NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012**

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Affinity Medical Technologies LLC 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all regular employees over 21 years of age (excluding leased employees, bargaining employees and non-resident aliens with no U.S. income) of Affinity Medical Technologies LLC (the Company) who are eligible to participate in the Plan after performing one year of service without regard to hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective January 1, 2013, the Affinity Medical Technologies, LLC 246 401(k) Plan merged into the Plan. In addition, the Plan was renamed the Affinity Medical Technologies LLC 401(k) Savings Plan.

Contributions

Participants may elect to have a portion of their compensation contributed to the Plan on a pretax basis and/or on an after-tax basis as Roth contributions. Participants may contribute through payroll deductions whole percentages of their compensation for the Plan year subject to Internal Revenue Code (the IRC) limitations. Participants may also contribute amounts representing distributions from other qualified plans. Participants who have attained age 50 or older are eligible to make catch-up contributions as permitted by the IRC rules. The Company makes a matching contribution equal to 100% of the first 3% of employee deferrals, and 50% of employee deferrals over 3% but not exceeding 5%. Company matching contributions are made for all employees who were active participants at any time during the payroll period.

Payment of Benefits

Participants are eligible for a lump-sum distribution of their accounts upon termination of employment or at the later of when the participant retires or reaches age 59-1/2, unless the participant has become disabled or can demonstrate financial hardship. Participants aged 59-1/2 or older are eligible to take a withdrawal of their accounts prior to termination of employment. Participants may also make a rollover withdrawal at any time. Otherwise, benefits will begin before the 60th day following the close of the Plan year on the later date of the participant attaining age 65, the 10th anniversary of the participant's entry date, or the date the participant terminates service with the employer.

Vesting

Participants are immediately vested in their contributions and Company matching contributions plus actual earnings thereon and, therefore, have a non-forfeitable interest in their accounts.

Participant Loans

Loans to participants are not permitted under the Plan.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

Participant Accounts

Each participant has an account, which consists of participant and Company contributions and allocations of earnings thereon, less any investment losses or withdrawals and an allocation of Plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investments

Participants direct the investment of their accounts into various investment options offered by the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

Investment management and administrative record-keeping expenses of the Plan are paid by the Plan unless the Company elects to pay the expenses.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See note E for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE C - INFORMATION CERTIFIED BY THE TRUSTEE AND CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company (Principal) and Delaware Charter Guarantee & Trust Company, the trustee and custodian, respectively, of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Investment income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2013.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D - INVESTMENTS

The fair value of investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012, are as follows:

	<u>2013</u>	<u>2012</u>
Fidelity Advisor Government Income T Fund	N/A	\$21,384
Principal Trust Target 2015 Fund R5	\$129,174	79,416
Principal Trust Target 2020 Fund R5	152,605	72,924
Principal Trust Target 2025 Fund R5	200,207	37,018
Principal Trust Target 2030 Fund R5	86,226	35,989
Principal Trust Target 2040 Fund R5	69,295	N/A
Principal Trust Target 2045 Fund R5	68,852	N/A

NOTE E - FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Affinity Medical Technologies LLC
401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2013 and 2012

Level 1 - Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 - Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are not active.
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy in which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan:

Mutual funds - Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Collective trust funds - Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. The funds may invest in various types of investments, including affiliated and unaffiliated mutual funds, Principal separate accounts and unaffiliated collective trust funds. Investment returns and principal values fluctuate with changes in interest rates and other market conditions. Each fund is managed toward a particular target (retirement) date, or the approximate date the participant or investor starts withdrawing money.

Fully Benefit-responsive Guaranteed Investment Contract

The Plan has a fully benefit-responsive guaranteed investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Affinity Medical Technologies LLC
401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2013 and 2012

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value, with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was \$1,241 and \$917, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The net credit ratings earned by the guaranteed investment contract after the 0.65% deduction for administrative and record-keeping fees for the prior two Plan years are as follows:

Period	Net crediting rate
December 1, 2011 - May 31, 2012	2.00%
June 1, 2012 - November 30, 2012	1.75
December 1, 2012 - May 31, 2013	1.45
June 1, 2013 - November 30, 2013	1.35
December 1, 2013 - May 31, 2014	1.35

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

NOTE G - INCOME TAX STATUS

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the written form of the volume submitter plan document is qualified under Section 401(a) of the IRC. Any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Affinity Medical Technologies LLC
401(k) Savings Plan
NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2013 and 2012

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE H - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and units of a collective trust fund managed by Principal, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J - SUBSEQUENT EVENTS

Management evaluated the Plan's December 31, 2013, financial statements for subsequent events through October 9, 2014, the date the Plan's financial statements were available to be issued. Effective July 1, 2014, the Principal Fixed Income Guaranteed Option was liquidated and replaced with another investment option in anticipation of the merging of the Plan into the Molex Incorporated Retirement Savings Plan in 2015. Management is not aware of any other subsequent events that would require recognition or disclosure in the financial statements.
