FIRST PLACE BANK
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the First Place Bank Employee Stock Ownership Plan (the “Plan”) is provided for general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General: The Plan is a stock bonus plan created under Section 401(a) of the Internal Revenue Code (“IRC”) and is designed to be an employee stock ownership plan under Section 4975(e)(7) of the IRC. The Plan covers substantially all of the employees of First Place Financial Corp. and First Place Bank (collectively the “Company”). The Plan’s design and operation are governed by the IRC and the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan purchased First Place Financial Corp. common stock using the proceeds from a stock acquisition loan from First Place Financial Corp., and held the stock in a trust established under the Plan. First Place Financial Corp. was the holding company of First Place Bank. This loan was repaid in 2010 and the unallocated shares were allocated to eligible employees’ accounts in accordance with the terms of the Plan and the applicable regulations under the IRC (see Note 5 for additional details on the repayment of the stock acquisition loan).

Eligibility: An employee became a participant in the Plan January 1, April 1, July 1, or October 1 following the employee’s attainment of age twenty-one and completion of a year of service in which the employee is credited with at least one thousand hours of service. No new participants will be added to the Plan as all shares of First Place Financial Corp. common stock were sold in 2012 (see Note 3 for additional details on the sale of the Plan’s investment in common stock).

Contributions: The Company is obligated to make nondiscretionary contributions to the Plan which, when aggregated with any dividends, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. This loan was repaid in 2010 (see Note 5 for additional details on the repayment of the stock acquisition loan).

The Company also has the option to contribute to the Plan a discretionary percentage of the amount that individual participants contribute to the First Place Bank 401(k) Savings Plan. The discretionary matching contribution, if made, is invested directly in First Place Financial Corp. common stock. There were no discretionary matching contributions for 2012 or 2013.

Participant Accounts: At the end of each Plan year, each participant’s account is credited with a share of the Company’s nondiscretionary contribution if the participant was employed by the Company on the last day of the Plan year. The nondiscretionary contribution is allocated to participants based on the ratio of an individual participant’s eligible compensation to the total eligible compensation of all eligible participants. Forfeitures of nonvested accounts of terminated participants are allocated first to restore any forfeited amounts that are required to be restored under the terms of the Plan document. Any remaining forfeitures are then allocated to participants as an additional Company contribution. Income attributable to allocated shares is credited to each participant’s account based on account balances. In addition, the Plan allows participants the ability to choose between having the dividends paid on Company’s common stock held in their Plan account, paid to them in cash or having the dividends re-invested in the Company’s common stock. Income attributable to unallocated shares may be used to pay current obligations with respect to the stock acquisition loan. Stock contributions are allocated to participants based on the ratio of an individual participant’s eligible compensation to total eligible compensation of all eligible participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. There were no allocations of nondiscretionary contributions as no nondiscretionary contributions were made in 2013.

DECEMBER 31, 2013 AND 2012

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Retirement Benefits: Under the Plan, employees are entitled to a distribution of the total of their accumulated interest in Plan assets at normal retirement age (65). Benefits are normally distributed in whole shares of common stock of the Company, cash, or a combination of both. All shares held by the ESOP plan were sold on November 5, 2012. Therefore, all future benefits will be paid in cash.

Death and Disability Benefits: Active participants who die or become totally disabled are treated as having retired under the Plan and they (or their beneficiaries) are entitled to the distribution of their total vested account balance.

Vesting: A participant will become fully vested in their account based on six years of continuous service as follows:

Less than 2 years			0%
2 years			20%
3 years			40%
4 years			60%
5 years			80%
6 years			100%

Investment of Plan Assets: Plan assets have been invested primarily in common stock issued by First Place Financial Corp., although other investments may be made as determined to be prudent by the trustee.

Voting Rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee shall vote unallocated shares and allocated shares for which it has not received direction in the same proportion as directed shares are voted and the trustee shall have no discretion in such matter.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Subsequent Events: The Plan has evaluated events and transactions through October 14, 2014, the date the financial statements were available to be issued, and determined that no subsequent events have occurred requiring adjustments or disclosures to the financial statements, except as disclosed above and in Note 3.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that a significant change may occur in the near term in the fair value of the Plan's investment in employer securities.

DECEMBER 31, 2013 AND 2012

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan invests in the Federated Prime Value Obligations Fund – Institutional Service Shares which is a money market mutual fund. These investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is at least reasonably possible that changes in the fair value of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Investment Valuation and Income Recognition: Investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date.

Financial Accounting Standards Board guidance defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. This guidance also establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Money Market Mutual Fund: The fair value of the money market mutual fund investment is determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

December 31, 2012			
Federated Prime Value Obligations			
Fund - Institutional Service Shares	\$ 296,660	\$ -	\$ -

Payment of Benefits: Benefit payments are recorded when paid.

Concentration of Credit Risk: It is the general intent of the Plan to invest all or substantially all of the funds of the Plan in the common stock of First Place Financial Corp. Additionally, temporary investments are made in a money market mutual fund. At December 31, 2013 and 2012, all of the Plan's assets were invested in the Federated Prime Value Obligations Fund.

NOTE 3 – PLAN TERMINATION

As disclosed by First Place Financial Corp. in Current Reports on Form 8-K filed with the Securities and Exchange Commission ("SEC") on October 29, 2012, First Place Financial Corp. announced that it had entered into an Asset Purchase Agreement (the "Purchase Agreement") with Talmer Bancorp, Inc. ("Talmer"), a Michigan corporation. The Purchase Agreement contemplated that First Place Financial Corp. would file a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code (the "Bankruptcy Code") in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court"). On December 14, 2012, the Bankruptcy Court entered an order approving and authorizing First Place Financial Corp. to enter into an Amended Purchase Agreement by and between First Place Financial Corp. and Talmer, concerning Talmer's proposed acquisition of First Place Bank. In accordance with the Amended Purchase Agreement, Talmer also assumed the \$60 million in subordinated notes issued to First Place Capital Trust, First Place Capital Trust II and First Place Capital Trust III (the "Trust Preferred Issuers") and received the First Place Financial Corp.'s common securities issued by the Trust Preferred Issuers, certain tax assets, and all cash and cash equivalents held by First Place Financial Corp.

In contemplation of the finalization of the bankruptcy proceeding described above, and subject to the provisions of ERISA, the trustee of the Plan, First Bankers Trust Services, Inc., would be required to take actions which are in the best interest of the participants of the Plan, which may include terminating or merging the Plan. All 791,539 shares held by the ESOP plan were sold on November 5, 2012 in the over the counter markets (pink sheets) for \$44,009 which was \$.056 cents per share. Plan management believes that these sales of securities on the over the counter market by the Plan trustee, as Plan fiduciary, resulted in the plan's receipt of fair market value for the securities, as determined by transaction prices in a market in which the employer securities remained actively traded.

NOTE 3 – PLAN TERMINATION (Continued)

On January 1, 2013, First Place Financial Corp. completed the sale of substantially all of its assets, including all of the issued and outstanding shares of common stock of the First Place Financial Corp.'s wholly-owned subsidiaries, First Place Bank and First Place Holdings, Inc., and certain other assets held in the name of First Place Financial Corp. but used in the business of First Place Bank to Talmer pursuant to the terms of the Amended Purchase Agreement.

On March 25, 2013, the Bankruptcy Court granted the First Place Financial Corp.'s motion to convert to a case under Chapter 7 of the Bankruptcy Code.

On March 26, 2013, First Place Financial Corp.'s Board of Directors approved and adopted a Board resolution to terminate the Plan effective as soon as administratively feasible in accordance with the terms of the Plan document and applicable law and also in accordance with the bankruptcy proceedings. As of October 29, 2012, when First Place Financial Corp. filed a voluntary petition for relief under Chapter 11 of the United States Bankruptcy Code and First Place Financial Corp. permanently discontinued contributions to the Plan, 100% of each participant's account became vested and nonforfeitable. Upon termination, the net assets of the Plan, after the payment of plan expenses, will be distributed to participants and beneficiaries in accordance with Plan provisions and applicable law.

NOTE 4 – INVESTMENTS – UNAUDITED INFORMATION

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by First Bankers Trust Services, Inc., the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 4 – INVESTMENTS – UNAUDITED INFORMATION (Continued)

The following table presents the fair values of investments as of December 31, 2013 and 2012:

	Year ended December 31, 2013			Year ended December 31, 2012		
	Allocated	Unallocated	Total	Allocated	Unallocated	Total

Fair value	\$ 296,955	\$ -	\$ 296,955	\$ 296,660	\$ -	\$ 296,660

During the year ended December 31, 2013, the Plan earned interest income of \$295 on its money market mutual fund investment.

NOTE 5 - STOCK ACQUISITION LOAN

In 1998, the Plan entered into an \$8,993,000 stock acquisition loan agreement with First Place Financial Corp. The proceeds from the loan were used to purchase 899,300 shares of First Place Financial Corp. common stock. Unallocated shares of stock served as collateral for the loan. The agreement originally provided for the loan to be repaid in annual installments over 15 years. The Plan amended the agreement effective January 1, 2007, and provided for the loan to be repaid in annual installments over 10 years. On September 17, 2010, First Place Bank paid the total outstanding loan balance of \$3,984,388 plus accrued interest to First Place Financial Corp. In conjunction with the payment of principal and interest, the unallocated shares were allocated to eligible employees' accounts in accordance with the terms of the Plan and the applicable regulations under the IRC. The allocation of shares occurred as of the end of the 2010 plan year.

NOTE 6 - TAX STATUS

Effective January 1, 2004, the Plan document was amended and restated in its entirety. The Internal Revenue Service has determined and informed the Company by a letter dated November 17, 2006, that the restated Plan is designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the Plan to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has concluded that as of December 31, 2013, there were no uncertain tax positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

The Plan disposed of its interest in First Place Financial Corp. stock during 2012 and held no party-in-interest investments at December 31, 2013 and 2012.
