The Plan's investments reported in these financial statements are the underlying assets of the Master Trust.

Contributions

All employees are eligible to participate in the Plan immediately upon the date of hire. A contribution will be made for each eligible participant while performing work covered by Prevailing Wage Laws.

Contributions into the Plan are based on the prevailing wage rate based on the jurisdictions the participant is working in.

Participant Accounts

Each participant's account is credited with the Sponsor's contribution and Plan earnings/losses on all contributions. Allocations are based on participant's earnings/losses or account balances, according to specific terms provided by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their account balance, which includes the Sponsor`s contributions and actual earnings/losses thereon.

Note 1 - Description of Plan (cont'd.)

Notes Receivable from Participants

Participants may borrow from their fund accounts a maximum equal to 100% of their vested account balance. The loans generally must be repaid over a period no longer than five years. The loans are collateralized by the balance in the participant's account and bear interest rates that are commensurate with local prevailing rates as determined by the Plan administrator. Generally, interest rates are at prime rate plus 1%. In 2013, interest rates on loans were 4.25%.

Payment of Benefits

The Plan provides for normal retirement at 59 ½ years of age, or early retirement. The Plan permits distribution to participants upon termination of services after 90 days from termination, retirement at age 65, and disability or death immediately. Distribution of benefits to participants will be made in a partial, full lump sum or in installment payments.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments in common collective trusts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the common collective trusts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits reflects change in value of the common collective trusts on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Administrative expenses of maintaining the Plan are paid out of Plan assets, to the extent allowed by ERISA. All administrative expenses were paid out of the Plan for the year ended December 31, 2013.

Note 3 - Information Prepared and Certified By Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Beneco Trust Company, the trustee of the Plan, at December 31, 2013 and 2012 and for the years then ended. Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: the mutual funds are valued at the closing price reported in the active market in which the mutual funds are traded.

Common/Collective Trust Funds: the trust funds are based on the audited financial statements of the common/collective trust.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (cont'd.)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:

Note 6 - Investment Contract with Insurance Company

The Plan entered into an investment contract with Wells Fargo. Each account is credited with participant contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value as reported to the Plan by Wells Fargo. Contract values represent contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events initiated by the Plan limit its ability to transact at contract value with the issuer. Such events include, but are not limited to, (1) total or partial plan termination, (2) mergers, (3) spin-offs, (4) lay-offs, (5) early retirement incentive programs, (6) sales or closings of all or part of a participating plan sponsor's operations, (7) bankruptcy or (8) receivership. The Plan's management believes that the possibility of any of the above listed events occurring is remote.

The average yield and crediting interest rates for 2013 and 2012 are as follows:

	2013	2012
Average yield	1.36%	0.94%
Crediting interest rate	1.52%	1.95%

The crediting interest rate is based on a formula agreed.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Sponsor by a letter dated March 31, 2008, that the Plan, based on its initial filing as a Prototype Plan, is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the IRS.

Note 8 - Tax Status (cont'd.)

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan started in July 2011, and therefore from this date forward, the Plan is subject to income tax examinations.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 10 - Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 to the Form 5500:

Net assets available for benefits per the financial statements	$	3,594,132
Adjustment for contract value to fair value for fully benefit-responsive investment contracts		2,175
Adjustment for employer contributions receivable		(22,800)
Net assets available for benefits per the Form 5500	$	3,573,507

The following is a reconciliation of total income for the year ended December 31, 2013 per the financial statements to the Form 5500:

Total income per the financial statements	$	2,364,365
Adjustment for contract value to fair value for fully benefit-responsive investment contracts		2,175
End of year contributions receivable		(22,800)
Total income per the Form 5500	$	2,343,740

Note 11 - Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2013 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
