AVANTE GROUP, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Year Ended December 31, 2013

NOTE 1 - PLAN DESCRIPTION

General

The following description of Avante Group, Inc. 401(k) Plan (the "Plan"), formerly AG Holdings, Inc. 401(k) Plan, provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan, which was established on June 1, 1994 and subsequently amended, is classified as a defined contribution 401(k) plan, covering employees of Avante Group, Inc. (the "Company" or "Plan Sponsor") with at least 90 days of service, with at least 1,000 hours of service during the Plan year, and who attained the age of 21. The primary purpose of the Plan is to provide retirement savings benefits to employees of the Company based on respective eligibility requirements, applicable wages and contributions, and vesting schedules.

Contributions

Each year participants may contribute up to an amount equal to a percentage of their compensation via a salary reduction agreement, not to exceed the Internal Revenue Service ("IRS") limit, and may be pre-tax or Roth (after tax) contributions. The employer may make discretionary matching contributions on behalf of each participant at an amount equal to a percentage of the participant's total deferral contributions made during such Plan year. For the year ended December 31, 2013, the Company made matching contributions equal to 5 % of the participant's total deferral contribution.

Participant Accounts

Under the Plan, a separate account is maintained for each participant. Each participant's account is credited with the participant's contributions, employer contributions, and allocations of Plan earnings, and is charged with an allocation of administrative expenses, if any. Participant contributions and employer matching contributions are allocated, at the participant's election, to investment funds held at Transamerica Financial Life Insurance Company (the "Plan Custodian"). Plan earnings are allocated based on actual earnings of the respective participant's investments.

NOTE 1 - PLAN DESCRIPTION *(Continued)*

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 % of their vested account balance. Participants may only have one loan outstanding at any point in time.

Investment Options

Upon enrollment in the Plan, participants may direct their contributions and the related employer contributions to be invested in one or more of the investment options available to the Plan. Participants may change their investment options at any time with certain exceptions.

Vesting

Participants are always fully vested in their own contributions and rollover accounts, plus actual earnings thereon. Employer-contributed portions of account balances have cliff vesting, and are fully vested after three years of service with no partial vesting prior to the three years of service.

Payment of Benefits

Upon the death, permanent disability, or retirement of participants, their entire account balances become fully vested. Benefit payments are to be made in a lump-sum payment equal to the value of the account. Participants who terminate for reasons other than death, disability, or retirement are entitled only to their vested balances.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting.

Forfeitures

Nonvested employer contributions of terminated employees, if any, are used to reduce the employer contribution for the Plan year in which such forfeitures occur or are used to pay Plan administrative expenses. The unallocated balance of forfeitures was approximately $11,200 and $12,000 as of December 31, 2013 and 2012, respectively. During the year ended December 31, 2013, approximately $4,400 of forfeitures were used to offset administrative expenses and employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value and are invested in a common/collective trust fund and pooled separate accounts. The units of pooled separate accounts are stated at fair value, as determined by the issuer of the account based on the fair value of the underlying investments. Those pooled separate accounts investing in mutual funds or domestic equity securities are measured using quoted prices in active markets for identical assets. Those pooled separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who, in turn, generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

As of December 31, 2013 and 2012 and for the year ended December 31, 2013, investments held in the common/collective trust are offered by the Plan Custodian. The underlying investment of the common/collective trust is the Transamerica Stable Value Advantage Option (the "Stable Value Option"). Investments held in the Stable Value Option are deemed to be fully benefit-responsive investment contracts. The Plan Custodian executed trust investment transactions at fair value with the Plan. The Stable Value Option is considered fairly valued at contract value and there are no market value adjustments needed between contract value and fair value. Interest is credited, based upon the daily balance of the Stable Value Option, at a rate that is the daily equivalent of the effective annual rate of interest applicable for a six-month period. The effective guaranteed credited interest rate is set on a semiannual basis on January 1st and July 1st. There is no stated minimum or maximum interest rate. The average yield earned for the Stable Value Option was 1.70% and 1.90%, as of December 31, 2013 and December 31, 2012, respectively. The average yield earned by the Plan is equal to the actual interest rate credited to Plan participants.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Withdrawals influenced by Company-initiated events, such as reallocation of investments, may result in a distribution at other than contract value. There are no reserves against contract values for credit risk of contract issuers or otherwise. Fair value for traditional investment contracts is estimated based upon discounting future cash flows under the contract at yield curve rates as of year-end.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Investment Valuation and Income Recognition *(Continued)*

Purchases and sales of marketable securities are reflected on a trade-date basis, and interest income is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation or depreciation in the fair value of the Plan's investments for each year is reflected in the statement of changes in net assets available for benefits as net appreciation/depreciation in fair value of investments.

Investment Risk

The Plan's investments are not insured and are subject to credit and market risk. Financial information relating to those investments is included in these financial statements based on information provided by the Plan Custodian.

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balance plus accrued but unpaid interest.

Corrective Distributions

Corrective distributions may be required in the event that employee contributions exceed contribution limitations of the Plan. These amounts are recorded as a liability as of the Plan's yearend and are reflected on the statement of changes in net assets available for benefits as an offset to contributions.

Payment of Benefits

Participant benefits are recorded when paid.

Administrative and Other Costs

During 2013, administrative and other costs of approximately $31,900 were charged directly to the Plan. The Plan Sponsor paid administrative expenses on behalf of the Plan of approximately $16,000 in 2013. Certain other investment fees, commissions and reporting expenses are included in net appreciation of fair value of investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America and with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Income Tax Status

The Plan is a qualified trust under Section 401 of the Internal Revenue Code ("IRC") and is subject to the provisions of ERISA. The Plan is a prototype plan prepared and maintained by the Plan Custodian. The prototype plan obtained its latest determination letter on March 31, 2008 in which the IRS stated that the prototype plan, as then designed, was in compliance with applicable requirements of the IRC. The Plan administrator believes that the adopted and amended Plan continues to qualify and will remain exempt from federal income taxes under Section 401 of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. As of December 31, 2013, with few exceptions, the Plan is no longer subject to examination by U.S. federal taxing authorities for any years before 2010.

Subsequent Events

The Plan Sponsor has evaluated subsequent events for potential reporting and disclosure through October 9, 2014, which is the date the financial statements were available to be issued.

NOTE 3 - PLAN CERTIFICATION

The Plan Custodian holds the Plan's investments and executes all investment transactions. All investment information and participant loan information disclosed in the accompanying financial statements and supplemental schedule, including investments and participant loans held at December 31, 2013 and 2012, net appreciation in fair value of investments and dividends and interest for the year ended December 31, 2013, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Plan Custodian.

NOTE 4 - INVESTMENTS

The fair market value of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, are as follows:

Description	2013	2012
Transamerica Stable Value	**$ 1,555,068**	$ 1,684,329
Allianz NFJ International Value	*	$ 433,048
Invesco Diversified Dividend	**$ 783,461**	$ 669,274
JP Morgan Large Cap Growth	**$ 1,004,607**	$ 809,051
Pimco Total Return	**$ 474,490**	$ 669,059
Transamerica Small/Mid Cap Value	**$ 437,711**	*
Victory Established Value	**S 614,031**	$ 460,300

** Less than 5% of net assets available for benefits*

NOTE 5 - FAIR VALUE MEASUREMENTS

The fair value of financial instruments is presented based upon a hierarchy of levels that prioritize the inputs of valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement in its entirety.

The three levels of the fair value hierarchy are described below:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities the Plan has ability to access.

Level 2 Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Significant unobservable inputs for the asset or liability in which little or no market data exists. Such inputs include market interest rates of the underlying securities and the claims paying ability of the Plan Custodian.

NOTE 5 - FAIR VALUE MEASUREMENTS *(Continued)*
