1. DESCRIPTION OF THE PLAN:

The following description of the Mosaic Sales Solutions 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan for employees of Mosaic Sales Solutions (the Company or Employer). The Plan was established August 1, 2003 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2013, the Plan made the following amendments:

a. Employees who are residents of Puerto Rico are excluded from participation in the Plan.
b. Highly compensated employees may only contribute up to 7% of their annual compensation to the Plan; non-highly compensated employees can continue to contribute up to 20% of their annual compensation.
c. The Plan no longer allows for a safe harbor contribution. The Employer is authorized to make discretionary matching contributions to participants, either at a pre-determined uniform percentage or as a flat dollar amount.
d. Vesting in Employer discretionary matching contributions occurs at the rate of 20% per year of service.
e. Participants hired prior to January 1, 2013, will be automatically 100% vested in past and future contributions made on their behalf into the Plan.
f. Forfeitures can be used to either pay Plan expenses or reduce Employer contributions.

Participation

All employees of the Company are eligible to participate in the Plan on the first day of the month following the completion of 30 days of service.

Contributions

Prior to 2013, all Participants were allowed to contribute up to 20% of their annual compensation to the Plan. Participants' contributions are made through payroll deductions. Additionally, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

1. DESCRIPTION OF THE PLAN (CONTINUED):

Contributions (Continued)

Prior to 2013, the Company made safe harbor matching contributions equal to 100% of contributions not exceeding 3% of the participant's compensation, plus 50% of contributions that exceeded 3% of the participant's compensation but that did not exceed 5% of the participant's compensation. The Company may also make discretionary employer contributions, as determined annually by the Company. Effective January 1, 2013, the Plan was amended to remove the safe harbor match and the Company is now authorized to make only discretionary matching contributions. The Company made a discretionary matching contribution of $790,770 and $-0-, for the years ended December 31, 2013 and 2012, respectively. The Company made a safe harbor matching contribution of $-0- and $936,315 for the years ended December 31, 2013 and 2012, respectively.

Participant Accounts

Each participant's share of assets is segregated in an individual account and invested in accordance with the investment choices elected by the participant. Participant accounts are credited with the participant's contributions, rollover contributions, the Company's safe harbor matching contributions, the Company's discretionary employer contributions, if any, and allocations of earnings and losses attributed thereto, and are charged with any benefit payments and allocations of administrative expenses. Allocations of earnings and losses and administrative expenses are based on participants' account balances. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and related earnings and losses thereon, and all safe harbor matching contributions. Vesting in the Company's discretionary employer contributions and related earnings or losses thereon occurs at the rate of 20% per year of service. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum or a partial lump-sum amount equal to the vested portion of their account. Participants are allowed to make in-service withdrawals from their fully vested account balances upon reaching the age of 59 1/2. The Plan also permits hardship withdrawals, in accordance with the provisions specified in the Plan agreement.

1. DESCRIPTION OF THE PLAN (CONTINUED):

Notes Receivable from Participants

A participant may borrow a minimum of $1,000 up to a maximum of $50,000 (or, if less, 50% of the vested account balance) at an interest rate equal to the prime rate or the prime rate plus an additional reasonable fixed rate. A participant may have two loans outstanding under the Plan at one time. Generally, loans shall be repaid within five years of the date on which the loan is made, except for the purchase of a primary residence, which must be repaid within thirty years. The loans are secured by the balances in the participant's account. Principal and interest are repaid through payroll deductions.

Forfeited Accounts

Forfeitures are used either to reduce expenses related to administration of the Plan or applied towards future Employer contributions. The Plan used $16,427 and $24,065 of the forfeited nonvested accounts to reduce Employer contributions for the years ended December 31, 2013 and 2012, respectively. At December 31, 2013 and 2012, forfeited nonvested accounts totaled $21,612 and $12,276, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note 3 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan holds a guaranteed investment contract (GIC) through the group annuity contract with MassMutual supported by the MassMutual general account. Fully benefit responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investments in the GIC as well as the adjustment of the investments in the GIC from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. However, certain fees are charged to and paid by participants. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying financial statements of changes in net assets available for benefits. Investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts – Valued at the net asset value (NAV) of the underlying pool of securities. The NAV is a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by each fund less liabilities. As of December 31, 2013 and 2012, there were no unfunded commitments. Purchases and sales may occur daily within these accounts. Should the Plan initiate a full redemption, the redemption period is daily.

3. FAIR VALUE MEASUREMENTS (CONTINUED):

Guaranteed investment contracts – Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

Description	Level 1	Level 2	Level 3	Total

**Investment did not represent five percent of more of Plan assets at year end.

During the years ended December 31, 2013 and 2012, the Plan's investments in the pooled separate accounts (including gains and losses on pooled separate accounts bought, sold and held during the year) appreciated in fair value by $2,549,661 and $1,127,331, respectively.

5. GUARANTEED INVESTMENT CONTRACT:

The Plan is invested in a fully benefit-responsive guaranteed investment contract (the Agreement) with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The fair value of the GIC was determined by MassMutual using the cash flow due to the Plan under the surrender provisions of the contract, considering current crediting rates and benefit-eligible events, and discounting according to the risk-adjusted market rates. There are no reserves against contract value for credit risk of MassMutual.

5. GUARANTEED INVESTMENT CONTRACT (CONTINUED):

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (3) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The crediting rate is reset semiannually and is based on a formula agreed upon with MassMutual. The average yields of the GIC at December 31, is presented below:

	2013	2012
Based on interest rate credited to participants	2.87%	2.65%
Based on actual earnings	2.87%	2.65%

6. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

All investments are held by the trustee under the Plan's trust agreement at December 31, 2013 and 2012. The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MassMutual, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2013	2012
Pooled separate investment accounts	$ 12,419,530	$ 10,184,554
Guaranteed investment contract*	2,902,036	2,730,307
Notes receivable from participants	298,216	414,346
Net appreciation in fair market value	2,549,661	1,127,331
Interest and dividends	89,788	73,288
Interest on notes receivable from participants	10,311	11,450

*At contract value

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. PARTIES-IN-INTEREST TRANSACTIONS:

Plan investments in the pooled separate accounts and the GIC are managed by MassMutual. MassMutual is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan issues notes to participants, which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materiality affect participants' accounts and the amounts reported in the statements of net assets available for benefits.

9. PLAN TERMINATION:

Although there is no current intention to do so, the Company has the right under the Plan to amend, modify, suspend, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

10. INCOME TAX STATUS:

The underlying nonstandardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated May 8, 2009, stating that the form of the Plan is qualified under Section 401(a) of the Code, and, therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2007-6, the Plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

10. INCOME TAX STATUS (CONTINUED):

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Plan management has identified certain operational errors for the plan year ended December 31, 2013 and is in the process of resolving these errors in accordance with the requirements of the IRS's Employee Plans Compliance Resolution System (EPCRS). The impact of these errors was not material to the Plan's financial statements. Plan management is committed to ensuring the Plan remains in compliance with the provisions of the Internal Revenue Code.

11. SUBSEQUENT EVENTS:

The Plan's management has evaluated subsequent events for adjustment to or disclosure in the Plan's financial statements through October 13, 2014, the date the financial statements were available to be issued. Except as noted below, no other recordable or disclosable events occurred through this date.

Effective August 1, 2014, the Plan and its trust were merged into the Acosta, Inc. 401(k) Retirement Plan and its related trust.
