Fikes Companies Profit Sharing Plan & Trust

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Fikes Companies Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of Fikes Wholesale, Inc. and its subsidiaries, CEFCO and Deweese Enterprises, Inc., and its affiliate, Group Petroleum Services, Inc., (collectively, the "Company") who have completed one year of service and worked a minimum of 1,000 hours. Beginning January 1, 2013, eligible employees must have also attained the age of 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2013, the Plan was amended and restated from a non-contributory to a contributory plan, and a new custodian and record keeper were appointed. Plan assets transferred to the new custodian were transferred in cash from liquidation proceeds. The conversion initiated a blackout period whereby funds could not be applied to the employee-selected funds with the custodian or withdrawn from the Plan until the custodian had time to accurately complete the conversion. Additionally, during this period, employee contributions made through payroll deductions and Company contributions were deposited and held in an income fund until completion of the blackout period. At the end of the blackout period, these funds were transferred to the investment options requested by each participant.

(b) Contributions

Beginning January 1, 2013, participants may contribute up to the maximum allowed by the Internal Revenue Service. Participants may also contribute, with the consent of the Plan Administrator, amounts representing distributions from other qualified plans. Further, the Company matches 100% of participant deferrals up to 3%, and 50% of participant deferrals greater than 3% but less than 5%. The Company may also make a discretionary profit-sharing contribution. Profit-sharing contributions made during 2013 and 2012, respectively, were $-0- and $250,000. Contributions are subject to certain limitations. Beginning January 1, 2013, participants direct the investment of Company contributions and their contributions into various investment options offered by the Plan. The Plan currently offers thirty-one investment options for participants.

(1) Description of Plan (continued)

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of the Company's profit-sharing contribution and Plan net earnings. Allocations are based on compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions and Company matching contributions plus actual earnings thereon. Company profit sharing contributions are 20% vested to the participant after the first two full years of service, 20% for each additional year of service, and fully vested after six years. Full vesting also occurs upon death, total disability, or retirement at or after age 65.

(e) Payment of Benefits

Upon termination of service, a participant may elect to receive either (1) a lump-sum amount equal to the value of his or her account or (2) periodic installments.

(f) Risks and Uncertainties

The Plan's investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies (continued)

(b) Investments

The Plan's investments are stated at fair value and are held by American United Life Insurance Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for further discussion of fair value measurements.

Generally accepted accounting principles dictate that funds held in an insurance company general account (unallocated contracts) that hold fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract. No adjustment of the investment contract from fair value to contract value is presented, as fair value is not materially different from contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Administrative Expenses

A substantial portion of the administrative expenses of the Plan are paid by the Company.

(e) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized.

(2) Summary of Significant Accounting Policies (continued)

(e) Income Taxes (continued)

Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(f) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(3) Investments

The following table presents the fair values of investments at December 31, 2013 and 2012. Investments became participant directed on January 1, 2013. Investments that represent five percent or more of the Plan's net assets are separately identified.

The Plan has invested in the AUL Stable Value Account – an unallocated contract of American United Life Insurance Company. The assets of the unallocated contract are invested primarily in bonds, mortgages, and private placements with average maturities of 10 years. Interest is credited daily and reflects the investment experience of the unallocated contract. Participant-initiated withdrawals and exchanges are paid at contract value during the term of the contract. At termination of the contract, the Plan will receive a distribution of their interest in the unallocated contract, which may be subject to a market value adjustment, provided a 90-day written notice is given to American United Life Insurance Company. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. The average yield earned by the Plan for this fully benefit-responsive investment contract was 1% at December 31, 2013. Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the AUL Stable Value Account. Contract value, as reported to the Plan by American United Life Insurance Company, represents contributions made, plus earnings, less participant withdrawals and exchanges, and administrative expenses.

(4) Information Certified by the Custodians

The financial information included in the Plan financial statements, except for contributions receivable, contributions, benefits paid directly to participants, and administrative expenses, have been derived from information certified as complete and accurate by the custodians of the Plan in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements
(Continued)

(5) Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

(6) Tax Status

Effective January 1, 2013, the Plan is using a standardized prototype profit-sharing plan document. In a letter dated March 31, 2008, the Internal Revenue Service ("IRS") indicated the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). The opinion of the IRS on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code section 401(a). Although the Plan has been amended since receiving the acceptability letter, the Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Prior to January 1, 2013, the IRS had determined and informed the Company by a letter dated July 11, 1995, that the Plan and related trust were designed in accordance with applicable sections of the ode. The Plan had been amended since that date. However, the Plan Administrator believed that the Plan was designed and operated in compliance with the applicable requirements of the Code.

For years before 2010, the Plan is not subject to U.S. federal income tax examinations.

(7) Party-In-Interest Transactions

Plan investments include units in an unallocated contract with American United Life Insurance Company. American United Life Insurance Company is the custodian of the Plan and, therefore, this transaction qualifies as a party-in-interest transaction.

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(8) Fair Value Hierarchy and Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to

Notes to Financial Statements
(Continued)

(8) Fair Value Hierarchy and Measurements (continued)

unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Pooled separate account: Valued at net asset value of shares held by the Plan at year-end. The underlying investments of the pooled separate account are mutual funds valued at quoted market prices. At December 31, 2013, there were no withdrawal restrictions associated with the pooled separate accounts.

Unallocated contract: Valued at fair value considering the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Corporate bonds, U.S. government securities, and mortgage-backed securities: Valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Corporate stocks and mutual funds: Valued at the closing price reported in the active market in which the individual securities are traded.

Money market funds: Valued at the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market

participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.
