MATTAMY HOMES CORPORATION
401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE 1 DESCRIPTION OF PLAN

The following description of the Mattamy Homes Corporation 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Mattamy Homes Corporation (the Company) who have three months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator is responsible for oversight of the Plan. Plan management determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan administrator.

Contributions – Each year, participants may contribute from 1% to 100% of pre-tax or post-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. The Company may make annual discretionary matching and/or profit sharing contributions to the Plan. During 2013, the Company elected to match 50% on the first 3% of compensation that a participant contributed to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant becomes 33% vested after one year and increases ratably until fully vested after three years of credited service.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined as loans are requested, is set at the prime rate plus 1%. Principal and interest is paid ratably through payroll deductions.

NOTE 1 DESCRIPTION OF PLAN – Continued

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump sum distribution or installments over a fixed period of time equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts – At December 31, 2013 and 2012, forfeited nonvested accounts totaled approximately $20,810 and $23,160, respectively. These accounts may be used to reduce future employer contributions or to pay Plan expenses. During 2013, $5,234 of forfeited nonvested accounts were reinstated to certain participant accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates – The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors and Insurance Company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 10, 2014, the date which the financial statements were available to be issued.

NOTE 3 CERTIFIED INVESTMENTS

Other than the fair value of the guaranteed interest account and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by MassMutual. The contract value of the guaranteed interest account was certified by MassMutual.

NOTE 4 INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2013	2012
The Hartford Group Fixed Income Account *	$ 630,380	$ 591,889
American Funds The Growth Fund of America	558,060	400,027
Allianz NFJ Dividend Value	528,373	409,342
American Funds The Bond Fund of America	224,681	200,229
American Funds EuroPacific Growth	441,885	329,825
American Funds American Balanced	971,905	647,571
PIMCO Real Return	194,703	253,673

*These amounts represent contract value for this investment.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Guaranteed interest account	$ 17,632
Pooled separate accounts	618,534
	$ 636,166

NOTE 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 6.

Pooled separate accounts: Valued using the net asset value (NAV) of units, which are based on observable market prices for the underlying assets, held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

Fair Value of Investments in Entities that Use NAV:

The following table summaries investments measured at fair value based on NAV per share as of December 31, 2013 and 2012:

Investment Type	Fair Value 2013	Fair Value 2012	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 4,396,657	$ 3,211,152	-	Daily	Daily

The pooled separate accounts are made up of sub-accounts that hold different types of investments that have a variety of investment objectives. The Plan's objective is to provide Plan participants with sufficient variety of investment options to enable participants to achieve their individual goals for retirement. Participants can direct their money into the accounts of their choice.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in a benefit-responsive guaranteed investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY – Continued

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $667,279 and $642,599, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3.00%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	
Based on actual earnings	3%
Based on interest rate credited to participants	3%

NOTE 7 RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS

Plan investments are managed by MassMutual, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays primarily all other fees related to the Plan's operations.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their employer contributions.

NOTE 9 TAX STATUS

The Plan and related trust has been formed utilizing The Defined Contribution Volume Submitter Profit Sharing Plan with CODA sponsored by Bates & Company PA. The prototype plan sponsor, Bates & Company PA, obtained a favorable determination letter dated March 31, 2008; however, such letter is only applicable to Bates & Company PA. The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:
