1. Description of Plan

General

The Paul C. Higginbotham & Co. Savings and Investment Plan and Trust (the "Plan") is a defined contribution plan established to provide retirement, disability, and death benefits for qualified employees of Hig Holdings, Inc. (the "Company") and affiliates. On January 1, 1997, the Plan adopted the Principal Financial Group Prototype for Savings Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participants should refer to the plan document for a more complete description of the Plan's provisions.

Plan Administration

The Plan is administered by a committee (the "Administrative Committee") whose members are appointed by the Company's board of directors. Additionally, two officers of the Company are custodians of the Plan. The custodians are charged with governance responsibility. Under the Plan, Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company (the "Custodians") hold the Plan's investment assets and execute investment transactions. Principal Life Insurance Company (the "Recordkeeper") maintains the accounting of participant accounts.

Eligibility

The Plan covers all employees of the Company who have three months of service and have reached age twenty-one. Eligible plan participants may begin making contributions as of any of the entry dates: January 1, April 1, July 1, or October 1.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the plan document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company may make discretionary contributions at the option of the Company's board of directors. The Company did not contribute to the Plan for plan year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions and allocations of plan earnings and administrative expenses, if applicable. Allocations are based on account balances or earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and rollover contributions, if applicable, plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts is based on years of continuous service, as follows:

Number of Completed Years of Service	Vesting Percentage
Less than 1	0%
1 year, less than 2 years	25%
2 years, less than 3 years	50%
3 years, less than 4 years	75%
4 years or more	100%

A year of service, for vesting purposes, is defined using the elapsed time method without regard to hours of service. Notwithstanding the vesting specified above, an employee's right to his or her account will vest 100% upon attainment of normal retirement age, death, or disability.

Forfeited Accounts

At December 31, 2013 and 2012, there were no forfeitures in the Plan. In accordance with Plan provisions, amounts are used first to reduce employer contributions and then to pay for administrative expenses of the Plan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or any annual installments over a fifteen year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes Receivable from Participants

Participants are allowed to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by, if any, the highest outstanding loan balance within the previous 12-month period or 50% of the participant's vested account balance. Loans are secured by the balance in the participant account and bear interest at rates ranging from 3.25% to 6.50% as of December 31, 2013 with various maturity dates through June 2018. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years from the date of the loan, unless used to acquire a principal residence.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation/(depreciation) includes realized gains and losses on investments sold during the year as well as appreciation of the investments held at the end of the year.

The Plan's investment in the guaranteed investment contract is valued at fair value because it is not considered a fully benefit-responsive investment contract as defined by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") topic, *Plan Accounting – Defined Contribution Pension Plans*.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefit payments to participants are recorded upon distribution from the Plan.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

New Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update ("ASU") 2013-09, Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans, in Update No. 2011-04. ASU 2013-09 amended ASC 820, Fair Value Measurements and Disclosures, to defer

indefinitely the effective date of certain required disclosures in Update 2011-04 of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its Plan sponsor's own nonpublic entity equity securities, including equity securities of its Plan sponsor's nonpublic affiliated entities. The deferral in this amendment is effective upon issuance. The adoption of ASU 2013-09 did not have an effect on the Plan.

3. Investments

The following presents investments that represent 5% or more of the Plan's net assets as of December 31:

Total investments	**$ 25,618,125**	$ 20,468,971

*Investment did not represent 5% or more of the Plan's net assets available for benefits.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

December 31,	**2013**
Registered Investment Companies	**$ 1,401,110**
Pooled Separate Accounts	**2,330,982**
Guaranteed Investment Contract	**(3,733)**
	$ 3,728,359

4. Fair Value of Investments

FASB ASC topic *Fair Value Measurements and Disclosures* provides the framework for fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The hierarchy gives the

highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this guidance are described as follows:

Basis of Fair Value Measurement

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered Investment Companies

Investments in registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded. These funds are classified as level 1.

Pooled Separate Accounts

Investments in pooled separate accounts are valued based on the basis of the number of units held by each participating investor in the fair value of the underlying assets of the respective separate accounts. While a majority of the underlying assets values are based on quoted prices, the NAV of the pooled separate account is used as a practical expedient to estimate fair value. The NAV is determined by the investment account manager as of the financial statement date. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. These funds are classified as level 2.

Guaranteed Investment Contract

Investments in guaranteed investment contracts are valued at the amount plan participants would receive if they were to withdraw or transfer funds with the Plan prior to their maturity.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. These funds are classified as level 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed Investment Contraction	$ 566,566	Guaranteed interest rate	Underlying assets	0.44%-1.74%	1.10%

Fair Value of Investments in Entities that Use Net Asset Value

The fair value of the separate accounts based on NAV per share as of December 31, 2013 and 2012 was $14,215,092 and $10,664,608, respectively. The separate accounts held by the Plan provide for daily redemptions by the Plan at reported net asset value with no advance notice requirement. The Plan is permitted to redeem investment units at net asset value on the measurement date.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

6. Information Prepared and Certified By the Custodians (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodians have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012;

- Net investment gain, as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013 as follows:

Year ended December 31,	**2013**
Interest & Dividends	**$ 629,906**
Net appreciation in fair value of investments	**$ 3,728,359**

- Investment values disclosed in Note 4;
- Investment information disclosed in Note 3; and
- Investments, as reflected in the Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013.

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by Principal Life Insurance Company and Principal Global Investors. Principal Life Insurance Company is the custodian as defined by the Plan and Principal Global Investors is a related party to Principal Life Insurance Company, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

9. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS and the DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to examinations for years prior to 2010.

10. Subsequent Event

The date to which events occurring after December 31, 2013, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 10, 2014, which is the date on which the financial statements were available to be issued.
