Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Union Metal Corporation Tax Deferred Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Massachusetts Mutual Life Insurance Company, the current custodian of the Plan, and Principal Life Insurance Company, the former trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian/trustee holds/held the Plan's assets and executes/executed transactions. The Plan Administrator has obtained a certification from the current custodian as of and for the period from January 1, 2013 to December 31, 2013, and the former trustee from January 1, 2013 to December 5, 2013, and as of December 31, 2012, that the information provided to the Plan Administrator by the custodian/trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

To the Trustees
Union Metal Corporation Tax Deferred Savings Plan

Other Matter

The supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 1. Description of the Plan

The following description of the Union Metal Corporation Tax Deferred Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers substantially all salaried employees of Union Metal Corporation (the Sponsor) upon the date employment commences. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants contribute to the Plan in the form of elective salary deferrals. These contributions are calculated as a percentage of the participant's salary from 1% to 100% in salary deferral; however, deferrals may not exceed the statutory maximum amount. The Plan also allows for the Sponsor to make discretionary contributions to the Plan.

Payment of Benefits

On termination of service due to retirement, disability, death, termination or other reasons, a participant/beneficiary may elect to receive either a lump-sum amount equal to the value of his or her account, or monthly installments except for accounts with a value less than \$1,000, which is distributed as a lump-sum. Hardship withdrawals of vested account balances from the Plan are also available to qualified employees.

Participant Accounts

Each participant's account is credited with the participant's contributions, an allocation of Sponsor's discretionary contributions, and an allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions and Plan earnings into various pooled separate accounts. Participants may change their investment options at any time.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings of the Plan. Participants are vested in all discretionary Company contributions upon achieving three years of service.

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 1. Description of the Plan (Continued)

Forfeitures

Forfeited nonvested accounts are used first to cover costs of administration and second to reduce employer-matching contributions to the Plan. Any excess forfeitures are allocated to remaining participants' accounts. At December 31, 2013 and 2012, forfeited nonvested accounts amounted to \$45 and \$6,640, respectively. During 2013, \$9,554 in forfeitures was used to reduce employer costs.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable terms range from 1 to 5 years. The notes receivable must be adequately secured and bear interest at a rate commensurate with local prevailing rates. As of December 31, 2013, the interest rate range is from 3.25% to 8.0%. Principal and interest are paid ratably through monthly payroll deductions.

Note 2. Significant Accounting Policies

The accompanying statements reflect the application of certain accounting policies described in this note.

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 2. Significant Accounting Policies (Continued)

Guaranteed Interest Contracts

The Plan previously had deposit administration contracts with Principal Life Insurance Company. Due to the Plan transitioning from Principal Life Insurance Company to Massachusetts Mutual Life Insurance Company (Mass Mutual) during the year, the Plan did not maintain any deposit administration contracts as of December 31, 2013. Principal had maintained the Plan's deposits in unallocated funds, to which it added interest at the contract rates. Deposits into these contracts guaranteed the contract a minimum rate of return. The crediting interest rates ranged from .64% to 1.20% at December 31, 2012. The contracts are reported at contract value, which approximates fair value.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan.

Substantially all administrative expenses incurred in maintaining the Plan are paid by the Sponsor.

Recent Accounting Pronouncements

In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this Update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 3. Information Certified by Principal Life Insurance Company and Mass Mutual

All investment information including investments held and notes receivable from participants as of December 31, 2013 and 2012, interest and net appreciation in fair value of investments for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, was prepared by or derived from information provided by Mass Mutual, the current custodian, and Principal Life Insurance Company, the former trustee, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian/trustee that the information provided to the plan administrator by the custodian/trustee related to the assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information.

The fair values of individual participant-directed investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

	2013	2012

	<u>\$ 1,273,481</u>

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 4. Fair Value Measurements

FASB topic *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this FASB topic are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed Interest Contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 2). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

Pooled Separate Accounts: Valued at the unit value for each separate account investment based on the underlying assets, which include a mix of mutual funds, collective trusts and managed accounts. All underlying investment options are valued daily. This daily price is considered the selling price for transfers and withdrawals, and is calculated each day the principal market is open. The investment options are available for trading each day while the principal market is open.

