PIEDMONT AIR CONDITIONING COMPANY THRIFT AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Piedmont Air Conditioning Company Thrift and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Piedmont Air Conditioning Company (the "Company" or "plan sponsor") for the benefit of its employees who satisfied the service requirements. The service requirements are sixty days of service for salary deferrals and one year of service for matching and profit sharing contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year, participants may contribute up to 90% of annual pre-tax compensation, as defined in the Plan, up to the allowable amount permitted by law. Additionally, participants age 50 or over, who are making contributions to the Plan, are allowed to make catch-up contributions and the Plan allows for Roth contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("rollover"). Company matching contributions equal to a discretionary percentage of participants' elective deferrals are determined annually by the Company's board of directors. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain Internal Revenue Code ("IRC") limitations. For the year ended December 31, 2013, \$100,000 in profit sharing contributions were made to the Plan.

Participant investment account options - Participants direct the investment of their contributions into various investment options offered by the Plan which consist of various mutual funds and a common/collective trust fund as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant's contributions and Company matching contributions plus actual earnings are 100% vested immediately. Company profit sharing contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
0-1	0
2	20
3	40
4	60
5	80
6	100

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator for a term not exceeding five years and with level payments to be made not less frequently than quarterly. Principal and interest are paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Payment of benefits - Upon retirement, disability, or death, the entire balance of the participant's account becomes payable to the participant or designated beneficiary(ies). Upon any other termination of employment, the participant receives the vested portion of his/her account. If the vested portion of the participant's account is greater than \$5,000 the participant can elect to receive the benefits in a lump sum or installments as specified in the Plan. Lump sum distributions are available for accounts with vested balances less than or equal to \$5,000.

In-service distributions are available after age 59-1/2 and for hardship as defined in the Plan.

Forfeited accounts - As of December 31, 2013 and 2012, forfeited nonvested accounts available for use were \$24,147 and \$31,645, respectively. Per the provisions of the Plan, forfeitures of profit sharing contributions are first used to pay Plan expenses, then reallocated to participant accounts. During the year ended December 31, 2013, \$14,500 of forfeitures were used to pay Plan expenses.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of mutual fund investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Unit values - Individual participant accounts for the common/collective trust fund are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the fund, but do have an interest therein represented by units valued daily. The fund earns dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from the fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Expenses of the Plan are paid from Plan assets, except for expenses paid by the plan sponsor which are not included in the statement of changes in net assets available for benefits. Fees related to distributions and administration of notes receivable from participants are charged directly to the applicable participant account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of mutual fund investments.

(4) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of mutual fund investments
- Interest and dividends
- Other income
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

(4) Information prepared and certified by the trustee (continued)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 topic, "Fair Value Measurements and Disclosures," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Common/collective trust fund: Valued at the estimated fair value as determined by the issuer of the common/collective trust fund based on the fair market value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) The fair value of the investment in the stable value fund has been estimated using the unit value of the underlying investments. The stable value fund is redeemable at the stable value fund's market value upon ten days' notice, and contract value with the required one-year notice. Additionally, there are no unfunded commitments for participants in the Plan who invest in this investment. See Note 6 for the description of the stable value fund.

NOTES TO FINANCIAL STATEMENTS

(6) Stable value fund

The Invesco Stable Asset Trust (the "Trust") is a common/collective trust fund that is considered to be a stable value fund with underlying investments in investment contracts and is valued at fair value and then adjusted by the issuer to contract value. Fair value of the stable value fund is the NAV of its underlying investments and contract value is principal plus accrued interest. The Trust is a stable value fund that is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The Trust's investment objective is to seek preservation of capital and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. To achieve its investment objective, the Trust invests in synthetic guaranteed investment contracts ("Synthetic GIC's"). Synthetic GIC's are portfolios of securities (debt securities or units of common/collective trust funds) owned by the Trust with wrap contracts associated with the portfolios. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with plan participants are probable of occurring. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

(7) Party-in-interest transactions

Certain Plan investments are held by State Street Bank and Trust Company, the trustee. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees paid by the Plan to the trustee for investment management services are included in net appreciation in fair value of mutual fund investments. Fees paid by the Plan to other exempt parties-in-interest for investment advisory services and other professional services were \$24,214 for the year ended December 31, 2013. Fees paid by the Plan to the recordkeeper for loan and distribution administration were \$3,321 for the year ended December 31, 2013.

(8) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer profit sharing contributions.

Miscellaneous	(89)
	<u>8,432</u>
Net increase in net assets available for benefits per Form 5500	<u>\$ 3,087,947</u>

(10) Tax status

The Internal Revenue Service ("IRS") has determined the prototype plan adopted by the Plan is designed in accordance with applicable sections of the IRC and informed the prototype sponsor of such in a letter dated March 31, 2008. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(11) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

PIEDMONT AIR CONDITIONING COMPANY THRIFT AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(12) Subsequent events

The Plan has evaluated subsequent events through October 8, 2014, the date the financial statements were available to be issued. In August 2014, plan management approved to change the Plan's trustee and recordkeeper from State Street Bank and Trust Company and ADP Retirement Services, respectively, to Fidelity Management Trust Company. This transfer occurred on October 1, 2014.
