NOTE 1 - SUMMARY OF THE PLAN

Plan Description

The following description of the Partners Information Technology 401(k) Profit Sharing Plan (the "Plan"), formerly known as Partners Consulting Services Inc., 401(k) Profit Sharing Plan, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was effective on January 1, 1992 and qualifies as a defined contribution retirement plan for Partners Information Technology, Inc. (the "Company"), formerly known as Partners Consulting Services, Inc., eligible employees. On January 31, 2012, Partners Information Technology, Inc. took over the Plan and became the plan's sponsor. This Plan was established for the purpose of providing retirement benefits to eligible employees in accordance with the Plan. The Plan is intended to satisfy the provisions of Section 401(a) of the Internal Revenue Code ("IRC") of 1986, as amended. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Eligibility

Each of the Company's employees is eligible to participate in the 401(k) Plan if they have attained age 21. Once the eligibility requirement has been met, employees may enroll in the Plan.

Contributions

Participants may elect to contribute to the Plan, on a pre-tax basis, up to 50% of total annual compensation up to the 402(g) limit. The 402(g) limit for 2013 and 2012 was $17,500 and $17,000. In addition, all eligible employees who have attained age 50 before the close of the Plan year are eligible to make catch-up contributions in accordance with, and subject to the limitations of, Code Section 414(v). The Company may make a discretionary matching contribution equal to an amount determined by the Company. For the years ended December 31, 2013 and 2012, there was no matching contribution made.

Participant Accounts

Each participant's account is credited with the participant's allocation of (a) the Company's matching contribution, (b) the Company's discretionary contribution, (c) the participant's contribution and, (d) Plan earnings.

NOTE 1 - SUMMARY OF THE PLAN (CONTINUED)

Vesting

Participants are one hundred percent (100%) vested in their contributions plus actual earnings thereon. Participants become vested in their Company matching contributions and Company discretionary account and any earnings as follows:

Years of Service	Vested Interest (%)
Less than two years of service	20
After two but less than three years of service	40
After three but less than four years of service	60
After four but less than five years of service	80
After five years of service	100

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their Company matching contribution account and Company discretionary contribution account and earnings on Company contributions are used first to reduce administrative expenses, then to reduce matching and discretionary contributions. At December 31, 2013 and 2012, there was $104,832 and $67,849 of forfeited non-vested accounts. These forfeitures represent unallocated assets which will be used to offset future administrative expenses and employer contributions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over 10 year period, or may purchase an annuity. If the value of the participant's account exceeds $5,000, the participant may elect to keep the account in the Plan and maintain his or her account in any of the Plan's investment options. In service withdrawals are allowed under certain conditions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of one-half of the participant's vested account balance, $50,000, or the limitations set by the Tax Reform Act of 1986 and Section 408(b) of the Employee Retirement Income Security Act of 1974 ("ERISA").

NOTE 1 - SUMMARY OF THE PLAN (CONTINUED)

The loans are to be repaid through payroll withholding over a period of five years or longer if the loan is used to acquire a principal residence under hardship circumstances. The notes are secured by the balance in the participant's account and bear interest at a rate based on the rates available for similar notes from commercial lending institutions as determined by the Plan Administrator. As of December 31, 2013 and 2012, interest rates on notes ranged from 7% to 10.25%.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Expenses

The Plan pays recordkeeping, maintenance and service fees. Other Plan expenses are paid by the Company. Investment manager fees relating to self-directed accounts are paid from those participants' accounts.

Payment of Benefit

Benefits are recorded when paid.

Non-Discrimination for Employee and Employer Contributions

The Plan, as required by the IRC, performs annual tests between highly compensated participants versus non-highly compensated participants to ensure that highly compensated participants are not disproportionately favored under the Plan. If the Plan fails the tests, it must refund excess deferral contributions or make a Qualified Non-Elective Contribution (QNEC) for the non-highly compensated employees. Excess contributions that are refunded within two and a half months of the Plan year end are accrued as a liability on the statement of net assets available for benefits. There were no excess contributions payable during 2013.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pooled Separate Accounts:

These investments are public investment securities valued using the Net Asset Value (NAV) provided by ING Life Insurance and Annuity Company. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Fixed Account Investment Funds:

The fixed account investment funds are credited with declared rates of interest and subject to a minimum described in the contract. Amounts allocated to the fixed account investment funds are supported by insurance companies' general accounts. The general accounts are managed on an aggregate basis and support all of the insurance company's financial commitments. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fixed account investment funds promise contract value for a benefit event (termination, death, disability and retirement); however, there are possible market value adjustments when funds are withdrawn prior to their maturity.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. All of information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by ING Life Insurance and Annuity Company (the custodian of the Plan). The contract value of the guaranteed investment contract was certified by the custodian.

NOTE 4 - TAX STATUS

The Internal Revenue Service made a favorable determination in a letter dated February 16, 2011 that stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The trustee, plan sponsor, and plan administrator are not aware of any course of action or series of events that have occurred that would adversely affect the qualified status of the Plan. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent (100%) vested in their accounts.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by ING Life Insurance and Annuity Company, the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into an investment contract with ING Life Insurance and Annuity Company (ING). ING maintains the contributions in a pooled separate account and fixed account investment funds. The pooled separate account was credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses by ING. The contract is not fully benefit responsive and therefore is included in the financial statements at fair value. The crediting interest rate for the fixed account investment funds for the years ended December 31, 2013 and 2012 was 3.00%. The current rate is subject to change at any time by ING, but is generally determined at least monthly.

NOTE 8 - INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31:

	2013	2012
BlackRock Equity Dividend - R	$ 1,816,428	$ 1,536,168

American Funds Growth	$ 1,489,508	$ -
ING Midcap Opportunities Portfolio	$ 1,711,534	$ -

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $4,251,965 and $2,702,283, respectively.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 - RECLASSIFICATIONS

Certain reclassifications have been made to the prior year's financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

NOTE 12 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2013:
