Note 1. Description of the Plan

The following description of E&H Family Group, Inc. Employees' 401(k) Profit Sharing Plan (the Plan) is provided for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established on June 30, 1959. It was amended and restated in its entirety effective January 1, 1991 to incorporate a cash or deferred arrangement as described in Section 401(k) of the Internal Revenue Code. Hourly and salary employees of E&H Family Group, Inc. and Subsidiaries (the Company) are eligible to become members of the Plan when they have attained age 20-1/2 years and completed at least 500 hours of service in a six-month period or have completed one year of service as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2012, E&H Family Group, Inc. replaced Buehler Food Markets, Incorporated as the Plan sponsor. The name of the Plan has been changed accordingly throughout these financial statements.

Contributions: Participants may make contributions to the Plan not to exceed limits imposed by the Internal Revenue Code. Participants who attain age 50 before the end of the Plan year may be eligible for catch-up contributions. Participants may also make rollover contributions to the Plan from other qualified plans. The Company's discretionary matching contribution for any given pay period is equal to each participant's contribution in such pay period (up to 6% of the participant's eligible compensation) multiplied by a percentage ranging from 25% to 50%, which was suspended in 2009 and reinstated in 2013. Effective January 1, 2013, the Plan agreement was amended to include an automatic enrollment feature. Unless employees affirmatively elect not to participate, all eligible employees will be automatically enrolled in the Plan with participant contributions equal to 2% of eligible compensation.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the employer contributions and (b) Plan earnings. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Amounts contributed by participants are immediately 100% vested and nonforfeitable. Vesting of the employer's matching contribution occurs upon completion of three years of eligible service in the Plan or upon death, disability or attainment of normal retirement age.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable terms range from one to five years, or a reasonable period in excess of five years, but not to exceed 15 years for the purchase of a primary residence. The notes are collateralized by the participant's account and bear interest at prime rate. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: A participant who has attained age 59-1/2 may elect to withdraw all or part of his or her vested account balance. A withdrawal of employee pretax contributions can also be made prior to this time if an employee encounters a severe financial hardship, as defined. When participants terminate their employment with the Company, the vested portion of their account balances are available to be distributed to the participants. Participants with a vested balance of \$5,000 or more may elect to receive either a lump-sum distribution or installment payments, or roll over the amount into another qualified plan. Participants with a vested balance greater than \$1,000 but not more than \$5,000 can elect either a lump-sum distribution or roll over the amount into another qualified plan. If such participants do not choose one of these options, the funds will be transferred into an individual retirement account (IRA) in the participant's name. For participants with a vested balance less than \$1,000 a lump sum payment is made.

Note 1. Description of the Plan (Continued)

Administrative expenses: Administrative expenses are paid by the Plan unless the Company elects to pay the amounts.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts are used first to restore the Company accounts previously forfeited by participants returning to employment within one year and second to reduce Company contributions. At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$2,120 and \$259, respectively. The forfeitures used to reduce Company contributions totaled \$259 in 2013.

Plan termination: Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, all rights and benefits would become fully vested and would not thereafter be subject to forfeiture.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan uses the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust fund as well as an adjustment from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition: Purchases and sales of securities are recorded on a settlement date basis. Interest and dividends are recorded when received.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits to participants are recorded when paid.

Subsequent events: The Plan has evaluated events for potential recognition and/or disclosure through October 13, 2014, the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under accounting standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Valued at quoted market prices which represent the net asset value of the shares held by the Plan at year end.

Common/collective trust fund: Valued at net asset value which approximates fair value. The trust's underlying investments are valued based on information reported by the investment trustee using the audited financial statements of the trust at year end.

Money market fund: Stated at fair value, which has been determined based upon the unit value as reported to the Plan by the trustee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth additional disclosures for certain of the Plan's investments whose fair value is estimated using the net asset value per share (or its equivalent) as of December 31:

Investment	2013			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund ^(a)	\$ 6,170,396	None	Daily	None

Investment	2012			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund ^(a)	\$ 6,037,806	None	Daily	None

^(a) This common/collective trust fund invests in traditional and synthetic guaranteed investment contracts. These contracts seek to maintain principal value, protect against market price volatility, obtain consistent income return and provide liquidity for benefit payments and withdrawals. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the underlying investments.

Note 5. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 27, 2011, stating that the Plan is qualified under the applicable section of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore is exempt from income taxes. No provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to tax examinations by U.S. federal tax authorities for years before 2010.

Note 6. Party-in-Interest Transactions

Fees paid by the Plan for administrative and investment advisory services provided by the trustee or other related parties amounted to \$175,761 for the year ended December 31, 2013.

Note 7. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2013	2012
Net assets available for benefits, per the financial statements	\$ 47,589,996	\$ 41,979,545