For pooled separate accounts invested in real estate, the fair value of the underlying commercial real estate properties is determined by obtaining annual appraisals which are then updated daily based on changes in factors such as occupancy levels, lease rates, overall market conditions, and capital improvements. Determination of estimated fair value involves subjective judgment because the actual fair value of real estate investments have been prepared giving consideration to the income, cost, and sales comparison approaches of estimating property value. The income approach estimates an income stream for a property (typically 10 years) and discounts this income plus a reversion (presumed sale) into a present value at a risk adjusted rate. Yield rates and growth assumptions utilized in this approach are

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 4. Fair Value Measurements (Continued)

derived from market transactions as well as other financial and industry data. The cost approach estimates the replacement cost of the building less physical depreciation plus the land value. Generally, this approach provides a check on the value derived using the income approach. The sales comparison approach compares recent transactions to the appraised property. Adjustments are made for dissimilarities which typically provide a range of value. Generally, the income approach carries the most weight in the value of the reconciliation. Since appraisals take into consideration the estimated effect of physical depreciation, historical cost depreciation and amortization of real estate related assets has been excluded from net investment income. The values of real estate properties undergoing development have been prepared giving consideration to costs incurred to date and to key development risk factors including entitlement risk, construction risk, leasing/sales risk, and operation expense risk, credit risk, capital market risk, pricing risk, and valuation risk. The fair value of properties undergoing development includes the timely recognition of estimated entrepreneurial profit after such consideration.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy: the Plan's assets at fair value as of December 31:

Assets at fair value as of December 31, 2013

Note 4. Fair Value Measurements (Continued)

Level 3 Gains and Losses

The following tables set forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed contracts
Balance, beginning of year	\$ 1,133,543
Realized gains	9,575
Interest income	11,515
Sales	(1,154,633)
Balance, end of year	\$ -

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

During 2013, through the Plan transitioning from Principal Life Insurance Company to Mass Mutual, Plan assets invested in all mutual funds (Level 1) and guaranteed interest contracts (level 3) were transferred to pooled separate accounts (Level 2).

Fair Value of Investments That Use Net Asset Value

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31:

- (a) This category seeks to replicate the movements of an index of a specific financial market, such as S&P 500 index, regardless of market conditions. No redemptions in initial 3-year holding period
- (b) This category includes an investment in equities of companies in emerging market countries. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investment in this category has been estimated using the net asset value per share of the investments.
- (c) This category includes investments seeking current income. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.
- (d) This category includes investments seeking to provide outcomes based on quantitatively measured risk. The funds invest all of their assets in master portfolios which allocate and reallocate the assets among a combination of equity, bond and money market funds. The fund allocation is determined based on a targeted date of retirement.
- (e) This category includes investments seeking long-term growth of capital. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investment in this category has been estimated using the net asset value per share of the investments.
- (f) This category seeks long-term capital appreciation. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.
- (g) This investment seeks long-term growth of capital. The fund normally invests at least 80% of its assets in equity securities of companies with small market capitalizations and related investments. The portfolio managers use a growth-oriented investment style that emphasizes small U.S. companies.

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 4. Fair Value Measurements (Continued)

- (h) This investment seeks long-term capital appreciation. The fund normally invests in at least 80% of its net assets plus any borrowings for investment purposes in a diversified portfolio of equity investments in small-cap issuers with public market capitalizations within the range of the market capitalization of companies constituting the Russell 2000A Value Index at the time of investment.
- (i) This category seeks maximum return. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.
- (j) This category includes high quality, short-term securities. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investment(s) in this category has been estimated using the net asset value per share of the investment(s).
- (k) This category seeks to generate a total return. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies principally engaged in the real estate industry. It invests in equity securities of small, medium, and large market capitalization companies. The fund concentrates its investments (invest more than 25% of its net assets) in securities in the real estate industry. It is non-diversified.
- (l) This category invests mainly in fixed securities such as foreign corporate bonds, asset backed securities, commercial mortgage backed securities and government bonds. Its strategy seeks to invest primarily in investment grade debt. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investment(s) in this category has been estimated using the net asset value per share of the underlying investment(s).

Note 5. Income Tax Status

The Plan adopted a prototype plan document sponsored by Principal Life Insurance Company. The prototype plan document has received an advisory letter from the Internal Revenue Service as to the Plan's qualified status. The plan advisory letter has been relied on by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination, including the resolution of appeals or litigation processes, if any. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTES TO FINANCIAL STATEMENTS

UNION METAL CORPORATION TAX DEFERRED SAVINGS PLAN

Note 6. Transactions With Parties-in-Interest

The Plan invested in pooled separate accounts managed by an affiliate of Principal as of December 31, 2012 and currently invests in pooled separate accounts managed by an affiliate of Mass Mutual as of December 31, 2013. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Sponsor, by action of its Board of Trustees, has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their entire accounts.

Note 9. Plan Amendments

Effective August 19, 2013, the Plan was amended to allow participants of the Plan to take up to three loans per year as long as each existing loan has been paid in full prior to applying for a new loan.

Effective August 26, 2013, the Plan was amended to change the Early Retirement service requirements from age 55 and ten years of service to age 55 and three years of service.

Note 10. Subsequent Events

Effective February 27, 2014, the Plan was amended to allow participants to have a maximum of two outstanding loans at one time.

Effective August 20, 2014, the Plan was amended to allow participants take two age-59½ withdrawals in any twelve-month period.

The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.
