During the year ended December 31, 2013, the Employer made matching contributions equal to 50% of a participant's elective deferrals that did not exceed 4% of a participant's eligible compensation. The Plan contains provisions as to the maximum annual additions that can be made to a participant's account.

d. **Participant accounts** – Each participant's account is credited with the participant's contributions and allocations of (a) the Employer's contributions and (b) Plan earnings/losses and is charged with applicable withdrawals and an allocation of any administrative expenses. Allocations are based on the participant's compensation, contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. **Vesting** – Participants are, at all times, fully vested with respect to their contributions plus earnings/losses thereon. All benefits attributable to a participant shall be fully vested if they reach normal retirement age, become totally disabled or upon death. If a participant terminates employment for any reason other than those mentioned above, they are entitled to the total value of their own contributions, plus earnings/losses thereon, plus a vested percentage of the contributions, plus earnings/losses thereon, made by the Employer.

This vested percentage is determined as follows:

Years of Service	Percentage of Account Vested
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or greater	100%

Notes to Financial Statements

December 31, 2013 (Audited)
and December 31, 2012 (Unaudited)

1. **Summary of Significant Plan Provisions (cont.)**

   f. **Investment options** – Upon enrollment in the Plan, a participant may direct contributions into the investment options offered under the Plan. Participants may change their investment selections at any time.

   g. **Forfeitures** – The portion of the participant's account to which they are not entitled upon termination of participation is deemed a forfeiture. Forfeitures shall be allocated with the Employer's contribution. For the year ended December 31, 2013, the Employer used $1,000 in forfeitures for matching contributions. Approximately $1,100 in forfeitures were available for future use as of December 31, 2013.

   h. **Payment of benefits** – Upon termination a participant may elect to have their account paid either in a lump sum or installments, or may elect to defer payment of their account balance if it exceeds $5,000. If the participant's account balance is equal to or less than $5,000, the balance will be automatically distributed. In-service withdrawals are available to participants who meet certain hardship requirements.

   i. **Corrective distributions** – The Plan failed the average deferral percentage test for the year ended December 31, 2013. Corrective distributions in the amount of $2,643 are recorded as a liability and a distribution in the accompanying financial statements for the year ended December 31, 2013. These corrective distributions were paid to the applicable participants in 2014.

   j. **Termination of the Plan** – Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. **Summary of Significant Accounting Policies**

   a. **Basis of accounting** – The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

   b. **Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

   c. **Investment valuation and income recognition** – Investments are reported at fair value. See Note 4 for discussion on fair value measurements.

      Purchases and sales of securities are recorded on a trade-date basis. Change in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. **Summary of Significant Accounting Policies (cont.)**

d. **Payment of benefits** – Benefits are recorded when paid.

e. **Administrative expenses** – During the year ended December 31, 2013, certain administrative expenses of the Plan were voluntarily paid by the Employer.

3. **Investments**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by John Hancock Life Insurance Company ("John Hancock"), the custodian of the Plan, and was not subjected to any audit procedures, except for comparing such information with the related information included in the financial statements and supplemental schedule:

a. Pooled separate accounts as shown in the accompanying statement of net assets available for benefits of $3,212,647 as of December 31, 2013.

b. Net change in fair value of pooled separate accounts as shown in the accompanying statement of changes in net assets available for benefits of $460,010 for the year ended December 31, 2013.

c. All investment transactions that occurred during the Plan year ended December 31, 2013.

d. All information included in the supplemental schedule.

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012:

	2013 (Audited)	2012 (Unaudited)
John Hancock Life Insurance Company -		
Lifestyle Balanced	$ 1,119,099	$ 720,088
Lifestyle Growth	950,951	803,104
Lifestyle Moderate	191,348	149,977
PIMCO Total Return	183,120	229,015

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

4. **Fair Value Measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is categorized based on a hierarchy that gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013.

Pooled separate accounts: These investments are valued based on the net asset value ("NAV") of the pooled separate account multiplied by the number of shares held by the Plan at year end. The NAV of each pooled separate account is determined based on the fair value of the underlying investments, adjusted for expenses. The underlying investments consist of one mutual fund per pooled separate account and are valued at quoted market prices on the last business day of the Plan year.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. **Fair Value Measurements (cont.)**

The following table below sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

5. Tax Status

The prototype plan document the Plan is utilizing received an opinion letter dated March 31, 2008, in which the Internal Revenue Service ("IRS") stated the document is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). As permitted by the IRS, the Plan is relying on the opinion letter on the prototype plan document for its own qualification. Although the prototype plan document has been amended since receiving the opinion letter, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

6. Party-in-Interest Transactions

As of December 31, 2013 and 2012, the Plan had $3,212,647 and $2,571,718, respectively, invested in John Hancock pooled separate accounts. During the year ended December 31, 2013, the Plan paid John Hancock $29,211 for its services. Inasmuch as John Hancock serves as custodian of the Plan, John Hancock is by definition a party-in-interest. As a result, these investments and all the transactions related to these investments were with a party-in interest. All of these transactions are exempt from being prohibited transactions under ERISA.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits from the financial statements to the Form 5500 as of December 31, 2013:

Net assets available for benefits per the financial statements	$ 3,211,155

Net assets available for benefits per the Form 5500	$ 3,213,798

7. **Reconciliation of Financial Statements to Form 5500 (cont.)**

The following is a reconciliation of the increase in net assets available for benefits from the financial statement to the Form 5500 for the year ended December 31, 2013:

Increase in net assets available for benefits per the financial statements	$ 638,515
Add: Current year corrective distributions payable	2,643
Increase in net assets available for benefits per the Form 5500	$ 641,158

8. **Subsequent Events Evaluation Date**
