THE ROVISYS COMPANY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following is a summary of certain provisions of The RoviSys Company 401(k) Retirement Plan (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participation – The Plan is a defined contribution plan, established as of January 1, 1994, covering substantially all full-time employees of the Plan sponsor, The RoviSys Company and Subsidiaries (the "Company"), who have completed one hour of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – The Company is responsible for controlling and managing the operations and administration of the Plan.

Contributions – Participants may elect to defer up to 100% of their compensation, in whole percentages only, subject to certain limits imposed by the Internal Revenue Service. The Company matches 50% of the first 6% of the employee's deferral, after completing one year of service.

The Company may also make discretionary non-elective Employer contributions. These contributions are allocated to or divided among participants eligible to share in the contribution for the Plan year. These contributions are allocated to each eligible participant's account under an integrated contribution formula. There were no such contributions made for the years ended December 31, 2013 and 2012.

Participant Accounts – The Plan maintains an individual account for each participant. These accounts are credited with the participants' contributions, Company contributions and related earnings, and charged with an allocation of administrative expenses. Participants elect to maintain their aggregate participant contributions in the investment funds. Separate accounting for each of the funds is made pursuant to the participant's designated election. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants – The Plan allows loans to participants subject to certain regulatory restrictions. The amount of the loans cannot exceed the lesser of \$50,000 reduced by the excess, if any, of the participant's highest outstanding balance of all loans on any day during the one year period ending on the day before the loan is made, over the outstanding balance of loans from the Plan on the date the participant's loan is made, or 50% of the participant's vested balance. Interest is charged based on the prevailing rate at the time of the loan. Loan terms must provide for equal payments to be made not less frequently than quarterly over a period generally not to exceed five years; however, if the loan is for the purchase of the participant's principal residence, the administrator may permit a longer repayment term. Principal and interest are paid ratably through payroll deductions. Repayments of principal and interest are credited to the participant's separate account within the funds as elected by the participant. Until such repayments are received, the notes receivable are accounted for in the participant loan fund.

THE ROVISYS COMPANY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of Plan (Continued)

Vesting – Participants are at all times vested in their contributions and earnings thereon. Employer matching contributions, discretionary non-elective Employer contributions, and actual earnings thereon follow a vesting schedule as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits – Participants who terminate under the Plan are paid the current vested value of their account balances. All distributions are in the form of lump-sum cash payments. The Plan provides for the immediate payout of a participant's account upon retirement, death, or other termination unless the balance of the account exceeds \$5,000 and the participant has not attained age 65. In this instance, payout will not occur without the consent of the participant and his/her spouse, if applicable.

Forfeitures – Forfeitures are used to offset future Employer matching contributions, discretionary non-elective Employer contributions, or administrative expenses. At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$23,433 and \$14,484, respectively. For the years ended December 31, 2013 and 2012, Employer contributions were reduced by \$-0- and \$18,225, respectively, from forfeited non-vested accounts.

Termination Provisions – The Company anticipates and believes that the Plan will continue indefinitely. However, the Company reserves the right to discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA. In the event of termination of the Plan, participants would become 100% vested in their accounts and the assets then remaining in the funds would be allocated and distributed to participants in accordance with the terms and provisions of the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from such estimates.

Risks and Uncertainties – The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

THE ROVISYS COMPANY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income including participant loans is recorded when earned on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund. Contract value for this common/collective trust fund is based on the net asset value of the fund as reported by the Trustee. As required, the statements of net assets available for benefits present the fair value of the investment as well as the adjustment of the investment from fair value to contract value (if applicable). No adjustment from fair value to contract value is presented as fair value approximates contract value at December 31, 2013 and 2012. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, which is reset at least annually.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The investment in the common/collective trust fund does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

<u>Average Yields</u>	<u>2013</u>	<u>2012</u>
Based on actual earnings	1.21%	1.59%
Based on interest rate credited to participants	1.46%	1.95%

Administrative Expenses – All administrative expenses of the Plan are paid by the Company or the Plan at the option of the Company except for fees related to participant loans and distributions, which are paid by the participants.

Subsequent Events – The Company has evaluated subsequent events through September 22, 2014, which is the date the financial statements were available to be issued.

Note 3. Unaudited Information

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

THE ROVISYS COMPANY 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements (Continued)

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuation methodologies used for Plan assets measured at fair value:

- The fair value of registered investment companies is determined based on their quoted closing market prices in active markets for identical investments, and is classified as Level 1.
- The investment in the common/collective trust fund is valued at its closing net asset value as a practical expedient to estimate fair value since this value is the probable selling price of the investment. The net asset value is based primarily on quoted prices of the actual underlying assets or similar assets and is classified as Level 2.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2012 to 2013. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level the Plan's assets at fair value at December 31, 2013 and 2012:

Note 5. Tax Status

The Plan is a prototype plan provided by PNC. PNC obtained its latest determination letter of the prototype plan on January 31, 2006, in which the Internal Revenue Service stated that the prototype document on which this Plan is based was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Company has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2013, the Plan's tax years from 2010 and thereafter remain subject to examination by the Internal Revenue Service.

Note 6. Party-in-Interest Transactions

The Plan invests in certain funds managed by PNC; therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid to PNC were \$600 and \$700 for 2013 and 2012, respectively. These amounts represent fees charged directly to participants for participant loans and distributions.

For the calendar year 2013, the Capital Preservation Fund will file directly with the DOL certain financial statements on its own Form 5500 as a Direct Filing Entity (DFE).

Retirement plans that have provided Capital Preservation Fund with sufficient plan information will be included on the Capital Preservation Fund DFE Form 5500 as a participating plan. These retirement plans may not have to include detailed information about the underlying assets and transactions of Capital Preservation Fund on their own Form 5500. For those retirement plans that did not provide Capital Preservation Fund with sufficient plan information, the plan may be required to include on its own Form 5500 information about the Capital Preservation Fund's underlying assets.
