Independent Auditor's Report

To the Plan Administrator of the
Victor Technologies Retirement Plan
St. Louis, Missouri

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Victor Technologies Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by State Street Bank and Trust Company and Aetna Life Insurance Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustees hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from the trustees as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are present in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2013

(See Independent Auditor's Report)

Note A - Description of Plan

The following description of the Victor Technologies Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering employees of Victor Technologies Group, Inc. (the "Company" or "Plan Administrator") and certain participating affiliated companies. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. As of March 21, 2012, the Company changed its name to Victor Technologies Group, Inc. and its wholly owned subsidiary Thermadyne Industries, Inc. to Victor Technologies International, Inc. Effective May 21, 2012, the Plan was amended to effectively change the name of the Plan from Thermadyne Group, Inc. Retirement Plan to Victor Technologies Retirement Plan.

Plan Frozen

Effective January 1, 1990, participation in the Plan was frozen and all benefit accruals ceased as of December 31, 1989, except for former members of the Stoodly Hourly Plan. At that time, all covered employees became eligible in the Victor Technologies 401(k) Retirement Plan, a defined contribution employee benefit plan maintained by the Company. On December 31, 1994, participation and benefits for the former members of the Stoodly Hourly Plan and the Pension Plan of Stoodly Deloro Stelitte, Inc. were also frozen.

Funding Policy

The Plan remains subject to the full funding limitation of Section 412(b) of the Internal Revenue Code. This requires that contributions should be made to the Plan such that no deficiency on an accrual basis exists in the funding standard accounts at the end of the Plan year.

The actuarial cost method used to determine annual contributions for pension benefits payable under the Plan is referred to as the Unit Credit Cost Method. The normal cost is equal to the liability at the beginning of the Plan year, adjusted for interest to the end of the year. Actuarial gains and losses are reflected in the unfunded actuarial accrued liability.

Note A - Description of Plan (Continued)

Pension Benefits

Participants are eligible for normal retirement benefits at the later of age 65 or 5 years of vesting service, as defined. The normal retirement benefit in any year is equal to the sum of 1 ½% of current service earnings for such year not to exceed \$500, and 2% of current service earnings in excess of \$500 for such year. The normal retirement benefit is the sum of benefits earned each year. Benefit accruals ceased as of December 31, 1989, except for former members of the Stoodly Hourly Plan whose benefit accruals ceased December 31, 1994. Benefits are pro-rated for fractional years of service.

Participants who are at least 55 years of age and have performed a minimum of 10 years of vesting service, as defined, can receive early retirement benefits. Benefits paid before the normal retirement date are reduced by rates defined in the plan document that are a function of the length of time the participant's retirement date precedes the normal retirement date.

Death and Disability Benefits

A participant is eligible for certain disability benefits upon total disability as defined in the Company's long-term disability plan. The disability benefit is determined in the same manner as the deferred vested benefit and is calculated on the participant's date of disability.

The surviving spouse of a participant in active service who qualified for a vested benefit receives a benefit based on the 100% joint and survivor annuity at the time of payment. Reduced payments may begin prior to age 65. The reduction is the same as for early retirement for the first 10 years which the starting date of payments precedes the participant's normal retirement date.

Former Participants of The Stoodly Hourly Plan and The Pension Plan of Stoodly Deloro Stelitte, Inc.

The pension benefits, death, and disability benefits described above may be determined differently for the former participants of the Pension Plan of Stoodly Deloro Stelitte, Inc. and the Stoodly Hourly Plan. Participants should refer to the Plan Agreement for a more complete description of pension benefits.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's committee determines the valuation policies utilizing information provided by the investment advisers, trustees, and insurance company. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

Plan expenses are paid by the Plan unless the Company, in its sole discretion, elects at any time to pay part or all of such expenses.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable, under the Plan's provisions to the services rendered by the employees through the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on each employee's compensation during their years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee services rendered to the valuation date.

VICTOR TECHNOLOGIES RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2013

(See Independent Auditor's Report)

Note B - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated Plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (be means of decrements such as death, disability, withdrawal, or retirements) between the valuation date and the expected date of payment. The actuarial present value of accumulated Plan benefits has been calculated by the consulting actuaries, Transamerica, as of January 1, 2014. Significant assumptions underlying the actuarial computation included (a) interest at 7.25% per annum, compounded annually; (b) life expectancy of participants based on the RP-2000 Mortality Table for males and females; and (c) normal retirement age of 65. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Payments of Benefits

Benefit payments are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2014, the date the financial statements were available to be issued.

Note C - Investments

The Plan has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"). Accordingly, as permitted under such election, the Plan has obtained certifications from State Street Bank and Trust Company ("State Street") and Aetna Life Insurance Company ("Aetna") the trustees on behalf of the Plan that all of the information provided by the trustees and included in the accompanying financial statements and supplemental schedule is complete and accurate. All of the investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the Plan and certified as complete and accurate by the trustees.

