Note A - Description Of Plan

Leader's Holding Company 401(k) Plan (the Plan) was created on January 19, 2012 to provide retirement benefits to employees of Leader's Holding Company (Sponsor). Prior to this date, 401(k) retirement benefits were provided to employees of the Sponsor through a multi-employer 401(k) plan. Net assets of the Sponsor's participants in the former plan, in the amount of $1,262,291, were transferred into the Plan during 2012. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the Sponsor who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Custodian And Recordkeeper

Effective January 1, 2013, Massachusetts Mutual Life Insurance Company (together, with its affiliates, MassMutual) acquired Hartford Life Insurance Company's (The Hartford) retirement plans business. MassMutual provides all of the services under the Contract and the Administrative Services Agreement as attorney-in-fact for The Hartford.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined by the Plan, up to statutory annual limits. The Plan also allows Roth elective deferrals. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Sponsor may make discretionary matching contributions in an amount equal to a percentage of participants' eligible contributions. The Sponsor's discretionary matching contributions for 2013 and 2012 were 35% and 25%, respectively, of participants' contributions.

The Plan also allows the Sponsor to make discretionary profit sharing contributions. The Sponsor did not make any discretionary profit sharing contributions for the year ended December 31, 2013 or for the period from January 19, 2012 through December 31, 2012.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, catch-up contributions, and an allocation of the Sponsor contributions, if any, and Plan earnings or losses. Participants direct the investment of their accounts into various investment options offered by the Plan. Allocations of earnings or losses are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Vesting is based on years of service. Participants are immediately vested in their salary reduction contributions, catch-up contributions, employee rollovers, and actual earnings thereon. Participants are also fully vested upon retirement, death, total and permanent disability, or termination of the Plan. The following schedule describes the Plan's Sponsor matching and profit-sharing contributions vesting provision:

Years of Service	Vested Percentage
Less than one year	0%
One year but less than two years	20%
Two years but less than three years	40%
Three years but less than four years	60%
Four years but less than five years	80%
Five years or more	100%

Forfeited Accounts

Forfeitures of nonvested Sponsor contributions are used to reduce future Sponsor matching contributions or pay Plan expenses. There were no forfeitures used to reduce Sponsor matching contributions or to pay Plan expenses for 2013 or 2012.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and must be repaid within five years, unless used for the purchase of a primary residence, and bear interest at a rate that is fixed at the inception of the loan based on the prevailing rate charged on similar loans at such time. Interest rates were 4.25% at December 31, 2013 and 2012.

Payment Of Benefits

Upon termination of employment for any reason, a participant may elect to receive a lump sum equal to the vested value of their account or annuity payments. In-service, hardship, required minimum distribution, and normal retirement age distributions are also allowed per the Plan provisions. A terminated participant will receive an involuntary cash out distribution if the participant's vested balance is less than or equal to $5,000. In the event the participant does not provide an election, an account balance that is $5,000 or less and exceeding $1,000 will be distributed to an Individual Retirement Account (IRA). If the account balance is greater than $5,000, it will remain in the Plan until an election is provided. If the account balance is less than $1,000, the amount will be distributed in a lump sum.

Administrative Expenses

Certain expenses of maintaining the Plan that are not paid through forfeitures are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note B - Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting, except for benefit payments which are recorded when paid.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation in fair value of investments includes the Plan's gains and losses on investments sold, as well as held during the year.

Fully Benefit-Responsive Contract

The investment in the fixed income account is considered fully benefit-responsive. Fully benefit-responsive contracts guarantee that a) the crediting rate provided under the contract will not fall below zero and b) participant initiated withdrawals from the fund will be covered at contract value. At December 31, 2013 and 2012, the contract value approximates fair value.

MassMutual, at its discretion, declares the interest rate and credits the interest to the account quarterly. The declared interest rate will never be less than the minimum interest rate of 3% as specified in the contract. The fixed income account was credited with a rate of interest of 3% for the year ended December 31, 2013 and for the period from January 19, 2012 through December 31, 2012. Payment of non benefit-related amounts may be restricted by MassMutual for a period of up to one year.

Although the plan Sponsor does not believe any of the following events are likely to occur, should these events occur, they could limit the ability of the Plan to transact at contract value with MassMutual. Such events include: 1) amendments to the Plan documents (including complete or partial termination); 2) bankruptcy of the Sponsor or other Sponsor events that cause a significant withdrawal from the Plan; or 3) the failure of the Plan to qualify for exemption from federal income taxes or any prohibited transaction under ERISA.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses is recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The plan administrator has evaluated all events subsequent to December 31, 2013 and through October 13, 2014, which is the date these financial statements were available to be issued. The plan administrator determined that there are no subsequent events that require recognition or disclosure in these financial statements.

Information Prepared And Certified By The Custodian

The Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. The Sponsor has obtained certification from the custodians regarding the completeness and accuracy of the information provided to the Sponsor by the custodians as of December 31, 2013 and 2012, and for the year ended December 31, 2013 and the period from January 19, 2012 through December 31, 2012.

As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Sponsor instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following as of December 31, 2013 and 2012, respectively, and for the year ended December 31, 2013 and the period from January 19, 2012 through December 31, 2012:

	$ 4,944

No auditing procedures were performed with respect to investment assets, notes receivable from participants, transactions, income, reportable transactions, and the schedule of investments, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedules.

Note D - Fair Value Measurements

Accounting standards provide a framework for fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include indirect observable inputs including prices for similar assets and market corroborated inputs. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

- Pooled Separate Accounts- Valued at the net asset value (NAV) of underlying investments, which are based on the quoted market price.
- Fixed Income Account - Valued based on the market value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy as of December 31:

	Total	Level 1	Level 2	Level 3
2013

Note E - Tax Status

According to Internal Revenue Service (IRS) Revenue Procedure 2011-49, sponsors that adopt approved volume submitter plans and meet certain additional guidelines can rely on the volume submitter plan's advisory letter rather than file for a new letter. The Sponsor has elected to rely on the volume submitter plan advisory letter, dated March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC).

The Plan document has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The plan administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note F - Related Party Transactions

Fees paid during 2013 and 2012 by the Plan and the Sponsor to the Plan's custodians and other service providers were based on customary rates for those services. While these transactions qualify as party-in-interest activity, they are expressly exempted from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note G - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note H - Nonexempt Party-In-Interest Transactions

Certain employee pretax contributions in the amount of approximately $12,700 were not remitted to the Plan within the defined time period during 2012. The defined time period requires that Sponsor's remit employee contributions to the Plan as soon as they can be reasonably segregated from the Sponsor's general assets, but not later than the 15th business day of the month following the month in which the participant contributions are withheld or received by the Sponsor.

These contributions are deemed nonexempt party-in-interest transactions and are disclosed in the accompanying supplemental schedule of delinquent participant contributions.

Note I - Risks And Uncertainties

The Plan invests in various investments which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note J - Excess Contributions Payable

Contributions received from participants for 2013 and 2012 are net of excess contributions of $2,342 and $12,088, respectively. The Plan failed its discrimination testing for both 2013 and 2012. The excess contributions for 2013 and 2012 were returned to the applicable participants prior to March 15, 2014 and 2013, respectively, to satisfy the relevant non-discrimination provisions of the Plan, and are included in the accompanying statements of net assets available for benefits as excess contributions payable as of December 31, 2013 and 2012, and as a reduction of Sponsor and participant contributions for the year ended December 31, 2013 and the period from January 19, 2012 through December 31, 2012, respectively.

Note K - Form 5500 Reconciliation

As the custodian that holds the pooled separate accounts (PSAs) is not a direct filing entity, the Plan's interest in the underlying assets of PSAs is required to be reported on Schedule H of the Form 5500. As such, PSAs are classified as registered investment companies and, correspondingly, net appreciation/depreciation in fair value of PSAs is classified as net investment gain from registered investment companies on Schedule H of the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of the Form 5500 at December 31, 2013 and 2012:

Note A - Description Of Plan

Leader's Holding Company 401(k) Plan (the Plan) was created on January 19, 2012 to provide retirement benefits to employees of Leader's Holding Company (Sponsor). Prior to this date, 401(k) retirement benefits were provided to employees of the Sponsor through a multi-employer 401(k) plan. Net assets of the Sponsor's participants in the former plan, in the amount of $1,262,291, were transferred into the Plan during 2012. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of the Sponsor who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Custodian And Recordkeeper

Effective January 1, 2013, Massachusetts Mutual Life Insurance Company (together, with its affiliates, MassMutual) acquired Hartford Life Insurance Company's (The Hartford) retirement plans business. MassMutual provides all of the services under the Contract and the Administrative Services Agreement as attorney-in-fact for The Hartford.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined by the Plan, up to statutory annual limits. The Plan also allows Roth elective deferrals. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Sponsor may make discretionary matching contributions in an amount equal to a percentage of participants' eligible contributions. The Sponsor's discretionary matching contributions for 2013 and 2012 were 35% and 25%, respectively, of participants' contributions.

The Plan also allows the Sponsor to make discretionary profit sharing contributions. The Sponsor did not make any discretionary profit sharing contributions for the year ended December 31, 2013 or for the period from January 19, 2012 through December 31, 2012.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, catch-up contributions, and an allocation of the Sponsor contributions, if any, and Plan earnings or losses. Participants direct the investment of their accounts into various investment options offered by the Plan. Allocations of earnings or losses are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Vesting is based on years of service. Participants are immediately vested in their salary reduction contributions, catch-up contributions, employee rollovers, and actual earnings thereon. Participants are also fully vested upon retirement, death, total and permanent disability, or termination of the Plan. The following schedule describes the Plan's Sponsor matching and profit-sharing contributions vesting provision:

Years of Service	Vested Percentage
Less than one year	0%
One year but less than two years	20%
Two years but less than three years	40%
Three years but less than four years	60%
Four years but less than five years	80%
Five years or more	100%

Forfeited Accounts

Forfeitures of nonvested Sponsor contributions are used to reduce future Sponsor matching contributions or pay Plan expenses. There were no forfeitures used to reduce Sponsor matching contributions or to pay Plan expenses for 2013 or 2012.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance in the participant's account and must be repaid within five years, unless used for the purchase of a primary residence, and bear interest at a rate that is fixed at the inception of the loan based on the prevailing rate charged on similar loans at such time. Interest rates were 4.25% at December 31, 2013 and 2012.

Payment Of Benefits

Upon termination of employment for any reason, a participant may elect to receive a lump sum equal to the vested value of their account or annuity payments. In-service, hardship, required minimum distribution, and normal retirement age distributions are also allowed per the Plan provisions. A terminated participant will receive an involuntary cash out distribution if the participant's vested balance is less than or equal to $5,000. In the event the participant does not provide an election, an account balance that is $5,000 or less and exceeding $1,000 will be distributed to an Individual Retirement Account (IRA). If the account balance is greater than $5,000, it will remain in the Plan until an election is provided. If the account balance is less than $1,000, the amount will be distributed in a lump sum.

Administrative Expenses

Certain expenses of maintaining the Plan that are not paid through forfeitures are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note B - Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting, except for benefit payments which are recorded when paid.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation in fair value of investments includes the Plan's gains and losses on investments sold, as well as held during the year.

Fully Benefit-Responsive Contract

The investment in the fixed income account is considered fully benefit-responsive. Fully benefit-responsive contracts guarantee that a) the crediting rate provided under the contract will not fall below zero and b) participant initiated withdrawals from the fund will be covered at contract value. At December 31, 2013 and 2012, the contract value approximates fair value.

MassMutual, at its discretion, declares the interest rate and credits the interest to the account quarterly. The declared interest rate will never be less than the minimum interest rate of 3% as specified in the contract. The fixed income account was credited with a rate of interest of 3% for the year ended December 31, 2013 and for the period from January 19, 2012 through December 31, 2012. Payment of non benefit-related amounts may be restricted by MassMutual for a period of up to one year.

Although the plan Sponsor does not believe any of the following events are likely to occur, should these events occur, they could limit the ability of the Plan to transact at contract value with MassMutual. Such events include: 1) amendments to the Plan documents (including complete or partial termination); 2) bankruptcy of the Sponsor or other Sponsor events that cause a significant withdrawal from the Plan; or 3) the failure of the Plan to qualify for exemption from federal income taxes or any prohibited transaction under ERISA.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses is recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

The plan administrator has evaluated all events subsequent to December 31, 2013 and through October 13, 2014, which is the date these financial statements were available to be issued. The plan administrator determined that there are no subsequent events that require recognition or disclosure in these financial statements.

Information Prepared And Certified By The Custodian

The Sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. The Sponsor has obtained certification from the custodians regarding the completeness and accuracy of the information provided to the Sponsor by the custodians as of December 31, 2013 and 2012, and for the year ended December 31, 2013 and the period from January 19, 2012 through December 31, 2012.

As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosures under ERISA, the Sponsor instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following as of December 31, 2013 and 2012, respectively, and for the year ended December 31, 2013 and the period from January 19, 2012 through December 31, 2012:

No auditing procedures were performed with respect to investment assets, notes receivable from participants, transactions, income, reportable transactions, and the schedule of investments, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedules.

