MSP INDUSTRIES CORPORATION UNITED AUTOMOBILE, AEROSPACE, AND AGRICULTURAL IMPLEMENT WORKERS OF AMERICA LOCAL 9699 PENSION PLAN

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The MSP Industries Corporation United Automobile, Aerospace, and Agricultural Implement Workers of America Local 9699 Pension Plan (the “Plan”) is a defined benefit plan, established as of April 1, 2001 and restated effective January 1, 2013, which covers all employees of MSP Industries Corporation (the “Company”) who are members of the International Union, United Automobile, Aerospace, and Agricultural Implement Workers of America (“UAW”) and were hired prior to April 17, 2009. The Plan was adopted pursuant to an agreement between the UAW and the Company. The Plan provides for pension benefits. The Company has agreed to contribute such amounts as necessary to meet the minimum funding standards required by law. The Plan provides for a retirement benefit and currently provides a monthly lifetime benefit, as follows:

- \$20 for every year of credited service earned prior to January 1, 2004; and
- \$22 for every year of credited service earned after December 31, 2003 but prior to April 1, 2005; and
- \$24 for every year of credited service earned after March 31, 2005

The Company pays the entire cost of the pension plan.

Effective August 5, 2013, the Plan was amended to freeze benefit accruals for all participants not eligible to retire by April 1, 2017. Participants eligible to retire by April 1, 2017 are “grandfathered” and continue to earn credited service until April 30, 2017. Age and credited service continue to accrue for the purpose of vesting and eligibility.

Participants are vested after earning five years of credited service. Employees may retire at age 55 with five years of service. Employees at least age 65 are automatically vested. Eligibility for benefits will be determined based on total credited service with the Company.

The Plan has met the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended. The Company has the right under the Plan to discontinue such contributions at any time and to amend, modify, suspend or terminate the Plan, consistent with the collective bargaining agreement and applicable law. No amendment, modification, suspension or termination of the Plan shall have the effect of providing that any amounts then held under the Plan may be used or diverted to any purpose other than for the exclusive benefit of members or their beneficiaries.

MSP INDUSTRIES CORPORATION UNITED AUTOMOBILE, AEROSPACE, AND AGRICULTURAL IMPLEMENT WORKERS OF AMERICA LOCAL 9699 PENSION PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN (CONTINUED)

Should the Plan terminate at some future time, its net assets will generally not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at the time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

The foregoing description of the Plan provides only general information. Participants should refer to the summary plan description for a more complete representation of the Plan's provisions. Copies of the summary plan description are available from the Company's human resources department.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The financial statements of the Plan are presented on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Valuation of Investments - Investments in the American Axle & Manufacturing, Inc. Defined Benefit Plan Master Trust (the "Master Trust") are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

The shares of registered investment companies and units of money market funds are valued at quoted market prices that represent the asset value of the shares or units held by the Master Trust at year-end. Investments in U.S. government agency bonds are valued by independent pricing sources based on the quoted market prices of similar securities available in the over-the-counter market. Investments in hedge funds are stated at fair unit value; the fair values for the underlying investments held by these funds are based on quoted market prices where available or as determined in good faith by the investment advisors. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2013 AND 2012

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Income - Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on sales of securities are based on average costs. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements - The Plan uses fair value measurements in the preparation of its financial statements, which utilize various inputs, including those that can be readily observable, corroborated or are generally unobservable. The Plan utilizes market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Plan applies assumptions that market participants would use in pricing an asset or liability, including assumptions about risk.

The measurement of fair value includes a hierarchy based on the quality of inputs used to measure fair value. Financial assets and liabilities are categorized into this three-level fair value hierarchy based on the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The various levels of the fair value hierarchy are described as follows:

- Level 1 - Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access
- Level 2 - Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability
- Level 3 - Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement

The use of observable market data, when available, is required in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements and the reported amounts of increases or decreases in net assets available for benefits and accumulated plan benefits during the reporting period. Actual results could differ from those estimates. The Master Trust invests in various securities, including registered investment companies and hedge funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on various plan benefit formulas, as defined in the Plan document, depending upon the date of the retirement, death or termination of employment. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Subsequent Events - The Plan's management has evaluated subsequent events through October 13, 2014, the date that the accompanying financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS

The Plan's actuary, Towers Watson, estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

The accumulated plan benefit information as of January 1, 2013 and 2012 is as follows:

	<u>2013</u>	<u>2012</u>
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2013 are as follows:

NOTES TO FINANCIAL STATEMENTS (CONTINUED) YEARS ENDED DECEMBER 31, 2013 AND 2012

3. ACCUMULATED PLAN BENEFITS (CONTINUED)

The more significant assumptions underlying the actuarial valuations are as follows:

Actuarial cost method:	
Funding purposes	Projected unit credit
Accumulated plan benefits	Unit credit
Weighted average discount rate for the	2013 – 4.30%
present value of accumulated plan benefits	2012 – 5.15%
Mortality basis	RP 2000 healthy mortality with blue collar adjustments projected to 2020 using scale AA
Employee turnover	A moderate rate
Retirement	A graduated scale

These actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the nature of these assumptions and the uncertainties inherent in setting these assumptions, it is at least reasonably possible that changes in the near term to these assumptions would be material to the financial statements.

6. INCOME TAX STATUS

The Plan obtained its latest determination letter on August 1, 2014, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan administrator and the Plan’s tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. In addition, the Plan administrator is not aware of any unrecognized tax benefits as of December 31, 2013 or 2012. Therefore, no provision for income taxes has been included in the Plan’s financial statements. The Plan is no longer subject to federal income tax examinations by the IRS for years prior to 2010.

7. SUBSEQUENT EVENT

American Axle & Manufacturing Holdings, Inc. (“AAM”) is offering a voluntary one-time lump-sum cash payment option to certain eligible terminated vested participants of the Plan and AAM’s other U.S. pension plans that, if accepted, would settle the Plan’s pension obligations to them (the “Pension Payout Offer”). These lump-sum settlements will be paid from Plan assets.

The Pension Payout Offer will be open from October 2, 2014 through November 12, 2014 to eligible terminated vested U.S. pension plan participants. In addition to the lump-sum cash payment option, the Pension Payout Offer will allow participants to commence payment of their monthly benefits early. Schedule SB, Line 25 Change in Method

The valuation software used to produce the actuarial information submitted on this schedule has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.