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,499,999 and \$1,805,863, respectively, as follows:

	<u>2013</u>	<u>2012</u>
Insurance contract	\$ 47,138	\$ 49,839
Mutual funds	<u>2,452,861</u>	<u>1,756,024</u>
	<u>\$ 2,499,999</u>	<u>\$ 1,805,863</u>

Note D - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

VICTOR TECHNOLOGIES RETIREMENT PLAN

Notes to Financial Statements - Continued

December 31, 2013

(See Independent Auditor's Report)

Note D - Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include other observable inputs, including quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Aetna investment contract: Guaranteed investment contracts are valued at estimated fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note F). In determining the reasonableness of the methodology, Aetna on a quarterly basis evaluates valuations of Level 3 investments through the performance of back testing on the sales of these investments by comparing the amounts realized against the most recent fair values reported, and if necessary, uses the findings to adjust its valuation procedures. The Investment Committee has not developed independent unobservable inputs related to the guaranteed investment contract for the Plan year ended December 31, 2013 and 2012.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no changes in the fair value measurement methodology.

Note F - Contract with Insurance Company

The Company entered into an investment contract with Aetna under which the Plan deposited \$400,000. Aetna maintains the contributions primarily in an unallocated fund to which it adds interest based on current interest rates. In 2013 and 2012, the average annual effective interest rate used for reporting was 5.09% and 5.39%, respectively. At the direction of the Plan's Administrator, a single premium to buy an annuity for a retiring employee is withdrawn by Aetna from the unallocated fund. Purchased annuities are contracts under which Aetna is obligated to pay benefits to named employees or their beneficiaries. The premium rates for such annuities to be purchased in the future and maximum administrative expense charges against the funds are guaranteed by Aetna.

Note G - Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated January 30, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subjected to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan believes it is no longer subject to income tax examinations for years prior to 2010.

Note H - Plan Termination

While the Company has not expressed any intent to terminate the Plan or discontinue contributions, it is free to do so at any time, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, each participant who is an employee on the date of termination shall have a 100% vested and nonforfeitable right to benefits accrued. All assets of the Plan shall be allocated by the Company among participants, surviving spouses and joint annuitants in the manner prescribed by Section 4011(a) of ERISA. Any residual assets of the Plan remaining after such allocation may be distributed to the Company if all liabilities of the Plan to participants, surviving spouses and joint annuitants have been satisfied and such a distribution does not contravene any provision of law. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Plan terminates. Generally, the PBGC guarantees certain vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under covered plans.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of the benefits guaranteed by the PBGC.

Note I - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets in liquidation available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year. However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Normal Retirement Benefit

<i>Eligibility</i>	Age 65.
<i>Amount</i>	Benefit accruals ceased as of December 31, 1989. The monthly benefit accrued in any year is equal to the sum of (a) and (b) as follows: (a) 1.5% of Current Service Earnings for such year not in excess of \$500, and (b) 2.0% of Current Service Earnings for such year in excess of \$500. The benefit is prorated for fractional years of credited service. The normal retirement benefit is the sum of benefits accrued each year.

Early Retirement Benefit

<i>Eligibility</i>	Age 55 and 10 years of service.
<i>Amount</i>	Reduced by 6% for each of the first 3 years, 5% for each of the next 2 years, 4% for each of the next 3 years, and 3% for the next 2 years by which the starting date of payments precedes the normal retirement date.

Deferred Vested Benefit

<i>Eligibility</i>	5 years of service.
<i>Amount</i>	The deferred vested benefit is determined in the same manner as the early retirement benefit calculated on a participant's date of termination.

Disability Benefit

<i>Eligibility</i>	Total disability as defined in the Company's long term disability plan.
<i>Amount</i>	The disability benefit is determined in the same manner as the deferred vested benefit calculated on the participant's date of disability.

After February 14, 1985, an employee became a participant on the first day of the month following twelve consecutive months of service as a full-time employee. An employee who was not a full-time employee became a participant at the end of one year of service in which credit for 1,000 hours of service was granted.

Service

Vesting Service

One year of service is credited for each calendar year in which an employee receives credit for at least 1,000 hours of service based on a 190 hours per month equivalency. Service for this purpose is measured for date of hire.

Credited Service

Credited service accruals ceased on December 31, 1989.

Credited service is used to determine the amount of benefit payable from the Plan. One year of benefit service was granted for each calendar year in which an employee received credit for 2,280 hours of service based on a 190 hours per month equivalency, provided however, that no credited service was granted prior to April 1, 1986 and for employment with a predecessor company unless otherwise specified in the Plan.

Current Service Earnings

Current Service Earnings are not credited after December 31, 1989. In general, current service earnings are the January 1 monthly base rate of pay.

Normal Retirement Benefit

Eligibility

Age 65.

Amount

Benefit accruals ceased as of December 31, 1989.

The monthly benefit accrued in any year is equal to the sum of (a) and (b) as follows:

- (a) 1.5% of Current Service Earnings for such year not in excess of \$500, and
- (b) 2.0% of Current Service Earnings for such year in excess of \$500.

The benefit is prorated for fractional years of credited service.

The normal retirement benefit is the sum of benefits accrued each year.
