1. DESCRIPTION OF PLAN

The following description of the Diversified Services Network, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 2011, and most recently amended on February 8, 2011, is a defined contribution plan covering all employees of Diversified Services Network, Inc. (the "Company"), provided the employee is not represented under a collective bargaining agreement and is not a nonresident alien. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees become eligible to participate in making salary deferrals to the Plan on their date of hire; there are no age or service eligibility requirements.

Employees are eligible to participate in employer matching and profit-sharing contributions if they are actively employed on the last day of the Plan year and have completed 1,000 hours of service.

Contributions

Employee

Each year, participants may contribute a portion of pretax annual compensation, as defined in the Plan, up to the maximum allowed by the Internal Revenue Code (IRC 402(g)(1)), adjusted annually for the cost of living. The maximum salary deferral was $17,500 for the year ended December 31, 2013, plus a catch-up contribution of $5,500 for participants over the age of 50. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 60 investment options for participants (of which 52 of these options were elected), all of which are mutual funds.

Employer

The Plan provides for discretionary Company matching contributions based on salary deferrals contributed to the Plan by the employee. The match, if elected by the Company, is either a flat dollar amount or a tiered formula. The Company did not make matching contributions to the Plan in 2013.

The Plan also provides for discretionary Company profit-sharing contributions, to be allocated to participants as either a percentage of compensation or a dollar amount per participant. The Company did not make a profit-sharing contribution to the Plan in 2013.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, if any; (b) an allocation of the Company's discretionary profit-sharing contribution, if any; and (c) Plan earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested 100% in their contributions plus actual earnings thereon. Participants vest in the Company's discretionary matching and profit-sharing contributions at a rate of 20% per year beginning after two years of continuous service, with a participant being 100% vested after six years. Participants will immediately vest at 100% upon death, total and permanent disability, or normal retirement.

Forfeitures

Forfeitures may first be used to pay administrative expenses of the Plan, and any remaining amounts will be used to reduce employer contributions. At December 2013 and 2012, there were no forfeited nonvested accounts.

Notes receivable from participants

Plan participants are allowed to borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, less their highest outstanding loan balance during the previous 12 months, or one-half of their vested account balance in the Plan. Loans are repaid, with interest, through equal payroll deductions over a term of one to five years, unless the loan is used to acquire a principal residence, at which time the loan can be repaid over a reasonable period of time not to exceed 15 years. The loans are secured by the vested balance in the participant's account. The interest rate is determined by the Plan administrator based on the rate offered by a qualifying financial institution for a similar type of loan. The interest rate on all outstanding loans was 3.25% at December 31, 2013.

Payment of benefits

Upon termination of service due to death, disability, retirement or other reasons, participants will receive an amount equal to the value of the vested interest in their account as lump-sum payment. In addition, participants may receive in-service distributions, as defined, and hardship withdrawals while still employed by the Company if they meet the Internal Revenue Service ("IRS") qualifications for such withdrawals. At December 31, 2013, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan representatives determine the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 3 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowances for credit losses have been recorded as of December 31, 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

Professional fees and certain administrative expenses incurred by the Plan are paid directly by the Company. Processing fees attributable to a participant are paid by the participant. Investment-related expenses are included in net appreciation in fair value of investments.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator and management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Recent accounting pronouncements

In July 2013, the FASB issued Accounting Standards Update (ASU) 2013-09, *Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans* in Update No. 2011-04. ASU 2013-09 amended ASU 2011-04 *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04)* requiring additional fair value disclosures for certain employee benefit plan investments. This amendment was effective upon issuance, and did not have an impact on the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels described as follows.

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access and have the highest priority.

Level 2 – Inputs consist of a) quoted prices for similar assets in active markets, b) quoted prices for identical or similar assets in inactive markets, c) inputs other than quoted prices that are observable for the asset and d) inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 – Inputs are unobservable and significant to the fair value measurement and have the lowest priority.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for asset measurement at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds – Level 2: Fair value is based on the net asset value (NAV) of shares held by the Plan at year-end.

Target date funds include investments that seek to provide growth of capital and current income by a set maturity date. Blended funds include investments that seek long-term growth of capital. Allocation funds include investments that seek capital appreciation and current income. Foreign funds include investments that seek long-term capital growth through investment in a large percentage of assets by foreign issuers. Bond and income funds, and money market funds, include investments that seek current income and capital preservation. Value funds include investments that seek maximum total return. Growth funds include investments that seek to maximize long-term growth.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan representatives believe the valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level the Plan's assets at fair value as of December 31, 2013 and 2012:

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), all of which are mutual funds, appreciated in value by $37,580.

5. INFORMATION CERTIFIED BY CUSTODIAN

Nationwide Trust Company, FSB, whose parent company is Nationwide Financial Services, Inc., and is a division of Nationwide Bank, the custodian of the Plan, has certified that the following data included in the financial statements and supplementary schedule is complete and accurate:

- investments (excluding participant loans), as shown in the statement of net assets available for benefits as of December 31, 2013; and

- investment activity (excluding participant loan interest of $191), as shown in the statement of changes in net assets available for plan benefits for the year ended December 31, 2013.

6. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are held by Nationwide Trust Company, FSB, which is the custodian as defined by the Plan and, therefore, qualifies as a party-in-interest as defined by ERISA.

Additionally, notes receivable from participant of $4,048 and $6,300 at December 31, 2013 and 2012, respectively, qualify as party-in-interest transactions.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer profit-sharing contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. TAX STATUS

The Plan, as adopted by the Company, effective January 1, 2011, is a Prototype Non-Standardized Profit-Sharing Plan (“Prototype Plan”) sponsored by DATAIR Mass-Submitter. The Prototype Plan obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has not requested its own IRS determination letter. The Prototype Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is not subject to income tax examinations for years prior to the Plan’s origination in 2011.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 9, 2014, which is the date the financial statements were available to be issued. No events have occurred from the date of the financial statements to October 9, 2014 that would require adjustment to or disclosure in the accompanying financial statements.
