Olshan Hotel Management Group Employees' 401(k) Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Olshan Hotel Management Group Employees' 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company and Principal Life Insurance Company, the custodians of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions from March 1, 2013 to December 31, 2013, and that Prudential Life Insurance Company held the Plan's investment

assets and executed investment transactions as of December 31, 2012 and for the period January 1, 2013 to February 28, 2013. The Plan Administrator has obtained a certification from the custodians as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Olshan Hotel Management Group Employees' 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of Plan

The following description of the Olshan Hotel Management Group Employees' 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established for the benefit of the employees of Marco Beach Hotel, Inc., Fair Oaks Motel, Siegen Lane Hotel, L.L.C., Seigen Lane Hotel II, L.L.C., Columbus Easton Hotel, LLC, Columbus Easton Hotel II, LLC, and Columbus Easton Hotel III, LLC, and Cobb Galleria Hotel, L.L.C. (the "Employer"). The Plan is a defined contribution plan covering all employees of the Employer who have met certain age and service requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

During 2013, the Plan changed custodians from Principal Life Insurance Company ("Principal") to State Street Bank and Trust Company ("State Street").

Contributions

Each year, participants may contribute allowable compensation, as defined in the Plan document, subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. As a discretionary match, the Employer contributed twenty-five percent (25%) of the first six percent (6%) of base compensation that a participant contributed to the Plan for the year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions, and allocations of: (a) the Employer's contributions, (b) Plan earnings, and (c) forfeitures of terminated participant's non-vested accounts and charged with withdrawals and allocations of (a) Plan expenses and (b) Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Plan Description (continued)

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings/losses thereon. Vesting in the Employer contributions plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Percent Vested</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants' accounts become fully vested upon reaching normal retirement age.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers mutual funds and common collective trust funds as investment options for participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested account totaled \$2,980 and \$341, respectively. Forfeited accounts will be used to reduce future employer matching contributions and/or pay administrative expenses of the Plan.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

2. Significant Accounting Policies

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

In accordance with GAAP, the Invesco Stable Asset Trust ("Stable Value Fund") held by a defined contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits generally present the fair value of the stable value fund as well as the adjustment to the fully benefit-responsive stable value fund from fair value to contract value when there is a material difference between the two.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Employer, as provided by the Plan document. Certain administrative functions are performed by employees of the Employer. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (such as distribution fees), if any, are charged directly to the participant's account.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2014, which is the date the financial statements were available to be issued. See Note 14 regarding subsequent event.

3. Unaudited Information Certified by the Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2013 and 2012 and for the year ended December 31, 2013 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	<u>2013</u>	<u>2012</u>
Investments	<u>\$ 3,703,879</u>	<u>\$ 3,051,132</u>
Net appreciation in fair value of investments	<u>\$ 504,288</u>	
Dividends and interest	<u>\$ 76,135</u>	

The certification mentioned above includes all investment information discussed in Notes 4 and 5.

4. Investments

The following table presents investments that represent more than 5% or more of the Plan's net assets at December 31:

	<u>2013</u>	<u>2012</u>
Pooled Separate Accounts:		
Principal Money Market SA	\$ *	\$ 236,823

T. Rowe Price Retirement 2020	543,028	*
T. Rowe Price Retirement 2030	366,601	*

*Amount represents less than 5% of net assets.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common collective trust funds	\$ 74,119
Pooled separate accounts	108,297
Mutual funds	<u>321,872</u>
	<u>\$ 504,288</u>

5. Fair Value of Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets which are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Stable Value Fund

This investment is a public investment vehicle valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Interest Accounts

The guaranteed interest accounts are valued at fair value, the amount Plan participants would receive if they terminated their account at the reporting date, which is contract value less an early withdrawal charge which moves with market interest rates. Since the participants may transact at contract value, fair value is determined annually for financial statement reporting purposes only. Because the fair value is based on unobservable inputs, such as the interest rates and expected maturity date of the accounts, the contracts are classified within level 3 of the valuation hierarchy.

Pooled Separate Accounts

These investments are public investment vehicles valued using the NAV provided by the administrator of the accounts. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The pooled separate

5. Fair Value of Measurements (continued)

Pooled Separate Accounts (continued)

accounts are classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual Funds

These investments are public investment vehicles valued at the quoted NAV of shares held by the Plan at year end as provided by the administrator of the fund. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total

Total	<u>\$ -</u>	<u>\$ 2,936,622</u>	<u>\$ 114,510</u>	<u>\$ 3,051,132</u>

5. Fair Value of Measurements (continued)

- (a) Equity fund strategies seek capital appreciation by investing in domestic and international equity securities.
- (b) These investments seek a total return consisting of long-term growth of capital and current income, designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. The accounts invest in underlying Principal domestic and foreign equity, hybrid, and fixed-income mutual funds. The accounts may invest in any of the institutional class shares of the equity funds or fixed-income funds of Principal Funds.
- (c) These investments include a mix of fixed income securities to reflect the broad fixed income market.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance, beginning of year	\$ 114,540
Realized gains	48
Purchases	667
Sales	(115,225)
Balance, end of year	\$ -

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

6. Stable Value Fund

Stable Value Fund contributions are invested in shares of the Invesco Stable Asset Trust, a collective investment trust established by Invesco National Trust Company. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's NAV per unit. Distribution to the Fund's unit holders is declared daily from the net investment income and automatically reinvested in the Fund. It is the policy of the Fund to use its best efforts to maintain a stable NAV of \$1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

6. Stable Value Fund (continued)

Restrictions on the Plan

Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a Plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor.

The following employer-initiated events may limit the ability of the Fund to transact at contract value:

- Amendments to the Plan document due to complete or partial Plan termination or merger with another plan.
- Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions.
- Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan.
- Failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Circumstances that Impact the Fund

The Fund invests in assets, typically fixed income securities, bond funds, or other investment contracts, and enters into "wrapper" contracts issued by third parties. A wrapper contract is an agreement by another party, such as a bank or insurance company to make payments to the Fund in certain circumstances. Wrapper contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrapper contract, the wrapper issuer agrees to pay the difference between the contract value and the market value of the underlying assets if the market value falls below the contract value.

The wrapper contracts generally contain provisions that limit the ability of the Fund to transact at contract value upon the occurrence of certain events. These events include:

- Any substantive modifications of the Fund or the administration of the Fund that is not consented to by the wrapper issuer.
- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Fund's cash flow.
- Employer-initiated transactions by participant plans as described above.

In the event that wrapper contracts fail to perform as intended, the Fund's NAV may decline if the market value of its assets decline. The Fund's ability to receive amounts due pursuant to these wrapper contracts is dependent on the third-party issuer's ability to meet their financial obligations. The wrapper issuer's ability to meet its contractual obligations under the wrapper contracts may be affected by future economic and regulatory developments.

6. Stable Value Fund (continued)

The Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrapper contracts covering all of its underlying assets. This could result from the Fund's inability to promptly find a replacement wrapper contract following termination of a wrapper contract. Wrapper contracts are not transferable and have no trading market. There are a limited number of wrapper issuers. The Fund may lose the benefit of a wrapper contract on any portion of its assets in default in excess of a certain percentage of portfolio assets.

Withdrawals from this fund are subject to the restrictions that apply to the underlying Trust. The Trustee of the underlying Trust has the right to delay any participant-initiated withdrawal for up to 30 days if it determines that immediate withdrawal may have an adverse impact on the Trust. In addition, the Trust has a right to delay for up to 12 months any other withdrawal, including the withdrawal of all or a portion of the assets of an investor in the Trust. Restrictions or price adjustments may be invoked by the underlying Trust with respect to withdrawals from this fund. No other competing investment option can be selected as an investment option by the Plan.

7. Investment Contract with Insurance Company

The Plan had a fully benefit-responsive investment contract with Principal Life Insurance Company ("Principal"). Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

GAAP requires the guaranteed investment contract to be included in the financial statements at fair value and then adjusted to contract value. Because the guaranteed investment contract is full benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of transfer of all or a portion of their investment at contract value. At December 31, 2012, the fair value of the guaranteed investment contract was \$114,510 and the contract value was \$115,276. After the change of custodians in 2013, the GIC was not offered as an investment option.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

7. Investment Contract with Insurance Company

The guaranteed investment contract did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

There were no reserves against contract value of credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract tracked current market yields on a trailing basis.

	<u>2012</u>
Average yields:	
Based on actual earnings	.64%
Based on interest rate credited to participants	.75%

8. Excess Deferral Contributions

The Employer determined that during the Plan year 2012, excess deferral contributions amounted to \$7,525. The excess deferral contributions were returned to the applicable active participants by March 15 of the subsequent year, as required to satisfy the relevant nondiscrimination provisions of the Plan. Accordingly, the refundable amounts are reflected as a liability and netted against contributions received from participants.

9. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent (100%) vested in their accounts.

10. Exempt Party-in-Interest Transactions

Certain Plan investments are managed by Principal. Principal is the Plan's custodian and as such, transactions with the custodian qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to the trustee by the plan for administrative services were \$9,367 and 11,322 for the years ended December 31, 2013 and 2012 respectively.

11. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code ("IRC"). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2008, that the prototype plan document was designed in accordance with applicable section of the IRC. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

11. Tax Status (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and as concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 as of December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per financial statement	\$ 3,764,616	\$ 3,109,043
Employer contributions receivable	(60,737)	-
Excess contributions refundable to participants	-	7,525
Net assets available for benefits per Form 5500	<u>\$ 3,703,879</u>	<u>\$ 3,116,568</u>

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2013:

Net increase in assets available for benefit per financial statement	\$ 655,573
2013 Employer contribution receivable	(60,737)
2012 Excess contributions refundable to participants	7,525
Net increase in assets available for benefits per Form 5500	<u>\$ 587,311</u>

13. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

14. Subsequent Event

On September 15, 2014, the Olshan Hotel Management Group Employees' 401(k) Retirement Plan merged and transferred the net assets to the MPI MGMT LLC D/B/A Olshan Properties 401(k) Plan.
