NOTE 1: **Description of the Plan:**

The following brief description of the FlexSol Packaging Corp. ("the Company") Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution plan that covers all eligible employees beginning the day on which a person becomes an employee. The Plan was established by FlexSol Packaging Corp. to provide supplemental retirement benefits to its employees. All employees who have completed twelve consecutive months of service are eligible for employer match. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The United States Treasury Department has approved the Plan as a qualified plan; therefore, the Plan is exempt from Federal income taxes.

B. Contributions - Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code. New participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. For the years ended December 31, 2013 and 2012, the Company chose to contribute an amount equal to 50% of such contributing participant's elective deferral which does not exceed 8% of the contributing participant's compensation. The Company may also make an additional discretionary contribution to the Plan. For the years ended December 31, 2013 and 2012, no additional discretionary contributions were made by the Company.

Corrective distributions are required in the event that employee contributions exceed contribution limitations of the Plan. These amounts should be recorded as a liability in the year in which they were initially contributed to the plan. For the years ended December 31, 2013 and 2012 these amounts were $51,961 and $68,237, respectively.

C. Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

D. Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant shall have a non-forfeitable interest in the portion of his account derived from employer contributions and the percentage of such interest shall be determined by the following vesting schedule as follows:

Years of Service	Vested Percentage
Less than 1 year	0%
At least 1 year, but less than 2	20%
At least 2 years, but less than 3	40%
At least 3 years, but less than 4	60%
At least 4 years, but less than 5	80%
5 years or more	100%

E. Investment Options - Upon enrollment in the Plan, a participant may direct the investment of their contributions to various investment options offered by the Plan.

NOTE 1: **Description of the Plan (Continued):**

F. Notes Receivable from Participants - Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum of equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates in accordance with the Plan document. The Company determines the appropriate interest rate based on interest rates for loans of comparable quality and duration extended by banks and other financial institutions for loans under similar circumstances. The rate on all outstanding loans at December 31, 2013 was between 4.25% - 11.5%. Loans are repayable ratably through periodic payroll deductions. The full amount of the outstanding loan becomes due and payable upon the occurrence of a distributable event other than the satisfaction of the conditions for an in-service distribution. If the outstanding loan balance is not repaid, it will be deemed in default and will become taxable to the participant.

G. Payment of Benefits - Upon termination of service, death, disability or retirement, participants may elect to receive their benefits as a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over which such payments shall not extend beyond the participants life expectancy (or the life of the participant and his designated beneficiary).

H. Forfeitures - Forfeitures from non-vested accounts are generally used to reduce future Company contributions. Forfeited amounts of $7,594 and $12,784 were used to reduce the Company contributions during the years ended December 31, 2013 and 2012. Forfeitures of approximately $7,469 and $12,760 were accumulated and are to be used to reduce the Company's current and future contributions during the years ended December 31, 2013 and 2012. Forfeited non-vested accounts totaled approximately $4 and $9 as of December 31, 2013 and 2012.

I. Debt - The Plan does not guarantee the debts of others nor does it have any debt of its own.

J. Termination - Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 2: **Summary of Significant Accounting Policies:**

A. Basis of Accounting - The financial statements of the Plan are prepared using the modified cash basis of accounting. The modified cash basis differs from generally accepted accounting principles in the United States of America primarily in the recognition of employees' contributions and earnings on investments when received and expenses when paid. In regards to the Plan's accounting of investments, the modified cash basis differs from generally accepted accounting principles primarily in the recording of capital gains and/or losses on the day after trade.

NOTE 2: **Summary of Significant Accounting Policies (Continued):**

A. Basis of Accounting (Continued) - As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare Pension Plans (the "FSP"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

B. Use of Estimates - The process of preparing financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions regarding certain types of assets, liabilities, additions to net assets and deductions from net assets. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

C. Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Administrative Expenses - The Plan permits payment of Plan administrative expenses from the Plan's assets.

E. Payments of Benefits - Benefits are recorded when paid.

NOTE 3: **Tax Status:**

The Internal Revenue Service has determined and informed the Company by letter that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since inception, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code and continues to be tax exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

NOTE 4: **Fidelity Bond:**

The Plan has a $2,000,000 fidelity bond in place which exceeds the Department of Labor's recommendation of 10% Plan assets.

NOTE 5: **Investments:**

The following information has been prepared and certified as complete and accurate by Principal Trust Company ("PTC") as of December 31, 2013 and 2012, respectively:

NOTE 6: **Related Party Transactions:**

Certain Plan investments are shares of mutual funds managed by an affiliate of Principal Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid $22,330 and $20,717 for Principal Trust Company investment management services the years ended December 31, 2013 and 2012.

NOTE 7: **Reconciliation of Financial Statements to Form 5500:**

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Form 5500:

	2013	2012

Net increase (decrease) in net assets available for benefits per Form 5500	$ (173,697)	$ 906,182

NOTE 8: **Information Certified by the Plan's Trustee:**

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Trust Company (PTC), the trustees of the Plan at December 31, 2013 and 2012, respectively, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of assets available for benefits as of December 31, 2013 and 2012, the schedule of assets held for investment purposes as of December 31, 2013 and 2012, and the related investment activity reflected in the statements of changes in assets available for benefits for the years ended December 31, 2013 and 2012.

NOTE 9: **Risks and Uncertainties:**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10: **Investment Contract with Insurance Company:**

The Plan held a fully benefit-responsive investment contract with PTC at December 31, 2013 and 2012, who maintained the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statement of net assets available for benefits at fair value as determined by considering the minimum interest crediting rate as stated in the contract, prevailing marking conditions and the date/state of contract issuance. The adjustment from fair value to contract value for the investment contract is based on the contract value as reported to the Plan by PTC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the investment contract at December 31, 2013 and 2012 was $5,710,386 and $4,418,140 respectively. The average yields for this investment contract for the years ended December 31, 2013 and 2012 is as follows:

	2013	**2012**
Based on Actual Earnings	1.503%	1.909%
Based on Interest Rate Credited to Participants	1.503%	1.909%

Certain events limit the Plan's ability to transact at contract value with PTC. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

NOTE 11: **Fair Value Measurements:**

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under ASC 820 are described below:

NOTE 11: **Fair Value Measurements (Continued):**

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

1) Guaranteed Investment Account - Valued at the net asset value (NAV) of shares held by the Plan at year end.

2) Mutual Funds - Valued at the net asset value (NAV) of shares held by the Plan at year end.

3) Notes Receivable from Participants - Valued at amortized cost, which approximates fair value.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013.

	Investment Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**
Registered Investment Companies	$2,128,449	$ -	$ -	$ 2,128,449
Pooled Separate Accounts	-	7,244,491	-	7,244,491
Common Collective Trust	-	5,710,386	-	5,710,386
Notes Receivable from Participants	-	-	677,603	677,603
Total Investments at Fair Value	$2,128,449	$12,954,877	$677,603	$15,760,929

NOTE 12: **Subsequent Events:**

Subsequent events have been evaluated through October 7, 2014, which is the date the financial statements were available to be issued.

NOTE 13: **Uncertain Tax Positions:**

Approximately three to four years of informational filings remain open for examination depending on the jurisdiction and tax issues involved and subject to numerous exceptions. The Company's filings have not been chosen by the IRS for examination as of October 7, 2014.

NOTE 14: **Prior Period Adjustment:**

The Plan's financial statements as of December 31, 2011 contained the following errors: an overstatement for contributions from participants by $69,858 and understatement of corrective distributions by $69,858. These amounts should have been recorded as a liability in the year which they were initially contributed to the Plan. The AICPA Financial Reporting Executive Committee requires that these amounts be netted against contributions received on the statement of changes in net assets available for benefits because the contributions were ineligible for the plan year. Net assets available for benefits as of January 1, 2012 have been reduced by $69,858 to correct the aggregate effect of the errors. Had the errors not been made, net increase in assets available for benefits for year ended December 31, 2011 would have been decreased by $69,858.

The Plan has restated it's previously issued December 31, 2012 financial statements for matters related to corrective distributions and excess participant contributions payable, both of which were not previously reported. Excess participant contribution payable was understated by $68,237 and participant contributions were overstated by $68,237. The accompanying financial statements for December 31, 2012 have been restated to reflect the corrections.
