INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
of **Northern Ohio Profit Sharing Plan**
Norwalk, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of **Northern Ohio Profit Sharing Plan**, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of **Northern Ohio Profit Sharing Plan** as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investment purposes and schedule of reportable transactions, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NORTHERN OHIO PROFIT SHARING PLAN

Notes to Financial Statements For the years ended December 31, 2013 and 2012

1. Description of the plan

The following description of the Northern Ohio Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Effective March 1, 1993, the Lake Erie Construction Company Profit Sharing Plan and Trust was renamed the Northern Ohio Profit Sharing Plan and Trust. At that same date the Plan was amended and restated in its entirety to become a multiple employer plan and to change its year end to December 31. The Plan was subsequently amended and restated, effective October 15, 2008, and renamed the Northern Ohio Profit Sharing Plan. The restated plan allows for non-elective contributions to three separate groups of participants in such proportion that each participant's compensation bears to the total compensation of all participants within each group or in equal amounts or percentages of compensation for that group. At December 31, 2007, the following companies are adopting employers of the Plan (the Companies): Lake Erie Construction Company, Maple City Development Company, and Firelands Supply Company.

On November 30, 2011, the Northern Ohio Profit Sharing Plan was amended for Plan years beginning after December 31, 2010 (2011 Plan year) to include American Highway Safety, LLC as an adopting employer of the Plan. All other terms and provisions of the Plan remained the same.

The Plan is a defined contribution plan covering all full-time employees of the Companies who have one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for annual contributions in such amounts as the Companies shall determine, but not to exceed limitations imposed by the Internal Revenue Code, and allows for participant contributions in the form of rollover amounts from other qualified plans. All contributions to the Plan are nonparticipant-directed. The Plan provides for vesting with the participants at the rate of 20% after two years of service, increasing 20% per year thereafter.

Participant accounts

Each participant's account is credited with an allocation of (a) the Companies' contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Forfeited accounts

Forfeitures of terminated participants' nonvested accounts amounted to \$42,305 and \$16,282 for 2013 and 2012, respectively.

1. Description of the plan - continued

Payment of benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the vested balance of his or her account, or annual installments over a period of life expectancy, as set forth in the Plan. Any participant who has completed at least six years of service with the Company may withdraw all or any portion of his vested interest in his account, within the limitations and conditions set forth in the Plan.

2. Summary of significant accounting policies

Basis of accounting

Accounting records are maintained by the Trustee on the cash basis. The financial statements herein include all material adjustments necessary to place the financial statements on the accrual basis of accounting. The Annual Return/Report of Employee Benefit Plan is filed on the cash basis.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Financial instruments - concentration of credit risk

The Plan places its temporary cash investments with financial institutions in amounts which may exceed the federally insured deposit limits.

Investment valuation and income recognition

Investment transactions are recorded by the Trustee on the trade-date basis. Investments owned are reflected in the statement of net assets available for plan benefits at fair value based on quoted market prices. See financial schedules for a list of investments held at December 31, 2013, and any reportable transactions required to be disclosed. Changes in unrealized appreciation (depreciation) of investments are reflected currently in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits. Realized gains and losses are determined based on the original cost of the assets and are also included in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits.

Administrative expenses

Certain administrative functions are performed by officers or employees of the Companies. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid directly by the Companies.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

Management has evaluated subsequent events through October 6, 2014 the date the financial statements were available to be issued.

3. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that a change could occur in the near term that could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

4. Tax determination

The Plan obtained its latest determination letter on May 4, 2009, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

5. Plan termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts and each participant and beneficiary will be paid the amount of his or her account balance in the Plan in a lump sum.

6. Fair value measurements

FASB ASC 820 establishes that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and establishes a fair value hierarchy based upon the inputs used to measure fair value. The three levels of the fair value hierarchy defined by FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 – Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

As required by FASB ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels. The Plan's investments accounted for at fair value as of December 31, 2013 are summarized on the next page.

6. Fair value measurements - continued

Level 1 inputs:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$24,337,449	\$22,382,181
Common stocks	<u>1,304,160</u>	<u>1,184,580</u>
	<u>\$25,641,609</u>	<u>\$23,566,761</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013.

Mutual funds and common stocks are valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Gains and losses (realized and unrealized) are included in net appreciation (depreciation) in fair market value of investments in the statement of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.

7. Schedule of investments

The following table presents investments, all of which are nonparticipant-directed, which represent five percent or more of the Plan's net assets available for benefits at the beginning of their respective year ends.

