of benefit.

Marital percentage

80% of male employees and 50% of female employees are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Retirement rates

Age	Assumption
55	2.0%
56	2.0%
57	2.0%
58	5.0%
59	5.0%

61	10.0%
62	25.0%
63	20.0%
64	25.0%
65	100.0%

In addition, for purposes of determining at-risk Funding Target and at-risk Target Normal Cost, employees eligible to retire and receive a benefit in the next 11 years are assumed to retire when first eligible (but not before the end of the current plan year) and will elect to receive a single life annuity, the form of benefit producing the highest present value.

Terminated vested participants are assumed to commence receiving benefits at age 62.

Withdrawal rates¹

Rates vary by service and attained age. Rate during the first year of service is 35%, 30% during the second year of service, 25% during the third year of service, and 20% during the fourth year of service. For all remaining years of service, the following table applies:

Age	Assumption
20 – 24	20.0%
25 – 29	18.0%
30 – 34	16.0%
35 – 39	14.0%
40 – 44	12.0%
45 – 49	10.0%
50 – 54	5.0%

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in each of the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

The expected return on plan assets is 8.50% per annum for 2011 and 2012 and 8.00% per annum for 2013 and later, limited by PPA to the applicable Third Segment Rate as follows:

2012 measurement period:	7.52%
2011 measurement period:	6.57%

¹ For active participants not eligible for retirement.

**Schedule SB, line 15 – Reconciliation of differences between valuation results and amounts used
to determine AFTAP**

The Enrolled Actuary signed an AFTAP Certification on 9/29/2013. That certification used assets prior to final audited assets. It showed an Adjusted Funding Target Attainment Percentage of 73.21% using these values:

Funding Target	\$	106,009,512
Actuarial Value of Assets	\$	77,619,382
Adjusted Funding Target	\$	106,009,512
Adjusted Actuarial Value of Assets	\$	77,619,382

The 2013 AFTAP is 73.08% using final audited assets on line 2b and the Funding Target shown in line 3d. As this results in an immaterial change, the plan sponsor has not requested and the enrolled actuary has not signed a 2013 AFTAP Certification using final audited assets.

- (A) 0.6% of Final Average Compensation multiplied by Years of Benefit Service plus 0.6% of Final Average Compensation in excess of Covered Compensation multiplied by Years of Benefit service up to 35 years;
- (B) 0.6% of Final Average Compensation multiplied by Years of Benefit Service earned after June 30, 1989 up to 35 years plus 0.6% of Final Average Compensation in excess of Covered Compensation multiplied by Years of Benefit service earned after June 30, 1989 up to 35 years plus the participant's Accrued Benefit as of June 30, 1989;
- (C) 0.6% of Final Average Compensation multiplied by Years of Benefit Service earned after October 31, 1994 up to 35 years plus 0.6% of Final Average Compensation in excess of Covered Compensation multiplied by Years of Benefit service earned after October 31, 1994 up to 35 years plus the participant's Accrued Benefit as of October 31, 1994.

Hourly Employees: One-twelfth the greater of:

- (A) 0.42% of Final Average Compensation multiplied by Years of Benefit Service;
- (B) the participant's Accrued Benefit as of June 30, 1989.

January 1, 2012 and thereafter:

The sum of the (a) Participant's Accrued Benefit as of December 31, 2005 and (b) 0.08% of annual Compensation.

Normal Retirement

Eligibility

Termination of employment on or after attainment of age 65.

Benefit

Accrued Benefit determined as of the termination date. Payments commence on the first day of the month on or after date of termination.

Early Retirement

Eligibility

Termination of employment on or after attainment of age 55.

Benefit

Accrued benefit determined as of the termination date, payable commencing at the Participant's Normal Retirement Date.

At the option of the Participant, the benefit can become payable earlier on the first day of any month, but is reduced to reflect early commencement. The reduction is one-third of one percent for each of the first 60 months and one-half of one percent for each of the next 60 months that commencement of benefit payments commence precedes the Participant's Normal Retirement Date.

Schedule SB, Part V – Summary of Plan Provisions (continued)

Deferred Vested Retirement

Eligibility

Termination of employment after the completion of five years of vesting service.

Benefit

Accrued benefit determined as of the termination date, commencing at the Participant's Normal Retirement Date.

At the option of the Participant, the benefit can become payable at the participant's Early Retirement Date or the first day of any month thereafter. The amount of the benefit payable before the participant's Normal Retirement Date is the actuarial equivalent of the participant's Normal Retirement Benefit.

Death Benefits

Eligibility

Death after the attainment of age 55 or the age plus service greater than or equal to 70.

Benefit

50% of the participant's accrued benefit, not reduced for early commencement.

Pre-retirement Survivor Benefits

Eligibility

Death after completion of five years of vesting service and not eligible for the Death Benefit.

Benefit

Participant's spouse receives the benefit that would have been payable to the spouse if the participant had terminated employment prior to death, survived to age 55, elected a 50% Joint & Survivor annuity, and then died. If the benefit commences prior to the participant's Normal Retirement Date, the benefit shall be actuarially reduced to reflect early commencement.

Disability Benefits

Eligibility

Total and permanent disability after the completion of five years of vesting service.

Benefit

Accrued benefit determined as of the date of disability, commencing at the Participant's Normal Retirement Date.

At the option of the Participant, the benefit can become payable at the participant's Early Retirement Date or the first day of any month thereafter. The amount of the benefit payable before the participant's Normal Retirement Date is the actuarial equivalent of the participant's Normal Retirement Benefit.

SCHEDULE SB, LINE 32 – Schedule of Amortization Bases

Shortfall Amortization Summary

Date Established	Type of Base	Initial Amount	Remaining Installments	Shortfall Amortization Installment	Present Value of Remaining Installments as of January 1, 2013
January 1, 2008	Shortfall	\$ 5,596,603	2	\$ 936,073	\$ 1,828,081
January 1, 2009	Shortfall	\$ (3,975,960)	3	(705,529)	(2,018,513)
January 1, 2010	Shortfall	\$ 16,889,436	6	2,820,538	14,928,802
January 1, 2011	Shortfall	\$ 11,444,383	7	1,871,132	11,211,629
January 1, 2012	Shortfall	\$ (6,146,557)	6	(1,043,222)	(5,521,661)
January 1, 2013	Shortfall	\$ 8,099,098	7	<u>1,351,675</u>	<u>8,099,098</u>
Total				\$ 5,230,667	\$ 28,527,436

An election has been made under PRA 2010 to use the alternative 2 plus 7-year amortization period for the bases established in 2010 and 2011. Under 2 plus 7-year amortization, the required installments for the first 2 years of the amortization period equal interest on the base at the plan's effective interest rate for the plan year of the election. The balance is then amortized over the following 7 years in level installments determined using the discount rates for the plan year of the election. These results do not reflect the installment acceleration amount of \$1,537,137 in 2013 for the base established January 1, 2011.

The installments for the shortfall amortization base established January 1, 2011 will be \$1,871,132 through 2017 with a final installment of \$1,562,198 in 2018 after reflecting the IAA adjustments in the current and past plan years.
