NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Innovative Turnaround Controls 401(k) Plan (the Plan) was adopted effective January 1, 2008 to establish a savings and investment plan for the exclusive benefit of the employees of Innovative Turnaround Controls (the Company and Plan Administrator) and participating affiliated employers, Core Engineering LLC, ITC - Delaware Valley, LLC and Vardaman dba Toadfly and their beneficiaries. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (GAAP). Interest income is recognized when earned.

Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options, which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

The Transamerica Stable Value Advantage Option Fund (insurance contract) is presented at contract value which approximates fair value on the statements of net assets available for plan benefits. The Transamerica Stable Value Advantage Option Fund provides a guarantee of principal and a guaranteed semi-annual interest rate. The entire general account assets of Transamerica Life Insurance Company back these guarantees. The Transamerica Stable Value Advantage Option Fund credits interest on a semi-annual portfolio basis. That means that all money deposited in the account regardless of when it was deposited receives the same interest rate. A new interest rate is established every six months. At December 31, 2013 and 2012, contract value approximated fair value.

The net weighted average yield earned, which can be different from the interest rate credited to participants, by the entire fund was 1.70% and 2.00% for the years ended December 31, 2013 and 2012, respectively. The net weighted interest rate credited to participants in the funds was 1.37% and 1.91% for the years ended December 31, 2013 and 2012, respectively.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants - Loans to participants are reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Federal Income Tax - The Company adopted a Volume Submitter Profit Sharing Plan (the Volume Submitter Plan) with a cash or deferral arrangement (CODA). The Volume Submitter Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Volume Submitter Plan is designed in accordance with applicable sections of the Internal Revenue Code (Code). The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Accordingly, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of December 31, 2013 and 2012.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2013, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2010 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at December 31, 2013.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participation - An employee aged 21 or older is eligible to become a participant in the Plan after being credited with 90 days of service. Entry dates into the Plan are the first day of the month coinciding with or the next following date that eligibility requirements are met. Employees covered under a collective bargaining agreement and nonresident aliens are excluded from participation.

Contributions - Eligible employees may elect to make pre-tax or Roth contributions to the Plan in an annual amount ranging from 0% to 100% of their eligible compensation. Employees may modify salary deferral elections as of each payroll period. Eligible compensation in 2013 is limited to $255,000. Contributions are made through authorized payroll reductions. These contributions by individual employees were limited to $17,500 (participants under 50 years of age) and $23,000 (participants 50 years of age or older) in 2013. This limitation is periodically adjusted to reflect cost-of-living increases.

NOTE B PLAN DESCRIPTION (CONTINUED)

The Company may also make discretionary matching and profit sharing contributions. For the year ended December 31, 2013, the Company made a discretionary matching contribution up to 1% of each contributing employee's eligible compensation for those employees contributing 4% or more. For an employee to be eligible for the discretionary match, the employee must be employed on December 31, 2013. No profit sharing contribution was made for 2013.

Participant Accounts and Investments - Each participant account is credited with the participant's contribution, the Company's contributions and allocation of plan earnings and charged with an allocation of administrative expenses. Expense allocations are based on participant earnings on account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the Participant's vested account. Each participant directs the investment of their contributions into various investment options.

Vesting - Participant balances are immediately vested in their salary reduction and rollover contributions plus actual earnings thereon. Any discretionary Company contributions and related earnings vest as follows:

Years of Vesting Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures of account balances not fully vested will be used to reduce employer contributions or to pay Plan expenses if the Company elects not to pay such expenses directly. Forfeitures utilized during the year ended December 31, 2013 amounted to $16,977.

Form of Benefits - Benefits are recorded when paid. On termination of service, a participant with a vested benefit greater than $5,000 may elect to leave the funds in the Plan, or request either a direct rollover into an IRA or other qualified plan which accepts direct rollovers, or receive a lump sum amount. For participants with a vested benefit less than $5,000, a participant will receive the benefits only in a lump sum as soon as administratively practicable after the time of termination. The Plan permits hardship distributions from all accounts of which the participant is fully vested.

Participant Loans - Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer between investment funds and participant loans receivable. Loan terms range from 1 to 5 years unless the funds are for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. The interest rate on loans outstanding at December 31, 2013 was 4.25%. Principal and interest is typically paid ratably through payroll deductions.

NOTE B PLAN DESCRIPTION (CONTINUED)

Administration - The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses other than each fund's administration expenses were paid by the Company for 2013.

Plan Termination - Although the Company has not made a determination to terminate the Plan, the Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. Upon Plan termination, all participants would become fully vested in their accrued benefits.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active and inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2013 and 2012.

Pooled separate accounts and the insurance contract are valued at fair value by the trustee of the funds based upon the net asset value of the underlying investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

The fair values of investments are categorized as follows at December 31, 2013 and 2012:

There were no significant transfers in and/or out of the fair value categories during 2013 and 2012.

NOTE E PARTIES-IN-INTEREST

The Plan invests in various investments offered by Transamerica Life Insurance Company. These investments are considered party-in-interest transactions because Transamerica Life Insurance Company serves as asset custodian for the Plan. The Plan's administration has approved these investment options. Fees paid during the year for legal, accounting, administrative and other professional services were rendered by parties-in-interest.

NOTE F PROHIBITED TRANSACTIONS

Certain employee contributions totaling $863 were not timely remitted by the Company to the Plan as required by ERISA during 2013. Because the Company was delinquent in forwarding participant employee contributions and held them commingled with its general assets, the Company engaged in nonexempt prohibited transactions under ERISA 406. The Company has the intent to remedy the issue.
