NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note 1 Description of Plan

The following description of the F-D-S Manufacturing Company, Inc. 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan consists of a profit sharing and 401(k) feature. The profit sharing feature is a discretionary, contributory defined contribution profit sharing plan covering substantially all employees of the Company who have attained the age of twenty and have completed one year and one thousand hours of service. Effective August 23, 2004, the profit sharing plan of F-D-S Manufacturing Company, Inc. (the Company) added 401(k) salary deferral and employer matching contribution features. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may voluntarily contribute up to 100% of pretax compensation, as defined in the Plan and subject to limitations by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer matching contributions are allowed under the Plan. Additional employer amounts may be contributed at the option of the Company's board of directors. The Company has elected to make matching contributions of $25,000 and $50,000 for the years ending December 31, 2013 and 2012, respectively.

Participant Accounts and Vesting - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants - Loans to participants are not permitted.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annuities that are offered by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 1 Description of Plan (continued)

Forfeitures - The non-vested portions of participants' employer-derived account balance are treated as forfeitures. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $357 and $3,819 respectively. These accounts can be used to offset plan expenses or may be used to reduce the employer's matching contributions.

Note 2 Summary of Accounting Policies

Date of Management's Review - Subsequent events were evaluated through October 10, 2014, which is the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles, requires the plan administrator to make estimates and assumptions that affect the reported amounts of these assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include only assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. As described, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participant would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments.

Investment Valuation and Income Recognition - The Plan's investments are reported at the value reported to the Plan by the trustee, which represents fair value except for its investment contract. Investments in insurance company deposit administration contracts (guaranteed investment contracts or GIC's) are reported at contract value as determined by the trustee if the contract is fully benefit responsive, or otherwise at fair value. The asset trustee during 2013 and 2012 was ING Life Insurance and Annuity Company (ING). Investments in pooled separate accounts are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. See Footnote 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 Summary of Accounting Policies (continued)

Payment of Benefits - A participant eligible for distribution may elect to have the amount paid in cash in one lump-sum. Any distribution to a participant who has a benefit which exceeds $5,000, shall require such participant's written (or in such other form as permitted by the Internal Revenue Service) consent if such distribution occurs prior to the time the benefit is "immediately distributable." A benefit is "immediately distributable" if any part of the benefit could be distributed to the participant (or surviving spouse) before the participant attains or would attain (or would have attained if not deceased) the later of the participant's normal retirement age or age 62.

Administrative Expenses - All expenses of maintaining the Plan are paid by the Company.

Note 3 Related Party Transactions

Certain Plan investments are pooled separate accounts consisting of shares of mutual funds managed by ING Life Insurance and Annuity Company (ING). ING is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transaction by the United States Department of Labor's (DOL) Rules and Regulations.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 4 Investments Certified By Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by ING, the Plan Trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules.

The Trustee has certified as to the completeness and accuracy of all investment balances reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, all of the investment activity is reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013, and all investment information in the supplemental schedules.

Pooled separate account	388,060
Net appreciation (depreciation) in fair value of investments	$ 413,079

Note 5 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Note 5 Fair Value Measurements (continued)

LEVEL 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, with the fair value hierarchy:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Money market account	$ 28,297	$	$	$ 28,297
Pooled separate accounts		2,139,840		2,139,840
Guaranteed investment contract			950,029	950,029
	$ 28,297	$2,139,840	$ 950,029	$3,118,166

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Money market account	$ 3,819	$	$	$ 3,819
Pooled separate accounts		1,717,979		1,717,979
Guaranteed investment contract			935,287	935,287
	$ 3,819	$1,717,979	$ 935,287	$2,657,085

Note 5 Fair Value Measurements (continued)

The table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance, beginning of year	$ 935,287
Unrealized gains/(losses) related to instruments still held at the reporting date	(39,838)
Purchases, sales, issuances and settlements (net)	54,580
Balance, end of year	$ 950,029

The table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012:

	Guaranteed Investment Contract
Balance, beginning of year	$ 993,208
Unrealized gains/(losses) related to instruments still held at the reporting date	22,186
Purchases, sales, issuances and settlements (net)	(80,107)
Balance, end of year	$ 935,287

Note 6 Investment Contract with Insurance Company

The Plan maintains an investment in a guaranteed investment contract with ING (ING Fixed Account), which is determined to be fully benefit-responsive. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by ING. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Note 6 Investment Contract with Insurance Company (continued)

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measure for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $950,029 and $935,287, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 2.60%. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required Plan Administrator does not believe that any events would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields		
Based on actual earnings	2.93%	3.25%
Based on interest rate credited to participants	2.93%	3.25%

Note 7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the respective participant interest, net of any termination fees, the vested interest of any participant shall not be diminished or adversely affected, and will be distributed to each participant in accordance with the Trust Agreement.

Note 8 Tax Status

The Company has adopted a 401(k) Plan and related trust. The Internal Revenue Service (IRS) has determined that the Plan and related trust are designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 9 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
