(1) Description of Plan

The following brief description of the Pall Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document, as restated on January 1, 2011, and as amended thereafter, for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined-contribution plan covering substantially all nonunion domestic eligible employees of Pall Corporation (the Company or the Plan Sponsor) and its participating subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company has established the Pall Corporation Master Savings Plan Trust (the Master Trust). Fidelity Management Trust Company, the Trustee of the Master Trust (the Trustee or Fidelity), maintains separate records of investments and investment activity attributable to each of the participating plans. The assets of the Plan and the PTM Union 401(k) Plan (another Company-sponsored defined-contribution plan) are held by the Master Trust.

(b) Contributions

Effective January 1, 2002, participants may contribute, on either a pretax or after-tax basis, specified percentages from 1% to 50% of eligible compensation to the Plan. The Plan does not permit total contributions to any participant's account to exceed the lesser of $51,000 and $50,000, respectively, during the years ended December 31, 2013 and 2012, as adjusted for increases in the cost of living under Section 415(d) of the Internal Revenue Code (IRC), or 100% of a participant's eligible compensation during the year. The maximum amount that a participant can elect to defer on a pretax basis under a 401(k) plan is $17,500 and $17,000, respectively, for calendar years 2013 and 2012. Pursuant to the Economic Growth and Tax Relief Reconciliation Act of 2001, all participants who have attained the age of 50 before the close of the Plan year are eligible to make an additional "catch-up" contribution up to $5,500 for the Plan years ended December 31, 2013 and 2012.

The Plan provides an employer matching component. The employer matches the participant's pretax contribution up to a maximum of 3% of eligible compensation. The Plan also provides for participants to rollover balances from eligible retirement plans.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution and (b) Plan earnings, based upon the earnings of the investment funds selected by the participant as described in note 1(e) below, and charged with an allocation of administrative expenses. Allocation of the Plan's earnings is based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon, and become vested in Company contributions, and earnings thereon, in accordance with the following schedule:

(i) For employer matching contributions made after December 31, 2001:

Years of service	Vested percentage
Less than 2	—%
2	20
3	40
4	60
5 or more	100

(ii) A participant shall be entitled to full and immediate vesting of his or her account balance when he or she attains normal retirement age (65), dies, or incurs a disability.

(e) Management of the Plan

The Plan is managed by the Trustee under the terms of the Master Trust agreement. The board of directors of the Company has appointed a Committee (the Committee) to serve as plan administrator of the Plan.

The Plan requires that participants select the investment funds into which their account is invested. The participant may select from a variety of investment options.

(f) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance, subject to certain restrictions outlined in the Plan and approval by the Committee. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.50%, for the years ended December 31, 2013 and 2012, respectively, which are commensurate with local prevailing rates at loan inception as determined by the plan administrator, maturing through 2028 for the year ended December 31, 2013; and 2027 for the year ended December 31, 2012. Principal and interest are paid ratably through payroll deductions.

(g) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive payment equal to the value of the participant's vested interest in his or her account in a lump sum. For termination of service due to other reasons, a participant may elect to receive payment equal to the value of the vested interest in his or her account as a lump sum at any time after termination. However, in the event a distribution is not elected by a participant upon termination of service, payment equal to the value of the vested interest in his or her account will commence no later than the end of the calendar year in which the participant attains age 65.

(h) Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $28,614 and $6,072, respectively. The accounts will be used to reduce future employer contributions. In 2013 and 2012, $337,443 and $261,331, respectively, were used to reduce employer contributions.

(i) Excess Contributions

Excess contributions represent amounts due to participants that were paid subsequent to the Plan's year-end to satisfy the Plan's qualification requirements.

(j) Subsequent Events

The Company has evaluated subsequent events for possible disclosure through October 10, 2014, the date the financial statements are issued, noting no events that would require adjustment to, or disclosures in, the financial statements as of and for the year ended December 31, 2013.

