TERRAZZO & MARBLE SUPPLY COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following brief description of the Terrazzo & Marble Supply Company 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General - The Plan is a contributory, defined contribution plan available to all qualifying employees of Terrazzo & Marble Supply Company, Michigan Terrazzo & Marble Supply Company, Marble & Terrazzo Supply Company of Minnesota, and TMS Manufacturing (the Companies). All employees of the Companies are eligible to participate in the Plan upon attaining age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions and Participation - Each year employees may contribute to the Plan, including Roth 401(k) contributions, up to the maximum amount allowed under the Internal Revenue Code (IRC). Participants age 50 or older may contribute an additional amount as a "catch-up contribution" as allowable under the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Companies can make discretionary employer-matching contributions and profit sharing contributions.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Companies' contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Vesting - Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the remainder of their account is based upon years of service. A participant is 100% vested in the discretionary employer-matching portion of their account after two years of service. A participant is 20% vested in the profit sharing portion of their account after completion of two years of service, increasing 20% each year until becoming fully vested after completion of six years of service.

Payment of Benefits - In the event of retirement, termination of service, death, or disability, participants or their beneficiaries may elect to receive a single, lump-sum payment equal to the vested value of their account or a direct rollover distribution. Participants may obtain withdrawals of any portion of their participant contributions after attaining the age of 59½.

Notes Receivable from Participants - Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 4.25% at December 31, 2013, which is commensurate with local prevailing rates for this type of loan as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Forfeited Accounts - All forfeitures will be applied to reduce employer contributions to the Plan or to pay ordinary and necessary administrative expenses. Any remaining forfeitures are to be allocated to participants in the manner described in the plan document. A forfeiture balance of $22 and $25,434 at December 31, 2013 and 2012, respectively, was available to offset future administrative expenses or employer contributions. Forfeitures of $25,434 were utilized during the year ended December 31, 2013 to reduce employer contributions to the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value as further described in Note 4. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded when paid.

Administrative Expenses – Certain expenses of the Plan are paid by the Companies. Administrative expenses are generally paid by the Plan and are expensed as incurred. Certain investment management fees are included in the appreciation in the fair value of investments.

Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

3. Investments

The following table presents the investments, at fair value, which represent 5% or more of the Plan's net assets:

	December 31,	
	2013	2012
First Mercantile Large Cap Intrinsic Value	$ 365,067	$ *
First Mercantile Vanguard Inflation Protected	*	425,681
First Mercantile Wells Fargo Stable Value	357,461	249,882
First Mercantile LifeStyle Moderately Conservative Growth	878,183	680,348

First Mercantile LifeStyle Aggressive Growth	1,074,378	777,385

* Investment does not represent 5% or more of the Plan's net assets.

4. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The fair value of participation units held by the Plan in common/collective trusts is based on their net asset values, as reported by First Mercantile Trust Company and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair values of common/collective trusts that invest only in securities traded on nationally recognized securities exchanges and active dealer markets are classified within Level 2 of the fair value hierarchy.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (Cont.)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments in all common/collective trusts held by the Plan may be redeemed daily, without prior notice, at the current net asset value per share based on the fair value of the underlying assets.

(a) These common/collective trusts invest in common stocks of large capitalization companies. The investments seek long-term growth primarily and, secondarily, current income.

(b) These common/collective trusts invest in common stocks of medium capitalization companies.

(c) These common/collective trusts invest in common stocks of small capitalization companies. The investments seek long-term capital appreciation.

(d) This common/collective trust invests primarily in foreign equity securities. The investment seeks capital appreciation.

(e) These common/collective trusts invest in fixed income funds. The investments seek long-term capital growth consistent with preservation of capital and balanced by current income.

5. Information Certified by the Plan's Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, First Mercantile Trust Company, the custodian, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments, at fair value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2013.
- Net appreciation in fair value of common/collective trusts and interest from participant notes receivable, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Investments, at fair value, and participant loans included in the supplemental schedule of assets (held at end of year) at December 31, 2013.

6. Risks and Uncertainties

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Transactions with Parties-In-Interest

The Plan's investments in common/collective trusts are managed by its custodian, First Mercantile Trust Company and, therefore, these transactions qualify as party-in-interest transactions. Fees of $875 paid by the Plan during 2013 are for professional services primarily rendered by parties-in-interest.

8. Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Companies may determine.

9. Tax Status

The Companies have adopted a volume submitter type plan, which received a favorable opinion letter dated March 31, 2008. The Plan has been amended since receiving the opinion letter. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes is included in the Plan's financial statements.

9. Tax Status (Cont.)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

10. Subsequent Events

Management has evaluated subsequent events through October 10, 2014, the date which the financial statements were available to be issued.
