DFS HOLDING COMPANY, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2013 and 2012 and for the Year Ended December 31, 2013

NOTE 1 - Description of the Plan

The following description of the DFS Holding Company, Inc. 401(k) Plan (the "Plan") formerly known as Consolidated Commercial Controls Inc. 401(K) Plan, provides only general information. Users of these financial statements should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Consolidated Commercial Controls Inc. (the "Company"), the plan sponsor, effective January 1, 2010 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective, September 6, 2012 the Company changed its name to AllPoints Foodservice Parts and Supplies Inc. which is a company 100 percent owned by DFS Holdings Company Inc. The Plan Sponsor effective September 6, 2012 is DFS Holdings Company Inc. The Plan covers all employees of the Company who have completed thirty days of service and are twenty-one years of age or older.

Contributions

Participants may contribute up to 100% of compensation, as defined in the plan document. Participants may also contribute amounts that represent distributions from other qualified plans (rollover contributions). Participants that meet the eligibility requirements will be automatically enrolled to defer into the Plan at 3% of eligible compensation unless otherwise elected. These participants deferral percentage will also be auto-escalated each year by 1% up to a maximum of 8%.

Effective January 1, 2013, the Company matching contribution is based on 25% of each participant's elective deferrals up to 8% of compensation. All Company matching contributions are now funded each pay period. For the Plan year ended December 31, 2012, and preceding years, Company matching contributions were discretionary and based on amounts approved by its Board of Directors. The Board authorized a Company matching contribution of $37,500 for eligible participants for the plan year ended December 31, 2012.

Employer discretionary contributions are made at the option of the Company's Board of Directors ("Board"). There were no employer discretionary contributions made to the Plan for the years ended December 31, 2013 and 2012. Contributions are subject to certain limitations as established by the Internal Revenue Code ("IRC"). Upon enrollment in the Plan, a participant may direct Company and employee contributions to any combination of available investment options.

Participant Accounts

Each participant's account is credited with the participant's salary reduction contributions, Roth contributions, rollover contributions and an allocation of the Company's contributions and Plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in their salary reduction, Roth contributions and rollover contributions plus earnings thereon. Participants who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan, are considered 100% vested. The Company's discretionary contributions, matching contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

Vesting Years of Service	Percentage Vested
Less than 3	0%
3 or more	100%

Forfeited Accounts

As of December 31, 2013 and 2012, forfeited nonvested accounts totaled $4,327 and $4,271. Forfeitures can be used to reduce future Company contributions or can be allocated to participants. During 2013, forfeitures of $1,369 were reallocated to participants in accordance with the plan document. There were no reallocations during 2012. No forfeiture amounts were used to reduce company contributions for the plan years ended December 31, 2013 and 2012.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the plan document. The Plan provides for normal retirement at age 65 or the 5th anniversary of joining the Plan if later. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment, installments, or an annuity. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear interest at rates that range from 3.25% - 6.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

NOTE 1 - Description of the Plan (cont.)

Administrative Expenses

All expenses incurred in the administration of the Plan, with the exception of loan initiation fees, are paid for by the Company. The loan initiation fees are paid for by the participants with new loan balances outstanding. A participants account balance will be charged with certain fees and expenses. Asset-based fees (e.g., management fees and other operating expenses) are used to cover the expenses related to running an investment fund and are generally deducted directly from a participant's investment returns.

Plan administration fees cover the day-to-day expenses of administering the Plan, and may be charged directly to a participant's account, covered by a portion of the asset-based fees deducted directly from investment returns, or paid through revenue-sharing payments made from investment managers to the recordkeeper.

Reclassification

For comparability, certain 2012 amounts have been reclassified to conform with classifications adopted in 2013.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 Fair Value of Financial Instruments for details on inputs, valuation techniques and fair value measurement level within the fair value hierarchy.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - Information Prepared and Certified by Trustee - Unaudited (cont.)

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) in shares of registered investment companies appreciated in value by $494,333. Interest earned was $115,193.

Investments, in general, are subject to various risks, including credit, interest, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 4 - Fair Value of Financial Instruments

The Plan follows accounting principles generally accepted in the United States of America for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include.

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

NOTE 4 - Fair Value of Financial Instruments (cont.)

The Plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

NOTE 5 - Parties-In-Interest and Related Parties

The cash balance is held in a money market account which is managed by the Trustee and qualifies as party-in-interest transactions. Fees paid by the Plan for the investment management services are with the Trustee and are party in interest transactions. These fees are netted against investment income. See Note 1 for details of related parties. The Plan received other cash receipts of $10,945 related to revenue sharing agreement with Trustee.

NOTE 6 - Tax Status

The Volume Submitter Profit Sharing Plan that was adopted by the Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan, as amended, is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan. The financial statements effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 - Reconciliation of Financial Statements to Schedule H Form 5500

The reconciliation between the financial statements and Form 5500 are as follows:

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500:

	December 31, 2013
Net increase in net assets available for benefits per the financial statements	$ 1,227,480
Excess contribution refund payable	(12,556)
Net increase in net assets available for benefits per Form 5500	$ 1,214,924

NOTE 8 - Subsequent Events

The Plan has evaluated subsequent events through October 13, 2014, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

Effective as of January 1, 2014, the Franklin Machine Products, Inc 401(k) Profit Sharing Plan and Trust merged into the Plan. There was approximately $8,103,480 in assets and 174 participants transferred into the Plan as a result of this merger.