(2) Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

(b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

(c) Investment Valuation and Income Recognition

The assets of the Plan are held in the Master Trust, along with assets of the other aforementioned Company-sponsored defined-contribution plan. The Trustee maintains separate records of the investments and investment activity attributable to each plan. The fair value of the Plan's interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the Master Trust plus actual contributions, asset transfers in, and allocated investment income less actual distributions, allocated investment loss, asset transfers out, and allocated administrative expenses.

Quoted market prices are used to value investments in the Master Trust, if available. Unit values in the Master Trust represent the Master Trust's proportionate participation in the mutual funds and include earnings and realized and unrealized appreciation and depreciation of the funds' investments less investment-related fees and expenses charged to the funds. Purchases and sales by the Master Trust are recorded on a trade-date basis. Interest income is recorded by the Master Trust on the accrual basis. The Master Trust records dividends on the ex-dividend date. For further discussion about the fair value of the Plan's investments, see note 4, *Fair Value Measurements*.

(Continued)

(d) Benefit Payments

Benefits are recorded when paid.

(e) Risks and Uncertainties

The participants may direct investment of their account balances in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(f) Administrative Expenses

During 2013 and 2012, the Company paid certain Plan administrative costs, which include legal fees, which were not paid by the Plan (note 6).

(3) Plan Information Certified by the Trustee (Unaudited)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by Fidelity as complete and accurate, except for comparing such information certified by the Trustee with the information included in the Plan's individual financial statements and supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

The Trustee has certified to the accuracy and completeness of the Plan's proportionate interest in the Master Trust's investments at December 31, 2013 and 2012 and the related investment activity for the years ended December 31, 2013 and 2012 as follows:

		2013	2012
Plan's investment interest in the net assets of the Master Trust	$	312,137,577	276,248,936
Plan's share of investment income of the Master Trust		52,868,206	32,179,392

(4) Fair Value Measurements

Master Trust investments are recorded at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(Continued)

The current authoritative guidance discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). This guidance utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The following is a brief description of those three levels:

- Level 1: Use of observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Use of inputs other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Use of inputs that are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There were no changes in valuation methodologies used and no transfers among fair value levels during 2013 and 2012.

The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2013 and 2012:

Money market funds and mutual funds: Valued at closing price as reported on the active market on which the individual securities are traded.

Pall Corporation stock fund: Valued at the combined fair value of the stock fund's investment in Pall Corporation common stock and cash fund.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The information above is derived from the information certified by the Trustee.

(5) Investment in Master Trust

The Plan's investments are in a Master Trust, which was established for the investment of assets of the Plan and the other aforementioned Pall Corporation defined-contribution plan. Each participating retirement plan has an undivided interest in the Master Trust, the assets of which are held by the Trustee as of December 31, 2013 and 2012. The allocation of assets to the individual plans is determined based upon the ratio of the net assets of each Plan to total net assets of the Master Trust. At December 31, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately 97.0% and 97.3%, respectively. Investment income of the Master Trust and certain costs relating to the Master Trust are allocated to the individual plans based upon actual balances invested within each plan.

The following table presents the fair value of investments in the Master Trust as of December 31, 2013 and 2012:

(6) Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the Trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity for services amounted to $111,478 and $44,931 for the years ended December 31, 2013 and 2012, respectively.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participants' accounts and distributed in such a manner as the Company may determine.

(Continued)

(8) Tax Status

The Plan was amended and restated during the 2011 plan year. The Internal Revenue Service (IRS) determined and informed the Company by letter dated February 10, 2012 that the Plan and its related trust are in compliance with the applicable sections of the IRC. In the opinion of the plan administrator, the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Company took the appropriate corrective actions to remedy operational issues identified in prior year regarding delinquent contributions and loan repayments (note 9) and late automatic enrollment.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Delinquent Contributions and Loan Repayments

In 2012, there were unintentional delays in submitting certain employee deferrals, employer match contributions and loan repayments to the Plan's trust primarily due to the Company's payroll system conversion. Late funding occurred in five payment periods and amounted to $5,658,795. All delinquent payments reported on the 2012 Form 5500 filings were processed in December 2013 including the lost earnings of $2,615 which were allocated to participant accounts.
