**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 1 - DESCRIPTION OF THE PLAN**

The following description of the Paladin Brands Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**

Effective September 28, 2011, Paladin Brands Holding, Inc. (the "Employer") adopted a prototype non-standardized qualified retirement plan and formed the Paladin Brands Retirement Savings Plan. The assets of the Plan were previously held under the Dover Corporation Retirement Savings Plan and were transferred into this Plan on September 28, 2011.

The Plan is a defined contribution plan that allows participants to defer receiving some of their compensation until their retirement and, in the event of death, receipt by their beneficiaries. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Eligibility**

All employees of the Employer, excluding union employees covered by a collective bargaining agreement, non-resident aliens, and part-time employees with less than 1,000 hours of service, are eligible to make pre-tax contributions to the Plan immediately on the date in which the employee attains age 18. Employees that meet these eligibility requirements are also eligible to receive Employer matching and discretionary non-elective contributions.

**Automatic Enrollment**

The Plan has an automatic enrollment feature for eligible employees at a 3% pre-tax contribution rate unless the employee elects to formally opt-out within 30 days or elect to contribute at a higher or lower rate. Such employees receive an immediate Employer match upon entering the Plan.

**Contributions**

Each year, participants may elect to contribute to the Plan, through regular payroll deductions, up to 50% of eligible payroll period compensation, as defined by the Plan, subject to limitations imposed by the IRC. Participants may also roll over amounts representing distributions from other qualified employee benefit or defined contribution plans. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 1 - DESCRIPTION OF THE PLAN** (continued)

**Contributions** (continued)

The Plan allows for both a fixed per-payroll matching contribution (basic Employer matching contribution) and an additional discretionary annual year-end matching contribution (year-end Employer matching contribution). The basic Employer matching contribution is a fixed 30% of the first 6% of a participant's compensation that they contribute to the Plan. At the discretion of Plan management, an additional year-end Employer matching contribution may be made to the Plan on behalf of contributing participants employed on the last day of the Plan year.

The Employer may also elect to contribute a discretionary non-elective Employer contribution to the Plan for participants who have satisfied the eligibility requirements specified above. Such contributions are allocated in proportion to the compensation of participants who are employed on the last day of the Plan year whether or not they have deferred any of their compensation into the Plan. The Employer did not make a discretionary non-elective Employer contribution for the years ended December 31, 2013 and 2012.

**Participant Accounts**

Each participant's account is credited with the participant's contributions, the Employer's contributions, Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Participants' Investment Options**

The Plan permits participants to direct the investment of their accounts into their choice of a variety of funds. Each participant has the option of directing their contributions into any of the investment accounts.

**Vesting**

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Matching contributions, plus earnings thereon, are 100% vested after the participant completes one year of service. As the Plan was formed by an asset transfer from another plan, all participants carried over their vesting percentage from that plan.

A participant's discretionary non-elective Employer contribution account becomes 20% vested upon the completion of two years of service and increases 20% for each year of service thereafter, until fully vested after six years. A participant's matching contribution and discretionary non-elective Employer contribution account may also become fully vested upon the participant's attainment of age 65, while he/she is employed by the Employer, or his/her employment must have terminated during the Plan year due to death, permanent disability, or retirement.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 1 - DESCRIPTION OF THE PLAN** (continued)

**Payment of Benefits**

Upon termination of service due to death, retirement on or after normal retirement age, or other reasons, a participant may elect to receive the value of the vested interest in his/her account. Distributions from the Plan are generally made in the form of single lump-sum payments, although the Plan allows installment distribution payments in the case of fully vested terminated participants who have reached age 55. The Plan's provisions also provide for in-service withdrawals or withdrawals in the event of financial hardship, as defined by the Plan.

**Notes Receivable from Participants**

A participant may borrow from his/her fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his/her vested account balance. The loans are secured by the balance in the participant's account and bear interest at the current prime rate, or such other rates prescribed by the Employer. Interest rates ranged from 3.25% to 5.25% as of the years ended December 31, 2013 and 2012, respectively. Loan terms range from one to five years, or longer for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. These loans mature at various dates through August 2041. A participant may have up to two notes outstanding at one time.

**Forfeitures**

Forfeitures are used to reduce Employer contributions. At December 31, 2013 and 2012, forfeited non-vested accounts were \$20,673 and \$4,579, respectively. The Employer used \$4,579 to fund Employer matching contributions during the year ended December 31, 2013. No forfeitures were used during the year ended December 31, 2012.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis for Accounting**

The financial statements of the Plan are prepared under the accrual basis of accounting.

