DIAGNOSTIC LABORATORIES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013

NOTE 1. PLAN DESCRIPTION

The following description of the Diagnostic Laboratories 401(k) Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees, as defined in the Plan, who have been employed by Kan-Di-Ki, LLC (the "Company" and the "Plan Sponsor") or participating employers for 90 days and have attained 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan and subject to certain limitations under the Internal Revenue Code ("IRC"). Effective January 1, 2013, the Plan was amended to automatically enroll eligible participants at a deferral rate of four percent of compensation. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined in the Plan.

The Plan provides for discretionary Company matching contributions and for the year ended December 31, 2013, the Company matched 25 percent of the participant's deferral up to four percent of the participant's compensation. The Company matching contribution was \$133,014 for the year ended December 31, 2013. The Plan also provides for discretionary Company profit sharing contributions. Participants must complete 1,000 hours of service during the Plan year and be employed on the last day of the Plan year in order to be eligible for discretionary Company profit sharing contributions. No discretionary Company profit sharing contributions were made for year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution, if any, and Plan earnings, and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. Participants are vested in Company contributions at 20 percent after two years of service, and an additional 20 percent each year thereafter until 100 percent vested upon six years of service. While still employed by the Company, if a participant becomes disabled, dies or reaches normal retirement age, the participant becomes 100 percent vested.

DIAGNOSTIC LABORATORIES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013

NOTE 1. PLAN DESCRIPTION (Continued)

Forfeitures

Forfeitures of Company contributions may be used to pay Plan administrative expenses or to reduce future Company contributions. No forfeitures were utilized during the year ended December 31, 2013. As of December 31, 2013 forfeitures of \$48,590 are available for future use.

Payment of Benefits

On termination of service due for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments as permitted under the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America, primarily from data provided by Great-West Trust Company, LLC (the "Trustee") and Great-West Life & Annuity Insurance Company (the "Custodian") (collectively, "Great-West").

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Accounting principles generally accepted in the United States of America require that for fully benefit-responsive investment contracts the amount representing the difference between the fair value and the contract value be presented on the face of the statements of net assets available for plan benefits. As of December 31, 2013 and 2012, there was no difference between the contract value and fair value of the Key Guaranteed Portfolio Fund. The investments and changes therein of the funds have been reported to the Plan by Great-West using fair value.

Investments are valued daily. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Concentration of Risk

The Plan's investments have exposure to risk to the extent that the investments are subject to market and interest rate fluctuations that may materially affect the value of the investment balances.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

Certain administrative expenses incidental to the administration of the Plan, including fees of the Trustee, Custodian and independent public accountants may be paid by the Plan. Administrative expenses not paid by the Company are paid by the Plan.

Most investment options have fees which reduce the overall return on assets. The net appreciation of investments is reflected net of these fees.

According to the Plan Expense Agreement between the Company and Great-West, Great-West is required to make quarterly contributions to the Plan Expense Account ("PEA") in an amount equal to 0.0625 percent of the Plan's assets (0.25 percent annually). The funds in the PEA may be used to pay Plan administrative expenses during the year and any remaining balance at the end of the year may be allocated to participants as earnings or contributions. The net appreciation of investments is inclusive of these contributions. During the year ended December 31, 2013, Great-West contributed \$15,250 to the PEA, all of which was used to pay Plan administrative expenses. As of December 31, 2013, there were no funds available in the PEA.

Benefits Payable to Participants

Benefits are recorded when paid.

Fair Value

The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value measurement hierarchy is based on three levels of inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value (Continued)

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value of the mutual fund's shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the valuation hierarchy.

Guaranteed Interest Contract – Valued at contract value, which approximates fair value (see Note 4) and therefore classified as Level 2 in the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

NOTE 3. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their vested account balance. The loan interest rate is determined by the plan administrator based on prevailing rates, as defined in the Plan. The loans are stated at the unpaid principal amount, secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.25 percent. Principal and interest are paid ratably through payroll deductions. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 4. INVESTMENTS

Investment options are selected by the Plan Sponsor and are participant-directed. The participants have several investments they can choose from. See the attached Schedule of Assets (Held at End of Year) for a detailed listing of investments.

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

T. Rowe Price Retirement 2015 Fund	698,789	**

* Less than five percent of net assets at December 31.

** Fund was not an option in the Plan as of December 31.

For the year ended December 31, 2013, net appreciation of investments in registered investment companies (mutual funds) was \$1,071,868.

The Plan entered into a fully benefit-responsive investment contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Great-West is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

NOTE 4. INVESTMENTS (Continued)

Since the Key Guaranteed Portfolio Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the fund. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for the credit risk of Great-West or otherwise. The crediting interest rate is based on a formula agreed upon with Great-West. Such interest rates are reset quarterly as of the beginning of each month. The contract value is also the fair value to be disclosed.

Certain events limit the ability of the Plan to transact at contract value with Great-West. Such events include, but are not limited to the following: (1) premature termination of the contracts by the Plan, (2) Company layoffs, (3) bankruptcy of the Plan Sponsor, (4) Plan termination, (5) mergers, or (6) early retirement incentives. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

Average yields for the Key Guaranteed Portfolio Fund:	2013	2012
Based on actual earnings	1.26%	1.65%
Based on interest rate credited to participants	1.26%	1.65%

NOTE 5. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

NOTE 6. TAX STATUS

The Plan is a prototype plan that is the subject of a favorable tax opinion letter from the IRS dated March 31, 2008. The plan administrator believes the Plan is currently being operated in accordance with the applicable provisions of the IRC and, accordingly, the plan administrator believes that the Plan is exempt from income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8. PARTY-IN-INTEREST TRANSACTIONS

Plan investments are held, and some are managed, by Great-West and its affiliates. Transactions with Great-West and its affiliates qualify as party-in-interest transactions for which exemptions exist. Great-West and its affiliates received recordkeeping fees of \$4,677 that were paid by participants through the Plan and Great-West receives indirect compensation from certain investments based on a formula. In addition, the Plan's broker received direct compensation of \$15,250.
