Hohman Plating & Manufacturing 401(k) Retirement Savings Plan
Notes to the Financial Statements
December 31, 2013 and 2012

NOTE A – DESCRIPTION OF PLAN

The following brief description of the Hohman Plating and Manufacturing 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General Information

The Plan is a defined contribution prototype plan and trust administered by Pension Corporation of America of Cincinnati covering all eligible employees of Hohman Plating and Manufacturing, LLC (the "Company"). Employees who are not covered by a collective bargaining agreement and are age 21 or older are eligible to participate in the Plan. Eligible participants may enter the Plan on January 1, April 1, July 1, or October 1, upon satisfying the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is qualified under the Internal Revenue Code ("Code").

Contributions

Each year, participants may elect to defer pre-tax or "Roth" after-tax contributions up to the maximum allowed by law. Roth 401(k) contributions are included as taxable income to the employee. Earnings on the Roth 401(k) contribution will accumulate tax free, and retirement withdrawals may be exempt from federal income tax. Employees with existing qualified retirement plans (pre-tax) or Roth 401(k) accounts with a prior employer may transfer or roll over those accounts into the Plan upon becoming a participant in the Plan. Participants that are age 50 or older and make the maximum allowable deferral to the Plan are entitled to contribute an additional "catch-up contribution". Participants may direct investment of their account balances into various investment options offered by the Plan.

The Plan also provides for the Company to make discretionary contributions. The Company will make matching contributions equal to 30% of participant elective deferrals, up to 4% of compensation for all participants that have completed one year of service as defined by the Plan. The matching contribution is made to participants' accounts for both pre-tax contributions and Roth 401(k) contributions. The Company makes a safe harbor contribution equal to 4% for all participants that have completed one year of service as defined by the Plan. The Company may also make a discretionary profit sharing contribution that is allocated to all eligible participants. There were no discretionary profit sharing contributions made in 2013. The Company contributions for the year ended December 31, 2013 totaled \$285,006.

Notes to the Financial Statements
December 31, 2013 and 2012

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferral contributions, rollovers and discretionary contributions plus any earnings they generate. Employer matching contributions to the Plan plus any earnings they generate vest at 20% each year and are fully vested after five years of service. Employer safe harbor contributions to the Plan plus any earnings they generate are immediately vested.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or longer for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account provided the outstanding balance does not exceed 50% of the vested interest in the Plan. The plan loan is charged a commercially reasonable rate of interest based on interest rates charged for similar types of loans by other lenders. The interest rate is fixed for the duration of the loan and is currently at 4.25%. Only one loan can be outstanding at a time and the principal and interest is paid ratably through regular payroll deductions.

Distributions

Participants become eligible for benefit payments upon retirement, termination of employment, disability or death. Additionally, the Plan provides for in-service distributions after you have reached age 59 ½ and after your account is fully vested. Participants may also receive distributions from the employee deferral or rollover balance for qualified financial hardships. Distributions may be made as a single lump-sum payment, partial withdrawals of at least \$1,000, or installments over a period of not more than your assumed life expectancy (or the assumed life expectancies of you and your beneficiary). Vested account balances that do not exceed \$5,000 may only be distributed in a single lump-sum payment.

NOTE A – DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Forfeitures resulting from the non-vested portion of participants' accounts who terminate prior to being fully vested are generally used first to pay any administrative expenses of the Plan. Any remaining forfeitures will be used to reduce employer contributions. At December 31, 2013 and 2012, forfeitures totaled \$2,599 and \$562, respectively. For the plan year ended December 31, 2013, \$0 was used to reduce employer contributions and administrative expenses.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become 100% vested in the employer portion of contributions.

Expenses of the Plan

Most expenses for the administration of the Plan are paid by the Company. Administrative expenses paid by the Plan totaled \$6,970 for the year ended December 31, 2013. Certain loan processing and distribution fees are charged directly against participant accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Common/Collective Trust

Investment contracts held by a defined contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in common collective trust (CCT) investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the CCT as well as the adjustment of the investment in the CCT from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when approved.

NOTE C – INVESTMENTS (INFORMATION CERTIFIED BY THE PLAN TRUSTEE)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, net appreciation in fair value of investments, dividends and interest for the year ended December 31, 2013, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by MG Trust Company, LLC.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE D – FAIR VALUE MEASUREMENTS

Accounting Standards Codification Topic 820, *Fair Value Measurements* (ASC Topic 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Hohman Plating & Manufacturing 401(k) Retirement Savings Plan
Notes to the Financial Statements
December 31, 2013 and 2012

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common/Collective Trust: The fair value of the investments in the common/collective trust is determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end.

Mutual funds: Mutual funds are stated at fair value as defined by observable quoted prices in active markets (Level 1) or by quoted prices for similar assets in active markets (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan administrator believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

NOTE E – TAX STATUS

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended subsequent to the issuance of the opinion letter. The plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) of the Plan if the Plan has taken an uncertain tax position that are more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H – BENEFITS ALLOCABLE TO WITHDRAWN PARTICIPANTS

At December 31, 2013 and 2012, \$284 and \$12,036, respectively, were due to the participants who have withdrawn from the Plan and requested benefit payments prior to year-end.

NOTE I – PARTIES-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those fiduciaries or employees of the Plan, any person who provides services to the Plan and employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan also issues loans to participants, which are secured by the balances in the participants' accounts.

Certain administrative expenses are provided by the Company at no cost to the Plan and certain administrative expenses of the Plan are paid by the Company.

NOTE J – SUBSEQUENT EVENTS

In connection with the preparation of the Plan's financial statements as of December 31, 2013 and 2012 and for the year ended December 31, 2013, events and transactions subsequent to December 31, 2013 through October 14, 2014, which is the date on which the financial statements were available to be issued, have been evaluated by the plan administrator for possible adjustment and/or disclosure. No subsequent events requiring financial statement adjustment and/or disclosure have been identified.