**Use of Estimates in Preparing Financial Statements**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

**Notes Receivable from Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent participant loans, if any, are reclassified as distributions based upon the terms of the Plan document.

**Investments Valuation and Income Recognition**

The Plan's investments are stated at fair value. Common stock is valued at the closing price reported on the active market on which the individual securities are traded. The fair value of mutual funds is obtained from quoted prices on national securities exchanges. Investments in collective investment funds are based on net asset values as of the last business day of the Plan year as determined by their respective investment managers and recent transactions prices, which approximates fair value.

Purchases and sales of investment securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

As described in Financial Accounting Standards Board Staff Position, ASC 962-325-50, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the "ASC"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract through a collective trust fund. As required by the ASC, the Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust fund as well as the adjustment of the investment in the common trust fund from fair value to contract value relating to the investment contract. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

**Administrative Expenses**

Certain administrative expenses of the Plan related to the Trustee, recordkeeping, legal, and audit fees are paid by the Employer. Fees or commissions associated with each of the investment options and certain administrative expenses of the Plan are paid primarily by participants as a deduction from the amount invested or as an offset to investment earnings.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

**Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

**Excess Contributions**

Refunds of excess participant deferral contributions and forfeited Employer matching contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and as additions to distributions in the Plan year in which the excess deferrals were made to the Plan.

**NOTE 3 - FAIR VALUE MEASUREMENTS**

The Plan measures, monitors, and discloses its assets on a fair value basis in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 (ASC 820), *Fair Value Measurements and Disclosures*. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 - Valuations based on quoted prices for identical assets or liabilities in active markets;
- Level 2 - Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and
- Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models, and similar techniques not based on market, exchange, dealer, or broker-traded transactions.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments measured at fair value and their classification in the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Mutual funds are considered Level 1 investments.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 3 - FAIR VALUE MEASUREMENTS** (continued)

- Collective investment funds are valued based on the net asset values as of the last business day of the Plan year as determined by their respective investment managers. The collective investment funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. Collective investment funds are considered Level 2 investments.

The following is a description of the nature and risks of the categories of assets by major security type for Level 2 investments:

*Stable value:* A stable value investment is an instrument in which contractual terms provide for a high assurance of return of principal at a specified rate of interest. A key feature of stable value instruments is their treatment from an accounting standpoint. Provided key criteria are met, stable value instruments can be held at contract value, also known as book value. Book value accounting eliminates the market value fluctuations experienced by other asset classes and contributes to stable, risk-adjustment returns.

*Large cap blend:* Funds in this asset class invest their equity assets primarily in companies with large market capitalizations. Large market capitalization is generally defined as being in excess of \$5 billion. Large cap core funds focus on companies that are fairly representative of the overall stock market in both size and price. While these funds have wide latitude in the companies in which they invest, they tend to diversify across the spectrum of U.S. industries.

*Target date/retirement income:* Targeted portfolios offer investment options that provide flexible investment strategies designed to change over specific time horizons. The portfolios use an investment strategy that allocates assets across the major asset classes: stocks, bonds, and cash. The asset mix of each portfolio is generated by an investment model that recommends and administers an appropriate asset allocation strategy for each time horizon. The portfolios aim for higher returns early on, investing for the greatest growth during the early years. As the years go by, each portfolio gradually shifts from a more aggressive investment strategy to a less aggressive investment strategy.

*Foreign large cap blend:* International equity funds invest in any country outside the U.S. Most of these funds divide their assets among a dozen or more developed markets including Japan, Britain, France, and Germany. They tend to invest the rest in emerging markets such as Hong Kong, Brazil, Mexico, and Thailand. Some funds are more aggressive in their country selection, which can cause them to carry additional risk. Foreign large cap blend funds focus on companies that are fairly representative of the overall foreign stock market in both size and price. While these funds have wide latitude in the companies in which they invest, they tend to diversify across the spectrum of foreign industries.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan management believes its value methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 4 - SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEES** (continued)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information certified by the Trustee to the related information included in the financial statements and supplemental schedule.

**NOTE 5 - INVESTMENT CONTRACT WITH TRUST COMPANY**

The Plan entered into a benefit-responsive investment contract with Ameriprise Trust Company (ATC), a wholly owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), which maintains the ATC Collective Investment Trust for Employee Benefit Plans (the "Trust") and its constituent funds pursuant to a declaration of trust by ATC. ATC established the RiverSource Trust Income Fund II (the "Fund"). The Fund is governed by the Amended and Restated Declaration of Trust (the "Declaration"). The Fund's net assets are invested in RiverSource Trust Income Fund I (the "Underlying Fund"). The Fund's investment objective is to preserve principal and income while maximizing current income. The Underlying Fund primarily invests in fixed-income instruments, stable value investment contracts issued by various banks, life insurance companies and other financial institutions, and in units of collective investment funds with investment objectives similar to those of the Fund, as authorized by the Declaration.

These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Underlying Fund also invests in book value investment contracts (BVCs), also known as synthetic investment contracts, which consists of an investment component that is "wrapped" by contracts (Wrapper Agreements) issued by third party financial institutions (generally, insurance companies or banks). These Wrapper Agreements guarantee that the contract's interest crediting rate will not be less than zero. This minimizes the risk of loss of the participants' principal and accrued interest.

The Fund held by the Trust at December 31, 2013 and 2012, is fully benefit-responsive. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 5 - INVESTMENT CONTRACT WITH TRUST COMPANY (continued)**

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rates are typically reset on a quarterly basis according to the underlying wrapper contracts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) termination of the Trust holding the Fund assets, 2) replacement of the Trustee of the Fund without the consent of the Wrapper provider, 3) a breach of the contract by a counterparty, or 4) a legal or regulatory event such as an adverse ruling by a regulatory agency. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. In the event the Fund is terminated, the net assets of the Fund would be distributed to the participating Trusts with an interest in the Fund.

**NOTE 6 - INCOME TAX STATUS**

The Internal Revenue Service (IRS) has determined and informed the Employer by a letter dated March 31, 2008, that the Plan and related Trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related Trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

**NOTE 7 - PLAN TERMINATION**

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Employer may determine.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS**

The Plan's investments are managed by the Trustee of the Plan. Therefore, the investment transactions qualify as party-in-interest transactions. Plan investments managed by the Trustee are \$11,341,966 and \$8,666,150 as of December 31, 2013 and 2012, respectively.

The Plan paid administration fees to the Trustee for the years ended December 31, 2013 and 2012, totaling \$106,175 and \$39,317, respectively.

**NOTE 9 - RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 1 - DESCRIPTION OF THE PLAN**

The following description of the Paladin Brands Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**

Effective September 28, 2011, Paladin Brands Holding, Inc. (the "Employer") adopted a prototype non-standardized qualified retirement plan and formed the Paladin Brands Retirement Savings Plan. The assets of the Plan were previously held under the Dover Corporation Retirement Savings Plan and were transferred into this Plan on September 28, 2011.

The Plan is a defined contribution plan that allows participants to defer receiving some of their compensation until their retirement and, in the event of death, receipt by their beneficiaries. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Eligibility**

All employees of the Employer, excluding union employees covered by a collective bargaining agreement, non-resident aliens, and part-time employees with less than 1,000 hours of service, are eligible to make pre-tax contributions to the Plan immediately on the date in which the employee attains age 18. Employees that meet these eligibility requirements are also eligible to receive Employer matching and discretionary non-elective contributions.

**Automatic Enrollment**

The Plan has an automatic enrollment feature for eligible employees at a 3% pre-tax contribution rate unless the employee elects to formally opt-out within 30 days or elect to contribute at a higher or lower rate. Such employees receive an immediate Employer match upon entering the Plan.

**Contributions**

Each year, participants may elect to contribute to the Plan, through regular payroll deductions, up to 50% of eligible payroll period compensation, as defined by the Plan, subject to limitations imposed by the IRC. Participants may also roll over amounts representing distributions from other qualified employee benefit or defined contribution plans. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 1 - DESCRIPTION OF THE PLAN** (continued)

**Contributions** (continued)

The Plan allows for both a fixed per-payroll matching contribution (basic Employer matching contribution) and an additional discretionary annual year-end matching contribution (year-end Employer matching contribution). The basic Employer matching contribution is a fixed 30% of the first 6% of a participant's compensation that they contribute to the Plan. At the discretion of Plan management, an additional year-end Employer matching contribution may be made to the Plan on behalf of contributing participants employed on the last day of the Plan year.

The Employer may also elect to contribute a discretionary non-elective Employer contribution to the Plan for participants who have satisfied the eligibility requirements specified above. Such contributions are allocated in proportion to the compensation of participants who are employed on the last day of the Plan year whether or not they have deferred any of their compensation into the Plan. The Employer did not make a discretionary non-elective Employer contribution for the years ended December 31, 2013 and 2012.

**Participant Accounts**

Each participant's account is credited with the participant's contributions, the Employer's contributions, Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Participants' Investment Options**

The Plan permits participants to direct the investment of their accounts into their choice of a variety of funds. Each participant has the option of directing their contributions into any of the investment accounts.

**Vesting**

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Matching contributions, plus earnings thereon, are 100% vested after the participant completes one year of service. As the Plan was formed by an asset transfer from another plan, all participants carried over their vesting percentage from that plan.

A participant's discretionary non-elective Employer contribution account becomes 20% vested upon the completion of two years of service and increases 20% for each year of service thereafter, until fully vested after six years. A participant's matching contribution and discretionary non-elective Employer contribution account may also become fully vested upon the participant's attainment of age 65, while he/she is employed by the Employer, or his/her employment must have terminated during the Plan year due to death, permanent disability, or retirement.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 1 - DESCRIPTION OF THE PLAN** (continued)

**Payment of Benefits**

Upon termination of service due to death, retirement on or after normal retirement age, or other reasons, a participant may elect to receive the value of the vested interest in his/her account. Distributions from the Plan are generally made in the form of single lump-sum payments, although the Plan allows installment distribution payments in the case of fully vested terminated participants who have reached age 55. The Plan's provisions also provide for in-service withdrawals or withdrawals in the event of financial hardship, as defined by the Plan.

**Notes Receivable from Participants**

A participant may borrow from his/her fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his/her vested account balance. The loans are secured by the balance in the participant's account and bear interest at the current prime rate, or such other rates prescribed by the Employer. Interest rates ranged from 3.25% to 5.25% as of the years ended December 31, 2013 and 2012, respectively. Loan terms range from one to five years, or longer for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. These loans mature at various dates through August 2041. A participant may have up to two notes outstanding at one time.

**Forfeitures**

Forfeitures are used to reduce Employer contributions. At December 31, 2013 and 2012, forfeited non-vested accounts were \$20,673 and \$4,579, respectively. The Employer used \$4,579 to fund Employer matching contributions during the year ended December 31, 2013. No forfeitures were used during the year ended December 31, 2012.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis for Accounting**

The financial statements of the Plan are prepared under the accrual basis of accounting.

**Use of Estimates in Preparing Financial Statements**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

**Notes Receivable from Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent participant loans, if any, are reclassified as distributions based upon the terms of the Plan document.

**Investments Valuation and Income Recognition**

The Plan's investments are stated at fair value. Common stock is valued at the closing price reported on the active market on which the individual securities are traded. The fair value of mutual funds is obtained from quoted prices on national securities exchanges. Investments in collective investment funds are based on net asset values as of the last business day of the Plan year as determined by their respective investment managers and recent transactions prices, which approximates fair value.

Purchases and sales of investment securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

As described in Financial Accounting Standards Board Staff Position, ASC 962-325-50, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the "ASC"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract through a collective trust fund. As required by the ASC, the Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust fund as well as the adjustment of the investment in the common trust fund from fair value to contract value relating to the investment contract. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

**Administrative Expenses**

Certain administrative expenses of the Plan related to the Trustee, recordkeeping, legal, and audit fees are paid by the Employer. Fees or commissions associated with each of the investment options and certain administrative expenses of the Plan are paid primarily by participants as a deduction from the amount invested or as an offset to investment earnings.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

**Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

**Excess Contributions**

Refunds of excess participant deferral contributions and forfeited Employer matching contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and as additions to distributions in the Plan year in which the excess deferrals were made to the Plan.

**NOTE 3 - FAIR VALUE MEASUREMENTS**

The Plan measures, monitors, and discloses its assets on a fair value basis in accordance with Financial Accounting Standards Board Accounting Standards Codification 820 (ASC 820), *Fair Value Measurements and Disclosures*. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 - Valuations based on quoted prices for identical assets or liabilities in active markets;
- Level 2 - Valuations based on quoted prices for similar assets or liabilities or identical assets or liabilities in less active markets, such as dealer or broker markets; and
- Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable, such as pricing models, discounted cash flow models, and similar techniques not based on market, exchange, dealer, or broker-traded transactions.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for instruments measured at fair value and their classification in the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2013 and 2012.

- Mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Mutual funds are considered Level 1 investments.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 3 - FAIR VALUE MEASUREMENTS** (continued)

- Collective investment funds are valued based on the net asset values as of the last business day of the Plan year as determined by their respective investment managers. The collective investment funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. Collective investment funds are considered Level 2 investments.

The following is a description of the nature and risks of the categories of assets by major security type for Level 2 investments:

*Stable value:* A stable value investment is an instrument in which contractual terms provide for a high assurance of return of principal at a specified rate of interest. A key feature of stable value instruments is their treatment from an accounting standpoint. Provided key criteria are met, stable value instruments can be held at contract value, also known as book value. Book value accounting eliminates the market value fluctuations experienced by other asset classes and contributes to stable, risk-adjustment returns.

*Large cap blend:* Funds in this asset class invest their equity assets primarily in companies with large market capitalizations. Large market capitalization is generally defined as being in excess of \$5 billion. Large cap core funds focus on companies that are fairly representative of the overall stock market in both size and price. While these funds have wide latitude in the companies in which they invest, they tend to diversify across the spectrum of U.S. industries.

*Target date/retirement income:* Targeted portfolios offer investment options that provide flexible investment strategies designed to change over specific time horizons. The portfolios use an investment strategy that allocates assets across the major asset classes: stocks, bonds, and cash. The asset mix of each portfolio is generated by an investment model that recommends and administers an appropriate asset allocation strategy for each time horizon. The portfolios aim for higher returns early on, investing for the greatest growth during the early years. As the years go by, each portfolio gradually shifts from a more aggressive investment strategy to a less aggressive investment strategy.

*Foreign large cap blend:* International equity funds invest in any country outside the U.S. Most of these funds divide their assets among a dozen or more developed markets including Japan, Britain, France, and Germany. They tend to invest the rest in emerging markets such as Hong Kong, Brazil, Mexico, and Thailand. Some funds are more aggressive in their country selection, which can cause them to carry additional risk. Foreign large cap blend funds focus on companies that are fairly representative of the overall foreign stock market in both size and price. While these funds have wide latitude in the companies in which they invest, they tend to diversify across the spectrum of foreign industries.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan management believes its value methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 4 - SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEES** (continued)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information certified by the Trustee to the related information included in the financial statements and supplemental schedule.

**NOTE 5 - INVESTMENT CONTRACT WITH TRUST COMPANY**

The Plan entered into a benefit-responsive investment contract with Ameriprise Trust Company (ATC), a wholly owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial), which maintains the ATC Collective Investment Trust for Employee Benefit Plans (the "Trust") and its constituent funds pursuant to a declaration of trust by ATC. ATC established the RiverSource Trust Income Fund II (the "Fund"). The Fund is governed by the Amended and Restated Declaration of Trust (the "Declaration"). The Fund's net assets are invested in RiverSource Trust Income Fund I (the "Underlying Fund"). The Fund's investment objective is to preserve principal and income while maximizing current income. The Underlying Fund primarily invests in fixed-income instruments, stable value investment contracts issued by various banks, life insurance companies and other financial institutions, and in units of collective investment funds with investment objectives similar to those of the Fund, as authorized by the Declaration.

These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Underlying Fund also invests in book value investment contracts (BVCs), also known as synthetic investment contracts, which consists of an investment component that is "wrapped" by contracts (Wrapper Agreements) issued by third party financial institutions (generally, insurance companies or banks). These Wrapper Agreements guarantee that the contract's interest crediting rate will not be less than zero. This minimizes the risk of loss of the participants' principal and accrued interest.

The Fund held by the Trust at December 31, 2013 and 2012, is fully benefit-responsive. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

**PALADIN BRANDS RETIREMENT SAVINGS PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 5 - INVESTMENT CONTRACT WITH TRUST COMPANY (continued)**

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The interest crediting rates are typically reset on a quarterly basis according to the underlying wrapper contracts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) termination of the Trust holding the Fund assets, 2) replacement of the Trustee of the Fund without the consent of the Wrapper provider, 3) a breach of the contract by a counterparty, or 4) a legal or regulatory event such as an adverse ruling by a regulatory agency. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. In the event the Fund is terminated, the net assets of the Fund would be distributed to the participating Trusts with an interest in the Fund.

**NOTE 6 - INCOME TAX STATUS**

The Internal Revenue Service (IRS) has determined and informed the Employer by a letter dated March 31, 2008, that the Plan and related Trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related Trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

**NOTE 7 - PLAN TERMINATION**

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such manner as the Employer may determine.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2013 and 2012**

**NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS**

The Plan's investments are managed by the Trustee of the Plan. Therefore, the investment transactions qualify as party-in-interest transactions. Plan investments managed by the Trustee are \$11,341,966 and \$8,666,150 as of December 31, 2013 and 2012, respectively.

The Plan paid administration fees to the Trustee for the years ended December 31, 2013 and 2012, totaling \$106,175 and \$39,317, respectively.

**NOTE 9 - RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
