US Labs & Radiology 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the US Labs & Radiology 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of US Labs & Radiology, Inc. (the Plan Sponsor or the Company) who have completed three months of service and are age 21 or older. Employees may enter the Plan on the first of the month coinciding with or following satisfaction of the eligibility requirements. The Plan Administrator is responsible for the oversight of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a specific percentage or dollar amount of up to 100% of their annual eligible compensation (elective deferrals), as defined by the Plan, subject to Internal Revenue Code (IRC) limitations. Prior to January 1, 2013, elective deferrals were limited to pre-tax contributions. Effective January 1, 2013, participants are permitted to make pre-tax and/or after-tax (Roth) contributions. Participants age 50 or older may elect to defer additional amounts (catch-up contributions) to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company may provide discretionary matching and/or profit sharing contributions determined at year-end by management. Discretionary contributions shall only be made on behalf of participants who are employed on the last day of the plan year. For the year ended December 31, 2013, the Company elected to make a matching contribution of 25% of employee elective deferrals, up to a maximum of 3% of eligible compensation. Contributions are subject to certain limitations.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator in 1% increments. Participants may change their investment fund options at any time.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary contributions, if any, Plan investment earnings/losses and charged with distributions and an allocation of administrative expenses. Allocations are based on participant contributions, compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferrals and rollover contributions plus actual earnings (losses) thereon. Vesting in the Company contribution portion of their accounts plus actual earnings (losses) thereon is based on years of service. A participant is 100% vested in the Company contribution portion after completing three years of credited service.

Notes from participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. The notes are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. As of December 31, 2013, the notes bear interest at annual rates that range from 4.25% to 6.25%. These loans mature through 2018. Principal and interest are paid ratably through bi-weekly payroll deductions. Upon termination of employment, the outstanding principal and interest balance is immediately payable.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59½. Benefits are payable in lump-sum payments with certain exceptions allowed.

US Labs & Radiology 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: Forfeitures will be used to reduce future employer contributions or pay Plan expenses. Forfeited nonvested accounts totaled \$1,430 and \$0 at December 31, 2013 and 2012, respectively. The employer contribution receivable at December 31, 2013, has been reduced by available forfeitures of \$1,430. No forfeitures were used to pay administrative expenses.

Plan amendment: Effective January 1, 2013, the Plan was amended and restated to adopt the provisions under the Sungard Business Systems LLC volume submitter profit sharing plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements.

The Plan invests in the Gartmore Morley Stable Value Series I Fund, a common collective trust fund, which is invested in investment contracts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for the benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the common collective trust as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Contributions: Contributions from Plan participants are recorded in the year in which the participant contributions are withheld from amounts paid. Discretionary matching and/or profit sharing contributions from the Plan Sponsor, if any, are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant-directed.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Administrative expenses includes fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more-likely-than-not would be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that that Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2010.

Accounting pronouncement adopted: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The adoption of this ASU was not significant to these financial statements.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2013) through October 13, 2014, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by MG Trust Company, LLC (Trustee)

Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 5. Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies used at December 31, 2013, compared to December 31, 2012.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Description	Assets at Fair Value as of December 31, 2013			
	Total	Level 1	Level 2	Level 3

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2013 and 2012.

Investment	Fair Value at December 31,		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2013	2012			
Common collective trust					
Gartmore Morely Stable					
Value Series I Fund (a)	\$ 114,436	\$ 166,925	None	Daily	None

(a) The objective of the stable value fund is to provide preservation of principal, maintain a stable interest rate, and provide daily liquidity at contract value for participant withdrawals and transfers.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 6. Party-in-Interest Transactions

MG Trust Company, LLC is the trustee of the Plan; therefore, transactions with the trustee qualify as party-in-interest transactions. The Plan issues loans to participants which are secured by the balances in the participants' accounts, therefore, transactions with participants qualify as party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Note 8. Income Tax Status

Effective January 1, 2013, the Plan adopted a Volume Submitter Profit Sharing Plan with CODA sponsored by Sungard Business Systems LLC. The Volume Submitter Plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 as to the plan's qualified status. The Volume Submitter Plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC. During 2012, the Plan was operating under a Volume Submitter Profit Sharing Plan with CODA sponsored by CCH Incorporated which was adopted January 1, 2009.
