NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE A – DESCRIPTION OF THE PLAN

The following description of the Emerald Performance Materials, LLC Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined-contribution plan covering all U.S. employees of Emerald Performance Materials, LLC (the “Company”) over the age of 18, excluding temporary, seasonal, or contract employees. The Plan was established effective May 1, 2006 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Each year, participants may elect to contribute up to 75% of their annual compensation as defined by the Plan document. Participant contributions can be made on a pre-tax, Roth, or on an after-tax basis, subject to annual limitations under the Internal Revenue Code (the “Code”). Participants may also contribute amounts representing distributions from other qualified plans. Any newly hired employee that is eligible for the Plan will have 2% of their eligible compensation contributed on a pre-tax basis into a Qualified Default Investment Alternative (“QDIA”) of the Plan as soon as feasible following 30 days from date of hire unless the participant makes a contrary election.

The Company makes a matching contribution currently equal to 50% of employees’ contributions up to 6% of eligible compensation for all eligible employees. In addition, the Company makes discretionary non-elect contributions to the Plan equal to 2% of eligible compensation for all eligible employees. For this same group, a discretionary contribution amount from 0% to 4% of eligible compensation may also be made by the Company. During 2013 a discretionary contribution of 2.0% of eligible compensation was made by the Company.

Participants who are employed by Emerald Polymer Additives, LLC at Henry, Illinois and are covered under a collective bargaining agreement shall be eligible to participate in the plan after completing 60 working days of employment.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts is based on years of continuous service. Participants vest 33% after one year, 66% after two years, and 100% after three years of credited service, as defined by the Plan document. In the event of the Company’s complete discontinuance of contributions to the Plan or upon any full or partial termination of the Plan, all amounts credited to a participant’s account shall become 100% vested.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2013 and 2012

NOTE A – DESCRIPTION OF THE PLAN – CONTINUED

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and allocations of Plan earnings or losses. Allocations of Plan earnings are made to each participant's account based upon participant account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts into the various investment options offered by the Plan.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of a) \$50,000 less the highest outstanding total loan balance during the previous twelve-month period or b) 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest at the fixed rate of prime plus 1% at the time the loan is made. At December 31, 2013 and 2012, interest rates on outstanding loans range from 4% to 9.25%. Loan terms shall not exceed 5 years except where the loan is for the purchase of the participant's principal residence, in which case the loan term shall not exceed 10 years. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant may elect to receive the value of the vested interest in his or her account upon termination of employment, death, disability or retirement. A participant whose vested benefit does not exceed \$1,000 will generally receive their benefit as a single lump-sum distribution. A participant whose vested benefit is \$1,000 - \$5,000 generally has their benefit rolled-out into a third party trust, unless otherwise elected. A participant whose vested benefit is greater than \$5,000 is eligible to have their balance remain in the plan and at their discretion determine the distribution of their account balance.

Forfeitures

Forfeitures of participant's non-vested account balances may be used to reinstate previously forfeited account balances of former participants or be used to pay any administrative expenses of the Plan. The remaining forfeitures, if any, may be used to reduce the contributions of the Company. As of December 31, 2013 and 2012, forfeited non-vested accounts, and earnings thereon, totaled approximately \$7,157 and \$16,523, respectively. During 2013, the Plan used forfeitures of \$18,990 to pay for expenses and \$82,641 was used to reduce company contributions.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to certain collective bargaining agreements and the provisions of ERISA. In the event of termination of the Plan, the account balances of all affected participants shall become fully vested and nonforfeitable.

NOTE B – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the investment contracts at contract value, which approximates fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized in the period earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

The Company pays administrative expenses to the extent not paid by the Plan. Administrative expenses of the Plan for 2013 were paid by the company.

NOTE D – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D – FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: valued at the net asset value (“NAV”) of shares held by the plan at year end, based on quoted market prices in active markets.

Guaranteed investment contract: valued at contract value which approximates fair value based on the nature of the fund (see Note F for further information related to the valuation of this investment).

The Plan’s investment committee, which is comprised of certain executives of the Company, uses a Great-West Life & Annuity Insurance Company (“Great West”) as the primary basis for valuation of this investment. Great-West does not provide access to valuation models, inputs, and assumptions. Accordingly, the Investment Committee conducts a review of a variety of factors including economic conditions, industry and market developments of fund performance.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2013 and 2012:

NOTE D – FAIR VALUE MEASUREMENTS – CONTINUED

	Guaranteed Investment Contract

NOTE E – INFORMATION CERTIFIED BY THE PLAN’S TRUSTEES

Great-West Trust Company, LLC (formerly Orchard Trust Co., LLC) and Great-West Life & Annuity Insurance Company of First Great-West Life & Annuity Insurance Company, (the “Trustees”), held the Plan’s assets and executed investment transactions as of December 31, 2013 and 2012 and for the year ended December 31, 2013.

The financial information related to investments, notes receivable from participants, interest and dividend income, interest income on notes receivable from participants and net appreciation in fair value of mutual funds included in the Plan’s financial statements and supplemental schedule have been derived from information certified as complete and accurate by the Trustees.

NOTE F – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2008, the Plan entered into a benefit-responsive investment contract, the Key Guaranteed Portfolio Fund (“Fund”), a general account product of Great West. Great West maintains the contributions to this Fund in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

As discussed in Note B, because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Fund.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2013 and 2012

NOTE F – INVESTMENT CONTRACT WITH INSURANCE COMPANY – CONTINUED

Contract value represents contributions made under the contract, plus earnings and transfers in, less participant withdrawals, administrative expenses and transfers out. Great West is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Using a discounted cash flow valuation methodology where the interest rate for this portfolio investment contract is reset at least as frequently as annually, fair value of the investment contract, prior to contract termination, equals the contract value. There are provisions in the investment contract that prevent the immediate and full payout of the contract value for certain plan-initiated transactions. Such events include the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) plan termination, (5) bankruptcy, (6) mergers, and (7) early retirement incentives. The Plan does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 1.26% and 1.45% in 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, based on the yields of the underlying investments and considering factors such as projected investment earnings, the current interest environment, investment expenses, and a profit and risk component. The rate may never be less than 0%. The interest rate to be credited to the Group Contract holder will be determined by Great-West prior to the last day of the previous calendar quarter.

The following information represents the opinions of the rating agencies regarding Great-West's financial strength and ability to meet ongoing obligations to policy holders.

NOTE G – TAX STATUS

On March 31, 2008, the Internal Revenue Service ("IRS") stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code ("Code"). The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. The Plan has received a determination letter specific to the Plan itself dated July 8, 2010. The Plan has been amended since the date of the opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of Section 401(a) of the Code.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2013 and 2012

NOTE G – TAX STATUS – CONTINUED

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE H – TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain legal and accounting fees and certain administrative expenses are paid by the Company or from the plan expense account. Additionally, the Key Guaranteed Portfolio Fund is managed by Great West.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE J – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31:

	<u>2013</u>	<u>2012</u>

The following is a reconciliation of change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2013:

Net increase per the financial statements	\$ 13,343,452
Less: Company contributions receivable, 2013 paid in 2014	934,215
Plus: Company contributions receivable, 2012 paid in 2013	812,882
