NOTE 1. PLAN DESCRIPTION

The following description of the San Gabriel Transit & Affiliates 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of the San Gabriel Transit, Inc. and other participating companies under common control, as listed in the Plan document (collectively, the Company), except for those covered by collective bargaining agreements, leased employees and non-resident aliens. There is no age or service requirement for an employee to participate in the Plan. To receive discretionary Company matching contribution (see below), a participant must have attained the age of 21 and must have completed a year of service.

The Plan is a defined contribution plan and is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts and Contributions: Participants may contribute up to 90% of their eligible pre-tax compensation, as defined in the Plan. Participants may also make a separate election to defer up to 100% of any bonus. Total participant contributions are subject to annual limits under the IRC. The maximum participant deferral limit was $17,500 for the year ended December 31, 2013. Employees who had attained age 50 or older as of December 31, 2013 may elect to make catch-up contributions in accordance with the IRC. The catch-up contribution is limited to $5,500 for the year ended December 31, 2013. The Plan allows rollover contributions.

The Company may make a discretionary matching contribution equal to a discretionary percentage determined by the Company. The Company may also make annual discretionary profit sharing contributions to the Plan. The Company did not make any discretionary matching or profit sharing contributions to the Plan for the year ended December 31, 2013.

Each participant's account is credited with the participant's contribution and allocations of the Company's discretionary matching and profit sharing contributions, investment earnings and is charged with an allocation of administrative expenses.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in discretionary Company matching contributions and profit sharing contribution is based on years of continuous service as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

NOTE 1. PLAN DESCRIPTION (Continued)

Vesting (continued): Notwithstanding the above, if a participant (1) attains the age of 65, (2) dies, or (3) terminates employment by reason of permanent disability, the Company discretionary amounts become 100% vested without regard to years of service.

Benefit Payments: Upon retirement, death, disability or other termination of employment, a participant or beneficiary is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her own account. Account balances of $1,000 or less can be distributed whether or not requested.

In-service distributions are allowed when a participant either attains age 59-1/2 or experiences a financial hardship as defined by the IRC. Such withdrawals are subject to applicable excise and income taxes and may only be made with the approval of the Plan Administrator.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes Receivable from Participants: Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of the participant's vested balance. Two loans may be outstanding at any time by a participant. The notes receivable from participants are secured by the vested balance in the participant's account and bear a reasonable rate of interest at prime rate plus 1%. Principal and interest are paid ratably through payroll deductions over a term not to exceed five years or extend beyond the participant's normal retirement.

Forfeitures: Terminated participants' unvested Company contributions, if any, would be retained in the Plan as forfeitures and may be used to pay administrative expenses. Forfeitures available as of December 31, 2013 were immaterial.

Administrative Expenses: The Company incurs certain expenses in administering the Plan relating to investment advisory and recordkeeping services, which are not passed on as expenses of the Plan. Administrative expenses charged to the Plan consist of charges related to investment transactions, benefit payments and loan processing.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Investments: The Plan's investments are stated at fair value. Investments in shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of the shares held at year end. Money market funds are stated at their carrying values, which approximate fair values.

Realized and Unrealized Appreciation: Realized and unrealized appreciation is based on the market value of the assets at the end of the Plan year compared to the market value of the assets at the beginning of the Plan year, or at the time of purchase for assets purchased/exchanged during the Plan year.

Notes Receivable from Participants: Participant loans are classified as notes receivable from participants and are measured at their unpaid principal balance, plus accrued but unpaid interest at the end of the period.

Benefit Payments: Benefits are recorded when paid.

Subsequent Events: The management of the Plan has evaluated subsequent events for recognition and disclosure through October 1, 2014, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements: On July 8, 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04,* which was effective upon issuance. The amendments in this Update defer indefinitely the effective date of certain required disclosures in Update No. 2011-04 (Topic 820) of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this Update do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. This Update No. 2013-09 did not have an effect on the Plan's financial statements.

NOTE 3. CERTIFIED INFORMATION

The financial information included in the Plan's financial statements as it relates to investment assets, investment transactions, investment income, notes receivable from participants, and the schedule of assets held at end of year have been derived from information certified as complete and accurate by MG Trust Company, LLC, the Plan trustee, in accordance with Section 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 5. INCOME TAX STATUS

The Company has adopted a non-standardized prototype plan that has received a favorable opinion letter dated March 31, 2008, from the Internal Revenue Service (IRS), which stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require the Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and concluded that, as of December 31, 2013, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE 6. RISKS AND UNCERTAINTIES

The Plan invests in various investment funds which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7. FAIR VALUE MEASUREMENTS

Fair value is determined based on assumptions that a market participant would use in pricing an asset or liability. Measurements of fair value are classified within a hierarchy based upon valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are as follows:

Level 1 Observable quoted prices in active markets for identical assets and liabilities.

Level 2 Observable quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 Model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

The following methods and assumptions were used to estimate the fair value of each class of assets that are measured at fair value. There have been no changes in the methodologies used as of December 31, 2013.

Money Market Funds: The carrying value approximates fair value.

Mutual Funds: Valued using quoted market prices which represent the net assets value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