Note D - Fair Value Measurements

Accounting standards provide a framework for fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include indirect observable inputs including prices for similar assets and market corroborated inputs. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

- Pooled Separate Accounts- Valued at the net asset value (NAV) of underlying investments, which are based on the quoted market price.
- Fixed Income Account - Valued based on the market value of the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's fair value hierarchy as of December 31:

	Total	Level 1	Level 2	Level 3

Note E - Tax Status

According to Internal Revenue Service (IRS) Revenue Procedure 2011-49, sponsors that adopt approved volume submitter plans and meet certain additional guidelines can rely on the volume submitter plan's advisory letter rather than file for a new letter. The Sponsor has elected to rely on the volume submitter plan advisory letter, dated March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC).

The Plan document has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The plan administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note F - Related Party Transactions

Fees paid during 2013 and 2012 by the Plan and the Sponsor to the Plan's custodians and other service providers were based on customary rates for those services. While these transactions qualify as party-in-interest activity, they are expressly exempted from the prohibited transaction rules (ERISA, Title I, Section 408(b)).

Note G - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note H - Nonexempt Party-In-Interest Transactions

Certain employee pretax contributions in the amount of approximately $12,700 were not remitted to the Plan within the defined time period during 2012. The defined time period requires that Sponsor's remit employee contributions to the Plan as soon as they can be reasonably segregated from the Sponsor's general assets, but not later than the 15th business day of the month following the month in which the participant contributions are withheld or received by the Sponsor.

These contributions are deemed nonexempt party-in-interest transactions and are disclosed in the accompanying supplemental schedule of delinquent participant contributions.

Note I - Risks And Uncertainties

The Plan invests in various investments which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note J - Excess Contributions Payable

Contributions received from participants for 2013 and 2012 are net of excess contributions of $2,342 and $12,088, respectively. The Plan failed its discrimination testing for both 2013 and 2012. The excess contributions for 2013 and 2012 were returned to the applicable participants prior to March 15, 2014 and 2013, respectively, to satisfy the relevant non-discrimination provisions of the Plan, and are included in the accompanying statements of net assets available for benefits as excess contributions payable as of December 31, 2013 and 2012, and as a reduction of Sponsor and participant contributions for the year ended December 31, 2013 and the period from January 19, 2012 through December 31, 2012, respectively.

Note K - Form 5500 Reconciliation

As the custodian that holds the pooled separate accounts (PSAs) is not a direct filing entity, the Plan's interest in the underlying assets of PSAs is required to be reported on Schedule H of the Form 5500. As such, PSAs are classified as registered investment companies and, correspondingly, net appreciation/depreciation in fair value of PSAs is classified as net investment gain from registered investment companies on Schedule H of the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of the Form 5500 at December 31, 2013 and 2012:

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2013 - 12/31/2013 and indirect compensation is presented on a calendar year basis ending 12/31/2013.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

Please note that if there is a discrepancy between the total direct fees reported above and the sum of the direct fees reported below, you should contact your other service providers or your plan records to identify the recipient(s) of the fees and any other information relevant to your Schedule C filing.

Recipient: Massachusetts Mutual Life Insurance Company EIN: 04-1590850

Service Codes: 15, 23, 37, 38, 54, 55, 59, 60, 62, 63, 64, 65, 66, 99, 50 (if direct compensation amount reflected below)

Direct Compensation **$1,140.74**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2013 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Massachusetts Mutual Life Insurance Company are the net result of aggregating direct compensation after the effects of adjustments processed in 2013, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$4.71**

Bank accounts and investments associated with short-term investment pool, 200 Hopmeadow Road, Simsbury, CT 06089

This is an estimate based on the annual average rate of float (0.1133% for 2013) earned on the bank accounts and investments associated with the short-term investment pool for the 2013 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor. The Plan Sponsor should consult with their tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to MassMutual.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds. Massachusetts Mutual Life Insurance Company (together, with its affiliates, "MassMutual") acquired The Hartford's retirement plans business effective January 1, 2013. In connection with the acquisition, The Hartford appointed MassMutual to provide all of administrative services necessary to support your plan's contract. In this role, MassMutual receives all charges, fees and compensation – both direct and indirect – as payable to The Hartford for the services provided to your plan under the packaged retirement services programs.

The list includes any investment option held by the plan on at least one month end during the 2013 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This

will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

* This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that some of the funds available through your service contract or arrangement are funds from The Hartford Financial Services Group, Inc.'s proprietary family of mutual funds (The Hartford Mutual Funds). These proprietary mutual funds have contracts for services with companies that are affiliated with Hartford Securities Distribution Company Inc.

The Hartford-affiliated companies that provide these services, and are compensated in connection with those services, are listed below. For more information about these proprietary mutual funds, see the applicable fund prospectus.
