INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and the Trustee Committee
Agata & Valentina 401(k) Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Agata & Valentina 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by ING Life Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions as of and for the years ended December 31, 2013 and 2012. The Plan administrator has obtained certifications from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule H, line 4a - delinquent participant contributions and schedule H, line 4i - assets (held at end of year), are required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Agata & Valentina 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan covering all full-time employees, except union employees, of J.A.V. Food Corp. (the "Sponsor") and Acitrezza LLC, an affiliated company through common management, who have completed one year, or 1,000 hours, of service and have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Participants may elect to defer up to 100% of their gross annual salary. The amount deferred in any calendar year may not exceed the limits specified under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

A participant may, with the consent of the Plan administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which an employee participated prior to their employment by the Sponsor.

Employers' Contributions

The Sponsor may make discretionary matching contributions based on the participant's elective deferrals. A discretionary matching contribution that amounted to $32,805 was made for the year ended December 31, 2013.

In addition, the Sponsor may make other discretionary profit-sharing contributions to the Plan. No discretionary profit-sharing contributions were made for the year ended December 31, 2013.

Investment Options

The Plan's assets are held by ING Life Insurance and Annuity Company ("ING" or the "Custodian"). Contributions by or on behalf of a participant have been invested at the election of the participant in the pooled separate accounts and in a guaranteed investment contract administered by ING.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Sponsor's contribution, and Plan earnings or losses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The participants elect from among several investment vehicles offered by the Plan to which contributions on their behalf are directed.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant Distributions

On termination of service due to death, disability or retirement, or upon attaining the age of 59½, a participant or a participant's designated beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or annual installments as determined at the time of distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

All participants entering the Plan will have a nonforfeitable right to a percentage of the employer matching contributions and employer nonelective profit-sharing contributions based on the following schedule:

Years of Vesting Service	Nonforfeitable Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

The Plan provides that loans can be made to participants provided that the loans bear a reasonable rate of interest, are adequately secured, and provide for repayment over a reasonable period of time. Participant loans are recorded at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Presently, loans are made in amounts up to 50% of an employee's vested account balance, limited to $50,000, with the remaining 50% securing the loan. Interest on the loan is charged at prime or the equivalent of a secure bank loan rate at the date the loan is granted. The maximum term for loans is generally five years.

When a loan is made, the employee's account is charged, thereby reducing the balance in the employee's account.

The repayment of the loan, including interest, is credited to the specific employee account as received (i.e., the interest paid on the loan is all credited to the account of the individual borrower).

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled from the Plan.

1. DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $9,952 and $6,551, respectively. These accounts are used to reduce future employer contributions. Forfeitures of nonvested accounts used to reduce employer contributions amounted to $1,699 for the year ended December 31, 2013.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in pooled separate funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation or depreciation in fair market value of such investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements

FASB ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Corrective Distributions

Amounts payable to participants totaling $30,068 for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability and included in corrective distributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Administrative Expenses

Administrative expenses of the Plan are paid by the Sponsor.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 13, 2014, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedules, that was prepared by, or derived from, information prepared by the Custodian, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodian that such information is complete and accurate.

	December 31,	
Investments:	2013	2012
Pooled separate accounts representing 5% or more of net assets:		
ING Global Bond Portfolio	$ 164,357	$ 166,624
ING Baron Small Cap Growth Portfolio	215,278	151,295
Fidelity VIP Growth Portfolio	184,155	*
ING PIMCO Total Return Portfolio	191,991	186,560
ING American Century Small-Mid Cap Value Portfolio	182,448	134,849
Other pooled separate accounts - less than 5% of net assets individually	487,381	498,762
Total pooled separate accounts	1,425,610	1,138,090
Money market fund	84,126	77,512
Guaranteed investment contract (greater than 5% of net assets):		
ING Fixed Account	1,445,927	1,309,184
Total	$ 2,955,663	$ 2,524,786

The Custodian also certified to the completeness and accuracy of the following for the year ended December 31, 2013:

Net appreciation in fair value of investments:	
Pooled separate accounts	$ 233,843
Guaranteed investment contract	40,706
Total net appreciation in fair value of investments	$ 274,549

* Investment did not represent 5% or more of the Plan's net assets available for benefits.

5. GUARANTEED INVESTMENT CONTRACT

The Plan maintains one guaranteed investment contract ("GIC") related investment option, the ING Fixed Account. The contract underlying this investment option is considered to be fully benefit responsive. Generally, contract value of the ING Fixed Account is equal to participant deposits minus participant withdrawals plus credited interest. Interest credited is net of expenses. Contract value may be subject to adjustments in connection with contract holder-directed withdrawals that are subject to a market value adjustment. Under limited circumstances, contract value may be adjusted as a result of a market value adjustment. The fair value of the ING Fixed Account, which consists of an underlying GIC owned by the Plan, is calculated by discounting the related cash flows based on current yields of similar institutions with comparable durations.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. The GIC is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. As of December 31, 2013 and 2012, the contract value was estimated to be $1,445,927 and $1,309,184, respectively. The market value adjustments were $38,175 and $114,362, as shown in the statements of net assets available for benefits at December 31, 2013 and 2012, respectively.

The average yield based on actual earnings for the contract for each of the years ended December 31, 2013 and 2012, was 3.00%. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3.00% through December 31, 2014. The crediting interest rates to participants for the contracts as of December 31, 2013 and 2012, was 3.00%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2013 and 2012:

Description	Level 1: Quoted Prices in Active Markets for Identical Assets	Level 2: Significant Other Observable Inputs	Level 3: Significant Unobservable Inputs	Total at December 31, 2013	Valuation Technique

During the years ended December 31, 2013 and 2012, there were no transfers between levels of the fair value hierarchy.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: are valued using the net asset value ("NAV") provided by the Custodian. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding.

Money Market Funds: the carrying value approximates fair value because the instruments are liquid in nature.

Guaranteed Investment Contracts: the fair value is calculated by discounting the related cash flows based on current yields of similar institutions with comparable durations.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investment with a reported NAV per share at December 31, 2013 and 2012:

	Fair Value Estimated Using Net Asset Value per Share December 31, 2013

International funds(i)	106,536	-	Daily	None	None
Total	$ 1,138,090	$ -			

The fair values of the investments have been estimated using the NAV of the investments:

(a) The bond funds seek to maximize total return through income and capital appreciation.

(b) The balanced funds seek total return consistent with the preservation of capital. The funds invest in three asset classes: equity securities, debt securities and money market instruments. The funds may invest up to 25% of its assets in foreign securities.

(c) The asset allocation funds seek to provide total return consistent with preservation of capital. Under normal market conditions, the funds invest the assets of the portfolio in a combination of underlying funds that in turn invest, in varying degrees, among several classes of equities, debt instruments, emerging markets debt, and money market instruments. It invests in a combination of underlying funds that reflects a target allocation of approximately 45% of its net assets in equity securities and 55% of its net assets in debt instruments. The funds may invest up to 20% of its total assets in exchange-traded funds.

(d) The small cap value funds seek long-term capital growth; income is a secondary objective. The funds invest at least 80% of its assets in equity securities of small- and mid-capitalization companies. The sub-adviser defines small-capitalization companies to include those with a market capitalization no larger than that of the largest company in the S&P SmallCap 600 Index or the Russell 2000 Index.

7. NET ASSET VALUE PER SHARE (CONTINUED)

(e) The mid cap value funds seek growth from capital appreciation. The funds normally invest at least 80% of its net assets (plus borrowings for investment purposes) in equity securities of mid-capitalization companies. The sub-adviser defines mid-capitalization companies as those companies with market capitalizations between $1 billion and $20 billion at the time of purchase. The funds seek to invest in equity securities that the sub-adviser believes to be undervalued. It may invest in other investment companies, including exchange-traded funds.

(f) The large cap value funds seek long-term growth of capital and income. The funds normally invest at least 80% of their net assets (plus borrowings made for investment purposes) in common stocks and other equity securities of companies that pay or are expected to pay dividends. They normally invest primarily in common stocks of companies with market capitalizations greater than $3.5 billion. The funds may invest in real estate investment trusts and in non-U.S. securities, including emerging market securities.

(g) The mid cap growth funds seek long-term capital appreciation. The funds normally invest at least 80% of its net assets (plus borrowings for investment purposes) in the securities of small-sized growth companies with market capitalizations of under $2.5 billion as measured at the time of purchase.

(h) The large cap growth funds seek to achieve capital appreciation. The funds primarily invest in common stocks of companies that the management believes have above-average growth potential. It may invest in domestic and foreign issuers. The management uses fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions to select investments.

(i) The international funds seek to provide long-term growth of capital by investing in companies based outside of the United States.

8. RELATED-PARTY TRANSACTIONS

Plan investments are pooled separate accounts and a GIC managed by the Custodian. Accordingly, these transactions qualify as party-in-interest transactions.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their employer contributions.

10. TAX STATUS

The Plan uses a prototype plan document sponsored by Advantage Benefits Consultants, Inc. ("ABC"). ABC received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since ABC received the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the financial statements	$ 3,046,154	$ 2,642,197
Add: excess contributions payable	30,068	32,121
Less: deemed distributions of notes receivable from participants	(23,239)	-
Net assets available for benefits per Form 5500	$ 3,052,983	$ 2,674,318

The following is a reconciliation of participant contributions per the financial statements to Form 5500 for the year ended December 31, 2013:

Increase in net assets available for Plan benefits per the financial statements	$ 403,957
Less: deemed distributions of notes receivable from participants	(23,239)
Add: excess contributions payable, end of year	30,068
Less: refund of excess contributions payable, beginning of year	(32,121)
Increase in net assets available for Plan benefits per Form 5500	$ 378,665

12. PROHIBITED TRANSACTIONS

During 2013, the Sponsor inadvertently did not deposit an aggregate of $84,137 of participant deferrals within the required time frame as stated by the Department of Labor ("DOL"). The DOL considers late deposits to be prohibited transactions. The Sponsor has corrected this error outside of the DOL's Voluntary Fiduciary Correction Program ("VFCP"). On November 18, 2013, the Sponsor remitted $35 in lost earnings for 2013 as a result of the late remittances of participant deferrals to the Plan. On November 18, 2013, the Sponsor also remitted $467 in lost earnings that related to untimely contributions made through 2012 to the Plan.

13. EXCESS CONTRIBUTIONS PAYABLE

At December 31, 2013 and 2012, liabilities of $30,068 and $32,121, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the IRS.
