MATCHED SAVINGS PLAN FOR ALLEN MEDICAL CENTER
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF THE PLAN

General

The following brief description of the Matched Savings Plan for Allen Medical Center (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. A copy of the plan agreement may be obtained from the plan administrator. The Plan is sponsored by Allen Medical Center (the Plan Sponsor), which pays administrative expenses of the Plan, except for custodian fees.

The Matched Savings Plan for Allen Medical Center was established by Allen Medical Center on July 1, 2002 and restated January 1, 2009. All employees are eligible to contribute to the Plan on his/her first day of employment with the Employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of base salary to the Plan on a pre-tax basis. Pre-tax employee contributions were limited by federal law to \$17,500 for the 2013 plan year and \$17,000 for the 2012 plan year. Eligible employees may also elect to make "catch up" contributions. Employees of the Company are eligible to participate in employer matching after having completed one year of service, with 1,000 hours of service being required during the eligibility completion period, and reaching a minimum age of 18 years old. The employer match contribution is equal to 25% on the first 4% of the participant's compensation contributed to the plan.

Participant Accounts

A separate account is maintained for each investment option selected by the participant. Each participant's account is credited with the participant's contributions; the Company's matching contributions and the Plan's earnings. Allocation of the Plan's earnings is based on participant's account balances.

Participants direct the investment of their contributions and those made by the Company into various investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions and 100% vested at all times in all accounts.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balance. Loan terms can be up to 5 years, or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a commercially reasonable rate determined at the time the loan is made. As of December 31, 2013, the interest rate on all outstanding loans was 5.25%. Loan origination fees of \$50 are paid by the participant requesting the loan. Principal and interest is paid ratably through payroll deductions.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Plan Termination

The Hospital currently has an intention to potentially terminate the Plan in 2014 or 2015. The Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting, in conformity with generally accepted accounting principles.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments

All of the Plan's investments are held by MetLife and are stated at fair value. Underlying assets of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Money market funds are valued at \$1 per share. Participant loans are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Distributions

Benefit distributions are recorded and expensed when paid to participants.

Administrative Services

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and fees for administrative services are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

MATCHED SAVINGS PLAN FOR ALLEN MEDICAL CENTER
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 3 - INVESTMENTS

The Plan's investments are held by MetLife, as custodian. MetLife maintains the investments in separate accounts, which comprise a significant portion (100%-2013, 100%-2012) of the Plan's assets. The accounts are credited with earnings on the underlying investments and charged for plan withdrawals. The contract is included in the financial statement at contract value which approximates fair value as reported by MetLife. MetLife certified as of December 31, 2013 and 2012 as to the completeness and accuracy of the information reported. Unrealized gains on investments totaled \$262,691 for the year ended December 31, 2013.

Investments that represent 5% or more of the fair value of the Plan's net assets are as follows:

	December 31,	
	<u>2013</u>	<u>2012</u>
American Funds Growth	\$ 39,011	\$ 111,510
American Funds Europe	-	221,232
Pimco Total Return	50,342	326,400
Royce Total Return	-	129,745
Vanguard Target 2015	119,664	152,762
Vanguard Target 2020	222,548	386,831
Vanguard Target 2030	50,543	-
Vanguard Target 2040	83,142	-
Participant Loans	38,120	-

NOTE 4 - INCOME TAX STATUS

The Internal Revenue Service does not issue determination letters for 403(B) Plans. The Plan's management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 - INFORMATION CERTIFIED BY THE CUSTODIAN (CONTINUED)

The income and expenses reported in the statement of changes in net assets available for plan benefits for the year ended December 31, 2013 were certified by MetLife.

The information included in the Schedule of Assets was certified by MetLife.

NOTE 7 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board *Statement Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 7 – FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at a net asset value of \$1 per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

Assets at Fair Value as of December 31, 2013
