Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Participants of the Dex One Retirement Account and
Plan Administrator

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Dex One Retirement Account (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2013 and 2012 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

(Continued)

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Dex One Retirement Account (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General: In July 1998, Dex One Corporation ("Dex One"), formerly known as R.H. Donnelley Corporation ("RHD"), separated from The Dun & Bradstreet Corporation ("D&B") and became an independent public company. Prior to the separation from D&B, Dex One's employees were participants in The Dun & Bradstreet Retirement Account (the "D&B Plan"). Effective July 1, 1998, Dex One established the Plan and all eligible Dex One employees who participated in the D&B Plan became participants in the Plan. Qualified service with D&B and its partially or wholly-owned subsidiaries was counted for purposes of eligibility, vesting and benefits under the Plan. Retired and terminated Dex One employees with vested benefits at June 30, 1998 maintained their membership in the D&B Plan. Effective January 31, 2006, Dex One merged with Dex Media, Inc., which became a direct wholly-owned subsidiary of Dex One. Dex Media, Inc. maintains a separate pension plan for Dex Media, Inc. employees. As of January 1, 2007, certain benefits accrued under the DonTech Retirement Account were merged into the Plan.

On March 18, 2013, Dex One and all of its subsidiaries filed voluntary bankruptcy petitions in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court") for reorganization under the provisions of Chapter 11 of Title 11 of the United States Code (the "Bankruptcy Code"). Concurrently with filing the bankruptcy petitions, Dex One and its subsidiaries filed and requested confirmation of a Joint Prepackaged Chapter 11 Plan (as modified and supplemented, the "Dex One Prepackaged Plan"), seeking to effect the merger and related transactions contemplated by the Amended and Restated Merger Agreement, dated as of December 5, 2012 (the "Merger Agreement"), by and between Dex One, SuperMedia, Newdex, Inc., a direct, wholly-owned subsidiary of Dex One ("Newdex"), and Spruce Acquisition Sub, Inc., a direct, wholly owned subsidiary of Newdex ("Merger Sub"). Also on March 18, 2013, SuperMedia and all of its domestic subsidiaries filed separate voluntary bankruptcy petitions in the Bankruptcy Court, seeking approval of SuperMedia's separate prepackaged plan of reorganization (together with the Dex One Prepackaged Plan, the "Prepackaged Plans").

On April 29, 2013, the Bankruptcy Court held a hearing and entered separate orders confirming the Prepackaged Plans. On April 30, 2013, Dex One and SuperMedia (1) consummated the transactions contemplated by the Merger Agreement, including (a) the amendment and restatement of SuperMedia's senior secured credit facility, (b) the merger of Dex One with and into Newdex, with Newdex continuing as the surviving corporation and changing its name to Dex Media, Inc. ("Dex Media," the "Company" or "Plan Sponsor"), (c) the merger of SuperMedia with and into Merger Sub, with SuperMedia surviving as a wholly owned subsidiary of Dex Media, Inc. and (d) the amendment and restatement of the credit facilities of R.H. Donnelley Inc., Dex Media West, Inc., and Dex Media East, Inc., (2) otherwise effected the transactions contemplated by the Prepackaged Plans, and (3) emerged from Chapter 11 protection. The merger and other transactions contemplated by the Merger Agreement and the Prepackaged Plans had no material effect on the Plan.

The Plan is a non-contributory cash balance defined benefit plan established to provide pension benefits to eligible employees of the Company. The Plan is funded by contributions from the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and certain sections of the Internal Revenue Code ("IRC").

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Trustee and Administration of the Plan: The Trustee of the Plan is Northern Trust Company ("Northern Trust" or "Trustee"). The Trustee holds all assets of the Plan in accordance with provisions of the agreement with the Company. Mercer HR Services, LLC provides certain administrative and actuarial services to the Plan.

Effective January 1, 2009, the Dex Media, Inc. Pension Plan ("Dex Pension Plan") began to participate in the Dex One Corporation Retirement Account Master Trust (formerly known as the R.H. Donnelley Corporation Retirement Account Master Trust) ("Master Trust"), which was previously established for the investment of assets of the Plan.

Prior to the merger of Dex One and SuperMedia, the Plan administrator was the Company's Employee Benefits Committee (the "EBC") and the Asset Management Committee (the "AMC") (collectively "Plan Administrator"), which were appointed by the Compensation and Benefits Committee of Dex One's Board of Directors. The EBC had the authority to select, retain, monitor and discharge recordkeepers and was responsible for administering the Plan, including day to day functions, benefit payments, and claims and for executing amendments. The AMC had authority to remove and/or instruct the Trustee, establish and maintain a funding and investment policy, and select and monitor investment managers and funds. Effective April 30, 2013, the Plan administrator of the Plan is the EBC and AMC of Dex Media (collectively "Plan Administrator") which was appointed by the Compensation and Benefits Committee of Dex Media's Board of Directors.

Participation and Eligibility: As of December 31, 2008, the Plan is closed to new participants. Prior to December 31, 2008, employees of the Company became eligible for participation on the first day of the month following attaining age 21 and completing one Period of Service as defined in the Plan Document.

Benefits for Employees: Effective December 31, 2008, the Company froze the Plan and all future benefit accruals ceased; however, interest credits on participant account balances under the account balance formula continue until the commencement of benefit payments. In addition, years of service for vesting and early retirement benefit eligibility continue as long as participants remain employed by the Company. No compensation paid to an employee after December 31, 2008 shall be included in the determining a participant's average final compensation.

Benefits under the Plan are calculated based on years of service and percentage of total annual compensation. This "cash balance benefit" is an annual benefit equal to a retirement account balance converted to an actuarially equivalent life annuity at retirement. The retirement account is comprised of an initial retirement amount converted as of December 31, 1996 (if applicable) plus monthly pay and interest credits through December 31, 2008 plus monthly interest credits through the benefit commencement date. The percentage of compensation that was used to determine the monthly pay credits ranged from 3.0% to 12.5% depending on the participant's age and years of service. Benefits for certain employees who were participants in the predecessor D&B Plan and who met certain "grandfathered" criteria are determined based on the participant's average compensation and years of service ("final average pay formula"), as further described in the Plan Document.

Benefit payments will be based on the individual cash balance account or the grandfathered final average pay formula, if applicable, as of the benefit commencement date. Benefits are paid in the form of a life annuity for unmarried participants and a 50% joint and survivor annuity for married participants, unless an alternative form of payment is elected. Early retirement benefits are available in a reduced amount any time after age 55 and completion of ten years of service, based on certain factors and tables included in the Plan Document.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Effective on or after March 28, 2005, if a participant with a vested benefit greater than \$1,000 but less than \$5,000 does not elect a lump-sum distribution or a direct rollover into another qualified account, the Plan will pay the distribution as a direct rollover to an individual retirement account designated by the EBC. Amounts \$1,000 or less are automatically paid in a lump-sum to the participant.

Death and Disability Benefits: If an employee with at least 5 years of vesting service becomes totally and permanently disabled while in active service, the employee can elect to receive their monthly benefit immediately or defer payment to a later date. When an employee dies, the full value of the employee's account is payable to their beneficiary in the form of a monthly annuity.

Vesting: Employees with at least one hour of service after December 31, 2007 are fully vested in plan benefits upon completion of 3 years of service as required under The Pension Protection Act of 2006 (the "Act"), or upon reaching age 65. For purposes of vesting, a year of service is awarded after completing a Period of Service as defined in the Plan Document.

Funding Policy: Contributions are actuarially determined and funded in accordance with the provisions of ERISA. The Company's funding policy is to contribute an amount at least equal to the minimum legal funding requirement established by ERISA.

For the Plan years ended December 31, 2013 and 2012, the Company was required to make contributions of \$2,321,783 and \$2,139,425, respectively, into the Plan. The Company contributed \$3,620,000 and \$2,435,000 for the 2013 and 2012 plan years, respectively, which exceeded the minimum funding requirements. Of these amounts, \$2,015,000 and \$85,000 were funded in 2014 and 2013, respectively, and are shown as employer contributions receivable on the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, respectively.

Termination of the Plan: Although the Company has not expressed any intention to do so, it may terminate the Plan at any time. The rights of all affected employees to benefits accrued upon termination are nonforfeitable. Upon termination, the accrued benefits of all affected participants shall become allocated in accordance with the guidelines prescribed by the Plan and ERISA and its related regulations.

If the Plan terminates, whether that be voluntary, involuntary or distressed, certain benefits under the Plan are insured by the PBGC, a U.S. Governmental agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pension benefits. However, the PBGC does not guarantee all types of benefits provided by covered plans and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency at that time of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's interest in Master Trust investments is stated at fair value. See Note 5, *Fair Value Measurements*, for additional information. Purchases and sales of the Plan's interest in Master Trust investments are recorded on a trade-date basis. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the Plan's interest in the Master Trust investment gain (loss), which consists of the Plan's pro rata interest in realized gains (losses), the unrealized appreciation (depreciation) of the investments, dividend and interest income, and expenses. Dividend income of the Master Trust is recorded on the ex-dividend date. Interest income of the Master Trust is recorded on the accrual basis. Fees paid by the Master Trust for investment management services are reflected as a reduction of the investment return earned by such investments.

Estimates: The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make significant estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. The most significant of these estimates relates to the determination of the accumulated plan benefits and the Plan's funded status. See Note 1, *Description of Plan – Funding Policy* and Note 3, *Actuarial Present Value of Accumulated Plan Benefits* for additional information. Actual results could differ from these estimates and such differences could be material.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions for services rendered by the employees as of the valuation dates. See Note 3, *Actuarial Present Value of Accumulated Plan Benefits*, for additional information. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries upon retirement, death, disability or termination. Benefits for retired, terminated and disabled employees or their beneficiaries are based on each former employee's credited service prior to his or her termination or retirement date. Accumulated plan benefits for active employees are based on each employee's credited service preceding the valuation date. Benefits payable under all circumstances noted above are included in the computation of the actuarial present value of accumulated plan benefits to the extent that they are deemed attributable to employee service rendered through the valuation date.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits. This is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The effect of any plan amendments on accumulated plan benefits is recognized at the time such amendments are approved.

Concentrations, Risks and Uncertainties: Investments held through the Master Trust consist of various investments in corporate common and foreign stock, registered investment companies, U.S. government securities (including U.S. Government bonds, government mortgage backed securities, index-linked government bonds, short-term bills and notes and guaranteed commercial paper), corporate debt (including corporate bonds, commercial mortgage backed securities, asset backed securities, collateralized mortgage obligations and commercial paper), collective trusts, a collective fund – group trust, and certain derivative instruments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

See Note 6, *Derivative Financial Instruments*, for additional information on Master Trust investments in derivative financial instruments. Investments and derivative instruments, in general, are exposed to various risks, such as interest rate, credit, market, liquidity, currency and overall market volatility risk. Due to the level of risk associated with certain investments and derivative instruments and their level of uncertainty, it is at least reasonably possible that changes in the values of investments and derivative instruments may occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the funded status of the Plan.

The Master Trust invests in securities with contracted cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage back securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the amounts reported in the financial statements.

The Pension Protection Act of 2006 imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. A Plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2013 and 2012 AFTAP for the Plan is 93.28% and 95.89%, respectively. Because the Plan's AFTAP met or exceeded the required threshold, the Plan was not subject to any benefit restrictions.

Benefit Payments: Benefits are recorded when paid. Amounts requested but not paid as of December 31, 2013 and 2012 were \$909,658 and \$610,223, respectively.

Expenses and Administrative Costs: The Plan's investment and administrative expenses are generally paid by the Plan or through the Master Trust as provided for in the Plan and trust documents. The plan expenses paid or payable from the Plan's assets were \$708,723 and \$664,220 for the years ended December 31, 2013 and 2012, respectively. Expenses paid through the Master Trust for investment related activities for the years ended December 2013 and 2012 were \$695,049 and \$672,165, respectively. These expenses are allocated to the participating plans and are a component of the Plan's interest in the Master Trust net investment income as reported in the Statements of Changes in Net Assets Available for Benefits. All other expenses not paid by the Plan are paid by the Company.

Fair Value of Financial Instruments: The fair value of contribution receivables and accrued liabilities approximate carrying values.

Reclassifications: Certain items in the prior year financial statement were reclassified to conform to the current year presentation.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Actuarial Present Value of Accumulated Plan Benefits: The following actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2012 is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Active participants	\$ 17,315,299
Inactive participants with deferred benefits	26,630,167
Inactive participants receiving payments	<u>48,668,319</u>
	92,613,785
Nonvested benefits	<u>42,025</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 92,655,810</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2012 is as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2011	\$ 95,524,461
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	1,022,716
Change in actuarial assumptions*	(542,941)
Increase for interest due to the decrease in the discount period	7,164,335
Benefits paid with interest**	<u>(10,512,761)</u>
Net decrease	<u>(2,868,651)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2012	<u>\$ 92,655,810</u>

* Assumption changes included annual updates to cash balance conversion rates.

** Actuary includes an average interest rate on benefits paid during the year. The accompanying financial statements report amounts paid with no interest applied.

The significant actuarial assumptions used in the valuations as of December 31, 2012 were as follows:

Mortality: RP-2000 No Collar Mortality Table projected, 16 years for males and females

Retirement age: Graded from age 55 to 65

Investment return: 7.50%

Cash balance interest crediting rate: 3.00%

Cash balance conversion rate: 3.64% for 2012, 4.51% for 2011

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2013 has not been completed as of the date of the financial statements.

NOTE 4 - MASTER TRUST (UNAUDITED)

The Plan participates in the Master Trust, which was established for the investment of assets of the Plan and the Dex Pension Plan. Northern Trust is the Trustee of the Master Trust. The Statements of Net Assets Available for Benefits reflects the Plan's interest in the Master Trust, which represented a 60.9% and 59.8% interest as of December 31, 2013 and 2012, respectively. The Dex Pension Plan assets reflect the remaining interest in the Master Trust. The Plan's interest in the Master Trust was adjusted monthly for transactions that were specifically identifiable to the Plan including contributions, payments to participants and certain expenses. The Plan's interest in the net realized and unrealized gain and/or loss and additional income and/or expense of the Master Trust was allocated to the Plan on a monthly basis according to the Plan's unit share in the total assets of the Master Trust determined by the Trustee.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

(Continued)

DEX ONE RETIREMENT ACCOUNT
NOTES TO FINANCIAL STATEMENTS
Years ended December 31, 2013 and 2012

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Level 3: Inputs reflect management's judgments of the assumptions that market participants would use in pricing an asset or liability and the valuation methodology are deemed unobservable and significant to the fair value measurement.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Cash and cash equivalents (including commercial paper, cash margins held on futures, and a collective trust – short term investment fund): Commercial paper may be priced at cost, which approximates fair value due to the short-term nature of the instrument (Level 2 inputs). Fair value on cash margins held on futures has been determined to approximate the deposit account balance held in cash collateral pools, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs). The net asset value of the collective trust-short term investment fund is calculated based on a compilation of primarily observable market information. The unit of value of the fund is calculated by dividing the fund's net asset value on the calculation date by the number of units of the fund that are outstanding on the calculation date. The number of units of the fund that are outstanding is derived from observable purchase and redemption activity in the fund. (Level 2 inputs) The short term investment fund's primary objective is to provide an investment vehicle for cash reserves while offering a competitive rate of return. High quality securities are used in this fund. The fund provides for daily redemptions at the reported unit value.

Equity funds (including a collective trust – equity index and a collective fund – group trust): The net asset value of each fund is calculated based on a compilation of primarily observable market information. The unit of value of each fund is calculated by dividing the fund's net asset value on the calculation date by the number of units of the fund that are outstanding on the calculation date. The number of units of each fund that are outstanding is derived from observable purchase and redemption activity in each fund (Level 2 inputs). The collective trust - equity index fund's primary objective is to approximate the risk and return characterized by Russell 1000 Index. The fund provides for daily redemptions at the reported unit value. The collective fund-group trust fund's primary objective is to approximate the risk and return characterized by the MSCI ACWI ex-U.S. Index. The fund provides for daily redemptions at the reported unit value.

Equity Securities (including corporate common and foreign stock and equity index futures): The shares of corporate common and foreign stock are stated at fair value as quoted on a recognized securities exchange in an active market (Level 1 inputs). Equity index futures are stated at fair value as priced on a settlement basis, or the price for the contract as set by the exchange at the end of each day's trading. The pricing is provided by an independent industry-recognized pricing source that typically supplies prices via automated transmissions (Level 1 inputs).

U.S. treasury and agency (including U.S. government securities, which includes U.S. government bonds, government mortgage backed securities, index-linked government bonds, guaranteed commercial paper, and short-term bills and notes and fixed income futures): U.S. government securities are stated at fair value based on multiple pricing services, based on a bid evaluation process using observable, market-based inputs effective the last day of the plan year (Level 2 inputs). Fixed income futures include combination of 5, 10 and 20 year U.S. Treasury bond futures that are stated at fair value as priced on a settlement basis, or the price for the contract as set by the exchange at the end of each day's trading. The pricing is provided by an independent industry-recognized pricing source that typically supplies prices via automated transmissions (Level 1 inputs).

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Corporate bonds: Corporate bonds are stated at fair value based on a bid evaluation process using observable, market-based inputs effective the last day of the plan year (Level 2 inputs).

Other fixed income (including corporate debt, which includes commercial mortgage back and asset backed securities, collateralized mortgage obligations and municipal bonds, registered investment companies – fixed income, and interest rate swaps): Corporate debt is stated at fair value based on a bid evaluation process using observable, market-based inputs effective the last day of the plan year (Level 2 inputs). The shares of registered investment companies – fixed income are stated at fair value as quoted on a recognized securities exchange in an active market which represents the net asset value of the shares held by the Plan at year end (Level 1 inputs). The interest rate swaps portfolio is stated at fair value based on a mid-evaluation process using observable, market-based inputs (Level 2 inputs).

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. The Plan has established a policy of recognizing transfers between levels in the fair value hierarchy as of the end of a reporting period.

The following tables present the level within the fair value hierarchy of the Master Trust's assets and liabilities measured at fair value on a recurring basis as of December 31, 2013 and 2012:

NOTE 6 - DERIVATIVE FINANCIAL INSTRUMENTS

The Master Trust's fixed income manager uses derivative financial instruments in the normal course of its investing activities to hedge against adverse changes in the fixed income market and to achieve overall investment portfolio objectives. These financial instruments include U.S. Treasury futures contracts, equity futures contracts, and interest rate swaps. In addition, the Master Trust uses an investment manager to synthetically invest cash, which is primarily held to fund benefit payments, through the use of equity and fixed income index futures contracts. The use of specific futures contracts is guided by the Master Trust's asset allocation targets. Consequently, this strategy enables the Master Trust to achieve its asset allocation targets while maintaining sufficient liquidity to meet benefit payments.

The U.S. Treasury futures held are a combination of 5 year, 10 year, and 20 year futures. These investments had a notional cost of \$3,000,000 and \$2,800,000 at December 31, 2013 and 2012, respectively. The equity futures held are mini S&P 500 futures. These investments had a notional cost of \$11,360,800 and \$8,192,895 at December 31, 2013 and 2012, respectively. The futures are being used to manage the duration exposure of the portfolio. The interest rate swaps held had a notional cost of \$415,000 and \$575,000 as of December 31, 2013 and 2012, are used to limit exposure to fluctuations in interest rates and as a vehicle to obtain marginally lower interest rates than would be available without the swap.

The Master Trust's investment policy statement does not allow the use of derivatives to leverage the portfolio or for speculative purposes. The use of derivatives is not believed to materially increase the credit or market risk of the Master Trust's investments, although futures contracts may be subject to risk of loss in excess of daily variation margin, and swap agreements involve elements of credit market and documentation risk or if the counterparty is unable to meet the terms of the contracts. This is mitigated by the posting of collateral by the counterparty and monitored against the contract terms.

NOTE 6 - DERIVATIVE FINANCIAL INSTRUMENTS (Continued)

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at prearranged exposure levels. Master netting agreements are specific to each different asset type; therefore, they allow the company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty. As of December 31, 2013 and 2012, the Master Trust includes derivatives in receivables for securities sold and payables for securities purchased in gross amounts. The fair value of futures contracts in the statements of net assets available for benefits was \$34,520 in receivable and (\$5,516) in payable at December 31, 2013 and \$314,195 in receivable and (\$4,597) in payable at December 31, 2012. The fair value of interest rate swaps at December 31, 2013 and 2012 is \$89,977 and \$11,863, respectfully. Realized gains and losses on settled trades are recorded as net appreciation (depreciation) in fair value of investments.

The net appreciation (depreciation) by type of derivative as reported by the Master Trust is as follows for the years ended December 31, 2013 and 2012, respectively:

	<u>2013</u>	<u>2012</u>
Interest rate swaps	\$ 78,114 ^(a)	\$ (62,764) ^(a)
Fixed income futures	(103,228) ^(a)	77,403 ^(a)
Equity futures	2,514,126 ^(a)	974,712 ^(a)

^(a) Reported in net appreciation (depreciation) in fair value of Master Trust investments which is included in investment income as reported in the Plan's interest in Master Trust net investment income.

NOTE 7 - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following information included in the accompanying financial statements is complete and accurate.

- Investments as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Investment Income as shown in the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2013 and 2012.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related investment information included in the financial statements.

NOTE 8 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 28, 2013 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

In accordance with GAAP, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Master Trust invests in collective trusts managed by Northern Trust. As such, these investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Amounts paid by the Plan to parties in interest included fees paid for investment management, administrative, legal, audit and actuarial services. These transactions are also exempt from the prohibited transaction rules.

NOTE 10 - CONTINGENCIES

On April 23, 2010, Dex Media, Inc., f/k/a Dex One Corporation (the "Company") requested a compliance statement from the Internal Revenue Service pursuant to the Internal Revenue Service's Employee Plans Compliance Resolution System ("EPCRS"). The EPCRS filing covered various operational and document errors with respect to the Dex One Corporation Retirement Account. The IRS issued a compliance statement on February 13, 2012. Substantially all of the corrections were completed by December 31, 2012. The Company subsequently asked the IRS to make certain modifications to the compliance statement, and the IRS issued a new compliance statement on June 30, 2014. The Company intends to correct the errors covered by the EPCRS filing in the manner set out by the IRS in the June 30, 2014 compliance statement.

NOTE 11 - SUBSEQUENT EVENTS

Effective April 1, 2014 the Plan changed trustees from Northern Trust Company to State Street Bank and Trust Company. Additionally effective January 1, 2014 the Plan changed the actuaries from Mercer USA, Inc. to AON Consulting, Inc. an affiliate of Hewitt Associates LLC.

The Plan Administrator has evaluated subsequent events for recognition and disclosure through October 10, 2014, which is the date the financial statements were available to be issued.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

We used financial data submitted by Dex Media, Inc. as of January 1, 2013 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

We used financial data submitted by Dex Media, Inc. as of January 1, 2013 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: July 1, 1998 Restated plan: January 1, 2011 Plan year: Calendar year
Status of the plan	The plan is frozen and new employees are not eligible to participate in the plan.
Significant events that occurred during the year	None

Definitions

▪ Eligibility	Any associate of a participating company shall become a member on the first of the month coinciding with or next following the completion of one year of service and attainment of age 21. Effective 1/1/2007, the DonTech Retirement Account was merged into the R.H. Donnelley Retirement Account. The Plan was amended during 2008 to close participation to new entrants and freeze benefit accruals effective 12/31/2008.
▪ Vesting service	Years of employment with the Company during which a member is compensated for 1,000 or more hours, excluding such hours prior to attainment of age 18.
▪ Credited service	Years of service while a member. Any members who complete less than a full year of service may receive fractional credit.
▪ Pensionable earnings	All amounts paid to a member but excluding severance pay and certain types of special remuneration.
▪ Final average earnings	Annual average of compensation for the highest 5 consecutive 12-month periods of the last 10 consecutive 12-month periods of credited service. Compensation is annualized to a 1,800 hour basis if other than full time member is employed more than 1,000 hours but less than 1,800 hours.
▪ Primary social security benefit	The monthly benefit at age 65 estimated as payable to a member based on Social Security Act as amended and in effect at retirement. If the member terminates prior to age 65, it will be assumed that the member receives no compensation after termination and elects to receive Social Security benefits at age 65. The estimate is based on that member's wage history with the Company and the assumption of no wages prior to date of hire.

• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2013, the limit is \$255,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2013, the limit is \$205,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through September, 2009, are included in this valuation.

Schedule SB, Part V — Summary of Plan Provisions

- **Most recent plan amendments included:** The most recent amendment, effective September, 2009, is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Line 15 — Reconciliation of differences between valuation results and amounts used to calculate AFTAP

Since the 2013 AFTAP was certified, the Highway and Transportation Funding Act of 2014 ("HATFA") was passed that changed the interest rates used to calculate the liabilities shown on the Schedule SB. As the 2013 AFTAP will not be recertified, per the plan sponsor's election, the following information outlines the differences between the 2013 AFTAP and the information shown on the Schedule SB.

Schedule SB, Line 15 — Reconciliation of differences between valuation results and amounts used to calculate AFTAP

Since the 2013 AFTAP was certified, the Highway and Transportation Funding Act of 2014 (“HATFA”) was passed that changed the interest rates used to calculate the liabilities shown on the Schedule SB. As the 2013 AFTAP will not be recertified, per the plan sponsor’s election, the following information outlines the differences between the 2013 AFTAP and the information shown on the Schedule SB.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: July 1, 1998 Restated plan: January 1, 2011 Plan year: Calendar year
Status of the plan	The plan is frozen and new employees are not eligible to participate in the plan.
Significant events that occurred during the year	None

Definitions

▪ Eligibility	Any associate of a participating company shall become a member on the first of the month coinciding with or next following the completion of one year of service and attainment of age 21. Effective 1/1/2007, the DonTech Retirement Account was merged into the R.H. Donnelley Retirement Account. The Plan was amended during 2008 to close participation to new entrants and freeze benefit accruals effective 12/31/2008.
▪ Vesting service	Years of employment with the Company during which a member is compensated for 1,000 or more hours, excluding such hours prior to attainment of age 18.
▪ Credited service	Years of service while a member. Any members who complete less than a full year of service may receive fractional credit.
▪ Pensionable earnings	All amounts paid to a member but excluding severance pay and certain types of special remuneration.
▪ Final average earnings	Annual average of compensation for the highest 5 consecutive 12-month periods of the last 10 consecutive 12-month periods of credited service. Compensation is annualized to a 1,800 hour basis if other than full time member is employed more than 1,000 hours but less than 1,800 hours.
▪ Primary social security benefit	The monthly benefit at age 65 estimated as payable to a member based on Social Security Act as amended and in effect at retirement. If the member terminates prior to age 65, it will be assumed that the member receives no compensation after termination and elects to receive Social Security benefits at age 65. The estimate is based on that member's wage history with the Company and the assumption of no wages prior to date of hire.

Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2013, the limit is \$255,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2013, the limit is \$205,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through September, 2009, are included in this valuation.

Schedule SB, Part V — Summary of Plan Provisions

- **Most recent plan amendments included:** The most recent amendment, effective September, 2009, is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Plan amendments:* See above.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts were updated from 2012 to 2013.

Schedule SB, Line 32 — Schedule of Amortization Bases
