INDEPENDENT AUDITORS' REPORT

Plan Administrator
Beck Oil Company of Illinois
Employee Stock Ownership Plan
Princeton, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of Beck Oil Company of Illinois Employee Stock Ownership Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013, and the changes in net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

The financial statements of Beck Oil Company of Illinois Employee Stock Ownership Plan as of December 31, 2012 were audited by other auditors whose report, dated September 27, 2013, expressed an unmodified opinion on those financial statements.

As discussed in Note 2 to the financial statements, the Plan has elected to change from the cash basis to the accrual basis of accounting as of the beginning of the current year. The Company did not have to adjust its 2012 financial statements to retrospectively apply the change in basis of accounting.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, 4(i) - Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BECK OIL COMPANY OF ILLINOIS
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of Beck Oil Company of Illinois Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreements for a more complete description of the Plan's provisions.

General

Beck Oil Company of Illinois established the Plan effective as of April 1, 2010. The Plan operates as a leveraged employee stock ownership (ESOP) and is designed to comply with Section 4975(e)(7) and as a stock bonus plan under Section 401(a) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by Beck Oil Company of Illinois but its duties may be delegated to the ESOP Committee.

The Plan purchased Company common stock using the proceeds of a note payable to the Company and holds the stock in a trust established under the Plan (see Note 6). As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The Company, as lender, has no rights against shares once they are allocated to participants under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012 and for the years ended present separately the assets and liabilities and changes therein pertaining to:

a) the accounts of employees with vested rights in allocated common stock (Allocated) and

b) common stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are eligible to participate in the Plan as of the first January 1 or July 1 following one year of service, provided that the employee has completed 1,000 hours of service and attained age twenty-one. The Plan excludes leased employees, employees covered by a collective bargaining agreement, nonresident aliens, and independent contractors.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to IRC limitations.

Participants Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are employed on the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participant's accounts is based on years of continuous service with the Company. The vesting schedule is as follows:

Years of Service	**Vested Percent**
Less than 2	0%
2	20
3	40
4	60
5	80
6 or more	100

A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Voting Rights

Company stock owned by the Plan is voted by the Trustee, in accordance with instructions from the ESOP Committee except with respect to votes related to mergers, consolidations, liquidations, and certain other matters affecting the Company's future existence. For those votes, the participants are entitled to exercise voting rights attributable to the shares allocated to their accounts. Any unallocated shares and any allocated shares for which a participant fails to vote are voted by the Trustees.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with a secured promissory note that does not exceed five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service. Benefits are paid according to the following schedule:

> Account value greater than $985,000 - In equal annual installments over five years, plus one additional year (but not more than five additional years) for each $195,000 (or fraction thereof) by which the value of the account exceeds $985,000.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

Account value greater than $5,000 and less than $985,000 - In equal annual installments over five years.

Account value greater than $1,000 and less than $5,000 - In one lump sum or as a direct rollover.

Account value less than $1,000 - In one lump sum, as soon as practicable following a one-year break in service.

The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Forfeited Accounts

Forfeitures for each Plan year are allocated among the accounts of participants in the ratio that the eligible compensation of each entitled participant bears to the total compensation of all entitled participants and are subject to the same vesting schedule as discretionary contributions from the Plan sponsor. During 2013, there were 311 forfeited nonvested shares allocated to participants. There were no unallocated forfeited nonvested accounts at December 31, 2013 and 2012.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The 2013 financial statements of the Plan are prepared using the accrual basis of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

The 2012 financial statements of the Plan were prepared using the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the cash basis of accounting, employer contributions and investment income are recognized when received rather than when earned, and expenses and other deductions are recognized when paid rather than when incurred. The Company did not have to adjust its 2012 financial statements to retrospectively apply the change in basis of accounting, as there were no material accrued contributions, investment income receivable, or accrued expenses as of December 31, 2012 and 2011.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Concentrations

The Plan's investments subject the Plan to concentrations in that the Plan Sponsor's common stock represents all of the Plan's assets. Following customary practices, the Plan did not hold any collateral for this investment. The maximum potential credit loss to the Plan is equal to the total investments as shown on the accompanying statements of net assets available for benefits.

The Plan Sponsor owns and operates 17 convenience stores in Illinois and Iowa, all of which are known as Beck's Convenience Stores. Approximately 66 percent of the Plan Sponsor's revenue was from the sale of fuel.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

NOTE 3 - Administration of Plan Assets

The Plan's assets, which consist principally of sponsor Company common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 4 - INVESTMENTS

The Plan's investments, at December 31, 2013 and 2012, are in the common stock of the Sponsor Company. This investment is summarized in the following table:

	2013		2012	
	Allocated	**Unallocated**	**Allocated**	**Unallocated**
Beck Oil Company of Illinois, Inc. common shares:				
Number of shares	15,743.00	20,294.50	11,851.00	24,186.50
Cost	$ 199,411	$ 257,064	$ 150,113	$ 306,362
Fair value	$ 772,352	$ 995,648	$ 555,930	$ 1,134,589

NOTE 5 - FAIR VALUE MEASUREMENTS

The fair value measurement framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liabilities.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Beck Oil Company of Illinois Common Stock: The fair value of the Sponsor Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flows and net income. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses and approves.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31:

	2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Beck Oil Company of Illinois common shares	$ -	$ -	$ 1,768,000	$ 1,768,000
Total assets at fair value	$ -	$ -	$ 1,768,000	$ 1,768,000

	2012			
	Level 1	**Level 2**	**Level 3**	**Total**
Beck Oil Company of Illinois common shares	$ -	$ -	$ 1,690,519	$ 1,690,519
Total assets at fair value	$ -	$ -	$ 1,690,519	$ 1,690,519

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the years ended December 31:

	2013	**2012**
Balance, beginning of year	$ 1,690,519	$ 1,268,160
Net unrealized appreciation relating to shares still held at the reporting date	77,481	422,359
Balance, end of year	$ 1,768,000	$ 1,690,519

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

NOTE 6 - NOTE PAYABLE

In 2010, the Plan entered into a $456,475 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 3,892 and 4,041 shares being released and allocated for the Plan years ended December 31, 2013 and 2012, respectively.

The agreement provides for the loan to be repaid over 10 years. The loan bears a fixed interest rate of 5 percent. While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of the Plan's loan and related Plan contributions for the next five years are as follows:

2014	$ 45,648
2015	45,648
2016	45,648
2017	45,648
2018	45,648
Years thereafter	45,645
Total	$ 273,885

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be fully vested and distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan.

NOTE 8 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. Certain officers and employees of Beck Oil Company of Illinois, the Plan Sponsor, are Fiduciaries and Administrators of the Plan and are participants in the Plan. These are related party and party-in-interest transactions.

NOTE 9 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated May 8, 2014, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the applicable sections of the IRC. Therefore, the Plan administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 - RISK AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
