LANGER JUICE COMPANY, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2013
(SEE INDEPENDENT AUDITORS' REPORT)

1. Description of Plan

The following description of the Langer Juice Company, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established on December 1, 1997 and amended effective July 1, 2006, is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code (the "Code") with deferred, matching and qualified non-elective under Section 401(k) of the Code. The Plan is a defined contribution plan covering all full-time employees of the Company who completed a minimum one year of service and one thousand hours.

In 2010, the Plan changed its year ending from November 30 to December 31.

Tax status of the Plan

The Company has adopted Datair Mass-Submitter Prototype Non-Standardized Cash or Deferred Profit Sharing Plan ("Prototype"). The Prototype has filed for a determination letter and received approval with Internal Revenue Service regarding the Plan's qualifications under Section 401(a) and the related trust's tax-exempt status under provisions of Section 501(a) of the Code.

Contributions

Under the terms of the Plan, eligible employees may elect to defer up to 100% of their annual compensation, limited to a maximum annual amount specified by the Internal Revenue Service. The maximum employee contributions were $17,500 for the year ended December 31, 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

1. Description of plan (Continued)

Contributions (Continued)

The Employer, at its discretion and as specified by resolution of the Board of Directors each year, may provide a matching contribution for the plan year. For the year ended December 31, 2013, the Employer did not provide matching contribution.

The Employer may also make other contributions, which are called non-elective contributions. These contributions are discretionary, including the discretion to forego a contribution for one or more plan years. The Employer has elected to provide a Safe Harbor Matching Contribution for Actual Deferral Percentage Test. For the year ended December 31, 2013, the Employer did not provide non-elective contributions.

Participants' accounts

Each participant's account is credited with the participant's contributions, the Employer's matching contributions and an allocation of non-elective contribution, if any, Plan earnings or losses, and forfeitures of terminated participants' nonvested accounts. The benefit to which a participant ultimately is entitled is the value of the participant's account, subject to vesting provisions, upon separation from the Plan or retirement.

Participant loans

Participant loans are valued at cost, which approximates fair value. The minimum loan amount is $1,000 and the maximum is limited to the lesser of 50% of the participant's vested balance or $50,000. Loans must be repaid in monthly installments of principal and interest through payroll deductions. The loans are secured by the vested balance in the participant's account. The interest rate charged on the loan is based on the market rates as determined by the plan administrator.

1. Description of plan (Continued)

Vesting

Participants are immediately vested in their salary deferral contributions, any rollovers from other plans, plus actual earnings thereon. Vesting in the employer matching contributions and non-elective contributions, if any, is 25% after two years of service, with vesting increasing 25% each year, thereafter, until the fifth year, at which time participants become 100% vested.

Participants become fully vested at the normal retirement age of 65, retirement due to disability, death or upon termination of the Plan.

Distributions

Amounts contributed through salary/wage reductions may be withdrawn by, or distributed to, a participant only upon termination of employment or attaining the age of 65 years. Withdrawals prior to attaining age 65 years are not permitted except in the event of disability or as a hardship distribution as defined in the Plan Agreement. Certain income tax penalties may apply to withdrawals or distributions prior to age 65 years.

Plan termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeitures

Any portion of a participant's account which is nonvested upon separation from service is forfeited. Forfeited accounts are reallocated to eligible participants on the basis of their compensation.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation

The Plan's investments are stated at estimated fair values, which have been determined based on the unit values of the funds. Unit values are determined by dividing the quoted market prices of fund assets by units outstanding at valuation dates.

Administrative expenses

All expenses incurred in maintaining the Plan are paid by the Plan unless the Employer, at its discretion, elects to pay all or part of these expenses. The Employer paid a significant portion of administrative expenses of the Plan during the year ended December 31, 2013.

Payment of benefits

Benefits are recorded when paid, as required by generally accepted accounting principles.

Valuation of assets

The Plan's assets are carried at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund.

2. Summary of significant accounting policies (Continued)

Valuation of assets (Continued)

The Plan's assets are carried at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund.

Effective November 30, 2008, the Company adopted ASU 2009-12, Fair Value Measurements and Disclosures from the FASB Accounting Standards Codification ("ASC 820") – Investment in Certain Entities that Calculate Net Asset per Share (or Its Equivalent). This amendment to ASC 820 allows entities to use the net asset value of certain investments when determining fair value, provided certain criteria are met. Adoption of this guidance had no impact on the financial statements of the Company's Funds.

Effective December 1, 2009, the Company adopted FAS 157, Fair Value Measurements, which is now incorporated into ASC 820. This guidance provides a single definition of fair value for accounting purposes, establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements.

ASC 820 requires, among other things, an exit value approach for valuing assets and liabilities, using the best available information about what a market would bear. The exit value approach focuses on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Exit values for liabilities should include margins for risk even if they are not observable. ASC 820 provides guidance on how to measure fair value when required under existing accounting standards. ASC 820 establishes a fair value hierarchy based on the observability of the inputs to valuation techniques used to measure fair value, sorted into three levels (Level 1, 2 and 3) with the most observable input level being Level 1.

2. Summary of significant accounting policies (Continued)

Valuation of assets (Continued)

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date. Fair value can be determined through the use of models or other valuation methodologies.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

ING Funds

Each of the Funds represents net contributions from plan participants that are allocated to that Fund (a sub-account of the relevant separate account). Each Fund invests solely in shares of a mutual fund (the "underlying funds") which are segregated from the other assets of ING Life Insurance and Annuity Company. Funds which are not sub-advised invest solely in mutual funds which are externally managed. Sub-advised Funds invest solely in shares of a fund within series issued by the ING Investment Trust, the ING Funds II or the ING Funds III, as the case may be. The underlying funds may hold a variety of assets, including derivatives, lend these securities, and may be subject to credit or concentration risk. Each Fund bears its own expenses and indirectly bears its proportionate share of expenses of the underlying fund in which it invests. These funds are classified within level 1 of the valuation hierarchy.

2. Summary of significant accounting policies (Continued)

Valuation of assets (Continued)

Loans to Participants

Loans to plan participants are valued at cost plus accrued interest, which approximates fair value and are classified within the level 3 of the valuation hierarchy.

Money Market Funds

These investments are uninvested funds and are classified within level 2 of the valuation hierarchy.

Below are the Plan's financial instruments carried at fair value on a recurring basis by ASC 820 fair value hierarchy levels described above:

	As of December 31, 2013			
	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Assets:				
ING Funds	$ 1,053,509	$ -	$ -	$ 1,053,509
Participant loans	-	-	61,773	61,773
Money Market Funds	-	1,913	-	1,913
Total assets	$ 1,053,509	$ 1,913	$ 61,773	$ 1,117,195

2. Summary of significant accounting policies (Continued)

Valuation of assets (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investment assets and liabilities for the year ended December 31, 2013:

	As of December 31, 2013			
	Beginning Fair Value	Gain/ (Loss)	Issuances/ Repayments, Net	Ending Fair Value