	<u>\$954,800</u>	<u>\$820,127</u>

8. Reconciliation to Form 5500

As discussed in Note 2, the Plan's financial statements are presented on the accrual basis of accounting and the Annual Return/Report of Employee Benefit Plan (Form 5500) is prepared and filed on the cash basis of accounting. The following schedule reconciles the differences between those two methods as of and for the year ended December 31, 2013 and the differences in classifications of investment income, gains and losses for the year ended December 31, 2013.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
of **Northern Ohio Profit Sharing Plan**
Norwalk, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of **Northern Ohio Profit Sharing Plan**, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of **Northern Ohio Profit Sharing Plan** as of December 31, 2013 and 2012, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investment purposes and schedule of reportable transactions, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NORTHERN OHIO PROFIT SHARING PLAN

Notes to Financial Statements For the years ended December 31, 2013 and 2012

1. Description of the plan

The following description of the Northern Ohio Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Effective March 1, 1993, the Lake Erie Construction Company Profit Sharing Plan and Trust was renamed the Northern Ohio Profit Sharing Plan and Trust. At that same date the Plan was amended and restated in its entirety to become a multiple employer plan and to change its year end to December 31. The Plan was subsequently amended and restated, effective October 15, 2008, and renamed the Northern Ohio Profit Sharing Plan. The restated plan allows for non-elective contributions to three separate groups of participants in such proportion that each participant's compensation bears to the total compensation of all participants within each group or in equal amounts or percentages of compensation for that group. At December 31, 2007, the following companies are adopting employers of the Plan (the Companies): Lake Erie Construction Company, Maple City Development Company, and Firelands Supply Company.

On November 30, 2011, the Northern Ohio Profit Sharing Plan was amended for Plan years beginning after December 31, 2010 (2011 Plan year) to include American Highway Safety, LLC as an adopting employer of the Plan. All other terms and provisions of the Plan remained the same.

The Plan is a defined contribution plan covering all full-time employees of the Companies who have one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for annual contributions in such amounts as the Companies shall determine, but not to exceed limitations imposed by the Internal Revenue Code, and allows for participant contributions in the form of rollover amounts from other qualified plans. All contributions to the Plan are nonparticipant-directed. The Plan provides for vesting with the participants at the rate of 20% after two years of service, increasing 20% per year thereafter.

Participant accounts

Each participant's account is credited with an allocation of (a) the Companies' contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Forfeited accounts

Forfeitures of terminated participants' nonvested accounts amounted to \$42,305 and \$16,282 for 2013 and 2012, respectively.

1. Description of the plan - continued

Payment of benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the vested balance of his or her account, or annual installments over a period of life expectancy, as set forth in the Plan. Any participant who has completed at least six years of service with the Company may withdraw all or any portion of his vested interest in his account, within the limitations and conditions set forth in the Plan.

2. Summary of significant accounting policies

Basis of accounting

Accounting records are maintained by the Trustee on the cash basis. The financial statements herein include all material adjustments necessary to place the financial statements on the accrual basis of accounting. The Annual Return/Report of Employee Benefit Plan is filed on the cash basis.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Financial instruments - concentration of credit risk

The Plan places its temporary cash investments with financial institutions in amounts which may exceed the federally insured deposit limits.

Investment valuation and income recognition

Investment transactions are recorded by the Trustee on the trade-date basis. Investments owned are reflected in the statement of net assets available for plan benefits at fair value based on quoted market prices. See financial schedules for a list of investments held at December 31, 2013, and any reportable transactions required to be disclosed. Changes in unrealized appreciation (depreciation) of investments are reflected currently in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits. Realized gains and losses are determined based on the original cost of the assets and are also included in net appreciation (depreciation) in fair value of investments in the accompanying statements of changes in net assets available for benefits.

Administrative expenses

Certain administrative functions are performed by officers or employees of the Companies. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid directly by the Companies.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

Management has evaluated subsequent events through October 6, 2014 the date the financial statements were available to be issued.

3. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that a change could occur in the near term that could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

4. Tax determination

The Plan obtained its latest determination letter on May 4, 2009, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

5. Plan termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts and each participant and beneficiary will be paid the amount of his or her account balance in the Plan in a lump sum.

6. Fair value measurements

FASB ASC 820 establishes that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and establishes a fair value hierarchy based upon the inputs used to measure fair value. The three levels of the fair value hierarchy defined by FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 – Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

As required by FASB ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels. The Plan's investments accounted for at fair value as of December 31, 2013 are summarized on the next page.

6. Fair value measurements - continued

Level 1 inputs:

	<u>2013</u>	<u>2012</u>
Mutual funds	\$24,337,449	\$22,382,181
Common stocks	<u>1,304,160</u>	<u>1,184,580</u>
	<u>\$25,641,609</u>	<u>\$23,566,761</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013.

Mutual funds and common stocks are valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Gains and losses (realized and unrealized) are included in net appreciation (depreciation) in fair market value of investments in the statement of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.

7. Schedule of investments

The following table presents investments, all of which are nonparticipant-directed, which represent five percent or more of the Plan's net assets available for benefits at the beginning of their respective year ends.

<u>Issuer</u>	<u>Description</u>	<u>No. of Units</u>	<u>2013</u>	<u>Fair Value</u> <u>December 31</u>	<u>2012</u>

Common stocks	<u>264,765</u>	<u>187,475</u>
	<u>\$954,800</u>	<u>\$820,127</u>

8. Reconciliation to Form 5500

As discussed in Note 2, the Plan's financial statements are presented on the accrual basis of accounting and the Annual Return/Report of Employee Benefit Plan (Form 5500) is prepared and filed on the cash basis of accounting. The following schedule reconciles the differences between those two methods as of and for the year ended December 31, 2013 and the differences in classifications of investment income, gains and losses for the year ended December 31, 2013.
