PRECISION METALSMITHS, INC. SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note 1 - Description of plan

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering all full-time employees of Precision Metalsmiths, Inc. (the Company) who have completed 90 days of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended in October 2013 to require 90 days of service to become eligible for participation. Prior to October 2013, deferrals were allowed for employees immediately upon their date of hire.

B. Contributions

The Plan allows for voluntary salary reduction agreements pursuant to Internal Revenue Code 401(k). Participants may contribute up to 100% of their annual compensation to the Plan. In addition, the Company may elect to make a discretionary matching or profit sharing contribution. All Company contributions are at the sole discretion of the Company's Board of Directors. Contributions are subject to certain limitations. Participant contributions are remitted on a bi-weekly basis, while the Company's contributions, if any, are remitted annually. There were no discretionary match or profit sharing contributions during 2013 and 2012.

C. Investment provisions

In accordance with Plan provisions, participants may direct their contributions and corresponding employer contributions into one or more of the available funds. The Plan currently offers seventeen investment fund options for plan participants. Participants may change their investment options daily.

Note 1 - Description of plan, continued

D. Participants' accounts

Each participant's account is credited with the participant's contributions and an allocation of:

1. the Company's discretionary contribution,

2. the Plan earnings (losses), and

3. charged with an allocation of administrative expenses.

Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

E. Vesting

Participants are immediately 100% vested in their voluntary contributions, rollover contributions, and the Company's matching or profit sharing contributions plus actual earnings thereon.

F. Payment of benefits

Benefits are recorded when paid.

Benefits provided by the Plan are paid from the net assets available for plan benefits. The benefit to which a Plan participant is entitled is the benefit that can be provided by the contributions and income thereon (including net realized and unrealized investment gains and losses) allocated to such participant's account. Upon disability, death, termination or retirement, the participant or beneficiary will receive a lump sum equal to the vested value of the funds allocated to his account.

Withdrawal of part or all of the participant's funds may be authorized by the Plan administrator prior to any of the above in the event of attaining age 59 ½ or financial hardship of a participant.

G. Notes receivable from participants

The Plan allows participants to borrow against their vested account balance in the Plan, at the discretion of the Plan Administrator. Participants may borrow up to the lesser of $50,000, reduced by the highest outstanding balance of Plan loans during the prior one-year period or one-half of their vested account balance. No more than one loan per participant may be outstanding at any one time. No loan of less than $500 will be made.

Note 1 - Description of plan, continued

G. Notes receivable from participants, continued

Loans bear a fixed rate of interest with repayments of no longer than five years, unless the loan is used to acquire a principal residence. At December 31, 2013, interest rates range from 4.25% to 8.25%. Principal and interest are paid ratably through payroll deductions.

H. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of the Plan's termination, all unallocated amounts shall be allocated to the accounts of all participants. Upon termination of the Plan, the trustee, at the direction of the Plan administrator, shall direct the distribution of the assets to the participants in a manner consistent with the Plan agreement.

I. Administrative expenses

Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses of the Plan are paid by the Company.

Note 2 - Summary of significant accounting policies

A. Basis of accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust fund.

Note 2 - Summary of significant accounting policies, continued

A. Basis of accounting, continued

As required, the Statement of Net Assets Available for Benefits presents the fair value of the investment in the common collective trust fund as well as the adjustment of the investment in the common collective trust fund from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

B. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

C. Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend dates. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

D. Notes receivable

Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefits paid to participants based on the terms of the Plan document.

E. Subsequent events

Subsequent events were evaluated through October 3, 2014, which is the date the financial statements were available to be issued.

The Company was purchased in May 2014. Management intends to merge the Plan into the existing plan of the new owner on a future date unknown at the time these financial statements were issued. This event has no effect on the financial statements as of December 31, 2013.

Note 3 – Plan financial information certified by custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian, except for comparing such information, as summarized below, to the information included in the financial statements and supplemental schedule. The information certified by Reliance Trust Company, the custodian as of December 31, 2013 and 2012 and for the years then ended, as complete and accurate, is as follows:

1. Participant-directed investments as reported in the statements of net assets available for benefits and Note 4 as of December 31, 2013 and 2012.

2. Investment income as reported in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.

3. Schedule H, Line 4i – Schedule of Assets (held at end of year) as of December 31, 2013, except for notes receivable from participants.

Net appreciation in fair value of investments	$ 366,185	$ 212,507

Note 5 – Tax status

The Plan has received determination from the Internal Revenue Service dated September 9, 2004, that it meets the requirements of Section 401(a) of the Internal Revenue Code (IRC) and that the Trust which forms a part of it is exempt under Section 501(a). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in these financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 6 – Related party transactions

The Plan's investments are maintained in a common collective trust and mutual funds managed by third parties. Reliance Trust Company and Metropolitan Life Insurance Company provide custodial services to the Plan. Daily Access Corporation provides recordkeeping services to the Plan. These parties are fiduciaries; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative services to Reliance Trust Company amounted to $25,355 and $23,232 for the years ended December 31, 2013 and 2012, respectively. Fees paid by the Plan for administrative services to Daily Access amounted to $4,614 and $6,128 for the years ended December 31, 2013 and 2012, respectively.

Note 7 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Note 9 – ERISA bond requirement

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2013 and 2012, the Plan's sponsor maintained bond coverage in the amount of $500,000.

Note 10 – Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value of shares on the last day of the Plan year.

Common collective trust: Valued at the net asset value (NAV) of units held by the Plan at year end, provided by the administrator of the fund. The NAV is based on the value of the underlying assets of the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Note 10 – Fair value measurements, continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:
