INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
The Thermotech 401(k) Retirement Savings Plan

We were engaged to audit the accompanying financial statements of Thermotech 401(k) Retirement Savings Plan which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Bank and Trust the trustee of the Plan, respectively, except for comparing such information with the related information included in the financial statements. The Plan administrator has informed us that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1 Description of Plan

The following description of the Thermotech (the “Company”) 401(k) Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all employees of the Company.

The plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Plan’s Board of Trustees. The Company administers the Plan.

Contributions

Each year, participants may contribute 1% to 75% of eligible earnings, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the first 3% of eligible compensation that a participant contributes to the plan. Additional profit sharing amounts may be contributed at the option of the Company’s board of directors. There was no profit sharing contribution for 2013. Contributions are subject to certain limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings, and charged with specific transaction fees. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participants direct the investment of their contributions into various investment options offered by the plan.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1 Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus earnings thereon is as follows:

Years of Service	Nonforfeitable Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive the vested balance of their account either in the form of a single lump sum or in installment payments. If the vested account, excluding rollover contributions, is \$5,000 or less, benefits will be paid in a single lump sum.

Forfeited Accounts

In accordance with the Plan provisions, nonvested benefits at termination of employment are forfeited and are used to first pay plan expenses and next to reduce future employer contributions. At December 31, 2013 and 2012, the forfeited nonvested accounts were \$11,489 and \$4,624, respectively. Also, in 2013 plan expenses were reduced by \$372 from forfeited non-vested account.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 2 **Summary of Significant Accounting Policies**

Basis of Presentation

The accounting records of the Plan are maintained on the accrual basis of accounting. Benefit payments to retired and terminated participants are reported when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts of assets liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Fees

Investment fees are paid directly from the Plan's assets. Thermotech pays plan administrative fees.

Subsequent Events

The Plan's management has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

Note 3 Investments

The following investments represented 5% or more of the Plan's net assets available for benefits at December 31, 2013:

	2013	2012
Guaranteed Income Fund	\$ 3,710,746	\$ 3,848,339
Large Cap Growth/JP Morgan	1,764,374	1,352,710

Small Cap Growth/Times Square	*	520,437
Mid Cap Growth/Artisan	695,883	*

* Not a 5% investment in respective year

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,714,284 as follows:

Pooled Separate Accounts	<u>\$ 1,714,284</u>
--------------------------	---------------------

Note 4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Valued at the net asset value (NAV) of the underlying investments and are valued daily by issuer.

Guaranteed investment fund: The concept of a value other than Contract Value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product even upon a discontinuance of the contract in which case Contract Value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a market value (fair value) adjustment does not apply upon discontinuance.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to receive interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional Guaranteed Investment Contract ("GIC"), and therefore there are no known cash flows that could be discounted.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value as of December 31, 2013 and 2012 :

Assets at Fair Value as of December 31, 2013

Note 5 Information Certified by the Plan's Trustee

Prudential Bank and Trust, the trustee of the Plan, has supplied the plan administrator with certifications as to the completeness and accuracy of the following investment information that is presented in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, and the statement of changes in net assets available for benefits for the year ended December 31, 2013 and the supplemental schedule of assets (held at end of year) as of December 31, 2013.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 6 Income Tax Status

The Company adopted a prototype defined contribution plan that received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is exempt from federal and state income taxes. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7 Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 Party-In-Interest Transactions

Certain Plan investments are managed by Prudential Bank and Trust. Prudential Bank and Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Note 1 Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus earnings thereon is as follows:

Years of Service	Nonforfeitable Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account. The loans are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive the vested balance of their account either in the form of a single lump sum or in installment payments. If the vested account, excluding rollover contributions, is \$5,000 or less, benefits will be paid in a single lump sum.

Forfeited Accounts

In accordance with the Plan provisions, nonvested benefits at termination of employment are forfeited and are used to first pay plan expenses and next to reduce future employer contributions. At December 31, 2013 and 2012, the forfeited nonvested accounts were \$11,489 and \$4,624, respectively. Also, in 2013 plan expenses were reduced by \$372 from forfeited non-vested account.

Note 2 **Summary of Significant Accounting Policies**

Basis of Presentation

The accounting records of the Plan are maintained on the accrual basis of accounting. Benefit payments to retired and terminated participants are reported when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts of assets liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Fees

Investment fees are paid directly from the Plan's assets. Thermotech pays plan administrative fees.

Subsequent Events

The Plan's management has evaluated subsequent events through October 13, 2014, the date the financial statements were available to be issued.

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,714,284 as follows:

Pooled Separate Accounts	<u>\$ 1,714,284</u>
--------------------------	---------------------

Note 4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Valued at the net asset value (NAV) of the underlying investments and are valued daily by issuer.

Guaranteed investment fund: The concept of a value other than Contract Value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product even upon a discontinuance of the contract in which case Contract Value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a market value (fair value) adjustment does not apply upon discontinuance.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to receive interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional Guaranteed Investment Contract ("GIC"), and therefore there are no known cash flows that could be discounted.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value as of December 31, 2013 and 2012 :

Note 5 Information Certified by the Plan's Trustee

Prudential Bank and Trust, the trustee of the Plan, has supplied the plan administrator with certifications as to the completeness and accuracy of the following investment information that is presented in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, and the statement of changes in net assets available for benefits for the year ended December 31, 2013 and the supplemental schedule of assets (held at end of year) as of December 31, 2013.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 6 Income Tax Status

The Company adopted a prototype defined contribution plan that received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is exempt from federal and state income taxes. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7 Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 Party-In-Interest Transactions

Certain Plan investments are managed by Prudential Bank and Trust. Prudential Bank and Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
The Thermotech 401(k) Retirement Savings Plan

We were engaged to audit the accompanying financial statements of Thermotech 401(k) Retirement Savings Plan which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Bank and Trust the trustee of the Plan, respectively, except for comparing such information with the related information included in the financial statements. The Plan administrator has informed us that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held at end of year as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Thermotech 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1 Description of Plan

The following description of the Thermotech (the “Company”) 401(k) Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all employees of the Company.

The plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Plan’s Board of Trustees. The Company administers the Plan.

Contributions

Each year, participants may contribute 1% to 75% of eligible earnings, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50% of the first 3% of eligible compensation that a participant contributes to the plan. Additional profit sharing amounts may be contributed at the option of the Company’s board of directors. There was no profit sharing contribution for 2013. Contributions are subject to certain limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and, (b) Plan earnings, and charged with specific transaction fees. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participants direct the investment of their contributions into various investment options offered by the plan.

Note 6 Income Tax Status

The Company adopted a prototype defined contribution plan that received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is exempt from federal and state income taxes. Although the Plan has been amended since receiving the determination letter, the Plan's administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 7 Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 Party-In-Interest Transactions

Certain Plan investments are managed by Prudential Bank and Trust. Prudential Bank and Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.
