1. DESCRIPTION OF THE PLAN

The following description of 401K Safe, LLC Multiple Employer 401(k) Plan – Great Performances/Artists As Waitresses, Inc. (the Plan) provides only general information. Participants should refer to their respective employer's adoption agreement for a complete description of the Plan's provisions as it applies to them.

General

The Plan was established on January 1, 2010, and is a multiple employer plan maintained by 401K Safe, LLC (the Sponsor) as a defined contribution plan. With the consent of the Sponsor, a Company (worksite employer) may adopt the Plan by executing an adoption agreement. The provisions of the Plan as applicable to the worksite employer and its employees are based on the selections of the worksite employer with respect to the variable features provided for in the adoption agreement. The Company, Great Performances/Artists As Waitresses, Inc., adopted the Plan on May 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Eligibility

Employees are eligible to participate in the Plan after completing 12 months of service and attaining age 21. Eligible employees can begin participating on the first day of each calendar quarter.

Contributions

Each year, participants may contribute up to 100% of pretax compensation (up to the Internal Revenue Service (IRS) maximum allowable amount), as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. On December 31, 2013, the Plan offered 11 pooled separate accounts and one guaranteed investment account as investment options to which participants directed their investments. The Company may make discretionary employer contributions in an amount to be determined by management. No discretionary employer contributions were made in 2013. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the worksite employer's matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Participants are 100% vested in employer discretionary contributions after six years of credited service.

1. DESCRIPTION OF THE PLAN – CONTINUED

Forfeited Accounts

Forfeitures, less any amounts applied to Plan expenses, shall be used to offset Company-matching contributions. At December 31, 2013, forfeited nonvested accounts totaled $663. In 2013, $625 in forfeited nonvested accounts was applied to Plan expenses. These accounts will be used to reduce future employer contributions. Also, in 2013, employer contributions were reduced by $-0- from forfeited nonvested accounts.

Notes Receivable from Participants

Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a fixed reasonable period of time, not to exceed the life expectancy of the participant. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Transfers

Based on the Department of Labor's letter dated May 25, 2012, requiring all employers in a multiple employer plan to file a separate Form 5500 when the Plan was not established by an employee organization, the Plan began separate reporting beginning January 1, 2013.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts of Lincoln National Life Insurance Company (the insurance company). The statement of net assets available for benefits presents the fair value of the investment in the insurance company's contracts, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

The fair value of the Plan's investment in the guaranteed investment contract is primarily based on market values obtained from independent pricing services, quotes by dealers who are market makers in those securities, a pricing service based upon market transactions for normal, institutional-sized trading units of the same or similar securities, or the net asset value per share/unit on the valuation date. Accrued interest, if any, on the underlying investments of the synthetic investment contracts is added to the fair value of the investments for presentation purposes.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent loans to participants and are measured at the unpaid principal balance plus any accrued and unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments, and the worksite employer deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded based on the terms of the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain administrative expenses of the Plan, including custodial fees and record keeping fees, have been paid by the Plan. Other administrative expenses, including legal and accounting fees, have been paid by the Sponsor. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events and their potential effects on these financial statements through October 13, 2014, which is the date the financial statements were available to be issued.

3. INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013, and net appreciation in fair value of investments for the year ended December 31, 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Lincoln National Life Insurance Company (the insurance company).

The following presents investments that represent 5% or more of the Plan's net assets:

Lincoln National Life Insurance Company:	
Vanguard LifeStrategy Moderate Growth Fund	$ 67,925
Vanguard LifeStrategy Growth Fund	72,572
Stadion Managed Growth Fund	477,238
Stadion Managed Moderate Fund	233,226
Managed Principal Protection Portfolio Fund	95,573

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

Pooled separate accounts	$ 133,685
Guaranteed investment account	1,574
	$ 135,259

4. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices (other than Level 1) for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013.

Pooled separate accounts: The underlying investments consist of mutual funds; domestic and international stocks; fixed securities, such as asset-backed securities, residential mortgage-backed securities, commercial mortgage-backed securities, and corporate bonds; and commercial real estate, including mortgage loans, which are backed by the associated properties. Mutual funds are valued at the net asset value of shares held by the Plan at year end. Common stock and fixed securities are valued at the closing price reported on the active market on which the individual securities are traded. Real estate is valued based on certified appraisals updated daily for changes in factors, such as occupancy levels, lease rates, overall market conditions, and capital improvements. Mortgage loans are valued based on estimated market interest rates for loans of comparable quality and maturity giving consideration to the value of the underlying collateral. The net asset value (NAV) of the separate accounts is not publicly quoted.

4. FAIR VALUE MEASUREMENTS – CONTINUED

Guaranteed investment account: Valued at the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination, or retirement. Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

A small portion of the Plan's financial instruments, including Company and participant contributions receivable and notes receivable from participants, are not measured at fair value on a recurring basis. However, these instruments are carried at amounts that approximate fair value due to their liquid, or short-term, nature.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Fair Value Measurement at December 31, 2013			
	Quoted Prices in Active Markets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Pooled separate accounts:				
Fixed income	$ -	$ 2,385	$ -	$ 2,385
Balanced/asset allocation	-	416,035	-	416,035
Large cap U.S. equity	-	2,207	-	2,207
Small/mid cap U.S. equity	-	481,691	-	481,691
Total pooled separate accounts	-	902,318	-	902,318
Guaranteed investment account	-	-	95,573	95,573
	$ -	$ 902,318	$ 95,573	$ 997,891

4. FAIR VALUE MEASUREMENTS – CONTINUED

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2013:

	Guaranteed Investment Account
Beginning balance at January 1, 2013	$ 122,734
Realized gains	54
Unrealized gains	1,520
Sales	(28,735)
Ending balance at December 31, 2013	$ 95,573

The following table represents the Plan's Level 3 investment assets, the valuation techniques used to measure fair value of those investment assets, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Value	Weighted Average
Guaranteed account	$ 95,573	Discounted cash flow	Liquidation/duration adjustment	0.8%-10.6%	2.60

5. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan has a fully benefit-responsive investment contract with Lincoln National Life Insurance Company (LNL). LNL maintains the contributions in a general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by LNL. The adjustment included in the statement of net assets available for benefits from fair value to contract value for the investment contract is based on the contract value as reported by LNL (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses). The contract value and the fair value of the investment contract at December 31, 2013, were $91,283 and $95,573, respectively.

5. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES – CONTINUED

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the insurance company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest yield was approximately 2.60% in 2013. The crediting interest rate is based on a formula agreed upon with the issuer. There is no minimum crediting rate in the contract. Such interest rates are reviewed on a monthly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or termination of the Plan, would limit the Plan's ability to transact at contract value with Lincoln National Life Insurance Company. These events would also permit LNL to terminate the contract and settle at amounts that differ from contract value. The plan administrator does not believe that the occurrence of such events, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and an unallocated insurance company contract managed by Lincoln National Life Insurance Company and Stadion Money Management, and certain administrative fees related to the administration of the Plan were paid by the Plan; these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services and administrative services amounted to $13,412 for the year ended December 31, 2013.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. TAX STATUS

The Plan obtained its latest determination letter on September 8, 2013, in which the IRS stated that the Plan and related trust, as then designed, were in compliance with the applicable sections of the Internal Revenue Code (IRC).

8. TAX STATUS – CONTINUED

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. QUALIFIED NON-ELECTIVE CONTRIBUTION

During 2013, the Company failed to execute certain employees' elections to defer amount to the Plan. Pursuant to IRS guidance, the Company has corrected the error by making a qualified non-elective contribution equal to 50% of the missed deferral on behalf of the affected employees. The Company has contributed $4,350 to the Plan related to this error, of which $146 represents investment income that would have been earned on the participants' contributions had they been remitted to the Plan in accordance with Plan provisions.
