MCR, LLC Profit Sharing Plan

Notes to Financial Statements

1. **Description of the Plan** The following description of the MCR, LLC Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of MCR, LLC and its subsidiaries (collectively, the "Company") (except for collective bargaining employees, leased employees, and JB&A, Inc. employees) who are at least 21 years old and who have completed one month of service for the 401(k) salary deferral and Company safe harbor matching contributions, and six months of service for the profit sharing contribution. Effective January 1, 2013 and March 15, 2013, the Plan was amended to change certain Plan provisions. Effective with the January 1, 2013 amendment, employees of JB&A, Inc., a wholly owned subsidiary, were removed from excluded classes of employees with regards to the 401(k) salary deferral and Company safe harbor matching contributions. Effective with the March 15, 2013 amendment, the safe harbor matching contribution was eliminated and a discretionary matching contribution to the Plan was allowed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 20, 2013, the Plan was amended to change the trustee of the Plan to Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal"). All assets of the Plan were transferred to Principal on that date.

Contributions: Each year, participants may contribute up to 50 percent of pretax annual compensation, as defined in the Plan. Roth contributions are also permitted. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). The Company contributed a safe harbor matching contribution of 100 percent of the first five percent of eligible compensation that a participant contributed to the Plan until March 15, 2013. Effective March 15, 2013, the Plan allows for discretionary matching contributions. For the period from March 15, 2013 through December 31, 2013, the Company contributed 50 percent of the first five percent of compensation that a participant contributed to the Plan. Profit sharing amounts may be contributed at the discretion of the Company except to former employees of Aerodyne, Inc., employees working on the PEO STRI SETA contract, and effective January 1, 2013, JB&A, Inc. employees. Participants must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year to receive an allocation of any discretionary profit sharing contribution. There were no such contributions for the Plan year ended December 31, 2013. Contributions are subject to certain limitations.

MCR, LLC Profit Sharing Plan

Notes to Financial Statements

Investment options: Participants may direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers three pooled separate accounts, fourteen mutual funds, eleven common collective trusts and one guaranteed investment contract as investment options for participants. Participants may change their investment directions at any time, subject to such restrictions and procedures as established by the recordkeeper, Plan and Company.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's safe harbor matching contributions and discretionary matching contributions, if any, as well as allocations of the Company's discretionary profit sharing contribution, if any, and Plan earnings. Investment earnings and losses are allocated based upon the investment performance of each investment in the participant's account. Allocations of the Company's discretionary profit sharing contributions, if any, are based on the ratio of the participant's eligible compensation to total eligible compensation for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited accounts: At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$12,945 and \$21,573, respectively. These accounts will first be used to pay Plan expenses then used to reduce future Company contributions. During 2013, \$66,170 of forfeited nonvested accounts was used to reduce Company contributions and no forfeited nonvested accounts were used to pay Plan expenses.

Vesting: Participants are vested immediately in their contributions, safe harbor matching contributions and discretionary matching contributions plus actual earnings thereon. Vesting in the Company profit sharing contributions is based on years of continuous service of at least 1,000 hours per year. A participant is 40 percent vested after two years of service is completed, and vests an additional 20 percent per year until full vesting after five years. Different vesting schedules may apply to account balances of participants due to prior Plan provisions as described in the Plan document.

Payment of benefits: Benefits are payable upon retirement at age 65, early retirement at age 55 with five years of service, disability, death, or termination of employment. Hardship withdrawals and in-service withdrawals at age 59 1/2 are also permitted, subject to provisions described in the Plan document. Withdrawals from rollover contributions are permitted at any time. Benefits are payable in lump sum, installment, or annuity payments.

MCR, LLC Profit Sharing Plan

Notes to Financial Statements

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent. Principal and interest are paid through payroll deductions.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Company. Transaction expenses, such as loan and distribution administration fees, are charged directly to the participant's account and are included in administrative expenses.

2. Significant accounting policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, insurance company and trustees. See Note 4 for a discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As further discussed in Notes 4, 5 and 6, the Principal Fixed Income Guaranteed Option and the Guaranteed Income Fund investments of the Plan are reported at contract value, which approximate fair value.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

MCR, LLC Profit Sharing Plan

Notes to Financial Statements

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: Management has evaluated subsequent events for disclosure in these financial statements through October 9, 2014, which is the date the financial statements were available to be issued.

3. Information certified

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company, Prudential Bank & Trust, F.S.B., (collectively, "Prudential") and Principal, the insurance company and trustees, have certified as to the completeness and accuracy of all investment balances, related investment activity, notes receivable from participants, and related interest income from notes receivable from participants reflected in the accompanying financial statements and supplemental schedule, summarized as follows:

Notes to Financial Statements

4. **Fair value measurements** The Plan reports its assets at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The fair value of the shares of mutual funds owned by the Plan is based on quoted net asset values on the last business day of the Plan year.

MCR, LLC Profit Sharing Plan

Notes to Financial Statements

The fair value of the units of pooled separate accounts is based on the net asset value ("NAV") on the last business day of the Plan year provided by the entity holding the accounts. The NAV is used as a practical expedient to estimate fair value and is determined by Principal and Prudential based on the fair value of the underlying assets in the accounts less the liabilities.

The Guaranteed Income Fund is reported at contract value, which the issuer has determined approximates fair value. The contract has no maturity date, there is no market value adjustment upon discontinuance, and the guaranteed rate resets semi-annually. The issuer considers current economic and market conditions, the general interest rate environment and both the expected and actual experience of a referenced portfolio within the issuer's general account when establishing interest crediting rates. The Plan administrator does not independently develop quantifiable unobservable inputs in measuring fair value for this fund, but rather considers the credit rating of the issuer and current market rates in determining contract value is a reasonable estimate of fair value for the fund.

The Principal Fixed Income Guaranteed Option is reported at contract value, which the issuer has determined approximates fair value. The contract has no maturity date, there is a surrender charge of five percent upon discontinuance, and the guaranteed rate resets semi-annually. The Plan administrator does not independently develop quantifiable unobservable inputs in measuring fair value for this investment, but rather considers the credit rating of the issuer and current market rates in determining contract value is a reasonable estimate of fair value for the investment.

The fair value of common collective trust funds is based on the net asset value ("NAV") on the last business day of the Plan year provided by the entity holding the trust funds. The NAV of the common collective trust is used as a practical expedient to estimate fair value and is determined by Principal based on the fair value of underlying assets in the trust, less the liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The balanced/asset allocation common collective trusts seek total returns consisting of long-term growth of capital and current income based on expected retirement date. Domestic stock pooled separate accounts seek long-term capital appreciation. International stock pooled separate accounts seek capital appreciation and income through investment in foreign securities. Balanced pooled separate accounts seek a mix of growth of capital and reinvestment of income. The investment objective of the fixed income separate accounts is to maximize the return on investment.

MCR, LLC Profit Sharing Plan

Notes to Financial Statements

Investments in the common collective trust funds and pooled separate accounts can be redeemed immediately at the current net asset values. There are no withdrawal limits, redemption frequency limits or redemption notice periods. There were no unfunded commitments for these investments as of December 31, 2013 and 2012.

There were no transfers between level 1, level 2, and level 3 investments during the year ended December 31, 2013.

The table below sets forth a summary of changes in fair value of the Plan's level 3 investment assets for the year ended December 31, 2013:

	Level 3 Assets		
	Prudential	Principal	
	Guaranteed	Fixed Income

5. Guaranteed investment contract - Principal

Effective December 20, 2013, the Plan participates in a benefit responsive investment contract with Principal via an investment in a Guaranteed Investment Contract ("GIC"). Principal commingles the assets of the GIC with other assets in its general account. Principal is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings on the underlying investments, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.00 percent. Such interest rates are reviewed semi-annually.

MCR, LLC Profit Sharing Plan

Notes to Financial Statements

The average yield based on actual earnings for 2013 was 2.00 percent. The average yield based on interest rates credited to participants was 2.00 percent in 2013.

6. Guaranteed income fund - Prudential

Prior to December 20, 2013, the Plan participated in a benefit responsive investment contract with Prudential Retirement Insurance & Annuity Company via an investment in a Guaranteed Income Fund ("GIF"). Prudential commingled the assets of the GIF with other assets in its general account. Prudential was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. Contract value, as reported to the Plan by Prudential, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract had no maturity date and there was no market value adjustment upon discontinuance. Prudential had determined that fair value approximated the contract value of the investment.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than 1.5 percent. Such interest rates were reviewed semi-annually.

There were no events that could limit the Plan's ability to transact at contract value with the issuer. In addition, there were no events that allowed the issuer to terminate the contract and which required the Plan to settle at an amount different than contract value.

The average yield based on actual earnings and based on interest rates credited to participants was 1.87 and 2.40 percent in 2013 and 2012, respectively.

7. Risks and uncertainties

The Plan provides for investments in various securities that are exposed to risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in future statements of net assets available for benefits.

MCR, LLC Profit Sharing Plan

Notes to Financial Statements

- 8. Party-in-interest transactions** Certain Plan investments are managed by affiliates of Principal. Principal is the trustee and recordkeeper as defined by the Plan as of December 31, 2013. These transactions qualify as exempt party-in-interest transactions.
- During 2013, Prudential provided the Plan with \$82,090 in income from revenue sharing agreements to be used to pay Plan expenses, which is reported as other income on the accompanying Statement of Changes in Net Assets Available for Benefits. The Plan paid investment advisory fees to the Plan's broker of \$75,179 with these funds. Effective with the transfer to Principal all accumulated funds as a result of revenue sharing agreements, which totaled \$26,664, were allocated to participant accounts equally.
- 9. Plan termination** Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.
- 10. Tax status** The Plan is a prototype plan of Prudential Insurance Company of America, which received an opinion letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the form of the Plan document was acceptable under the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.
- Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

Reclassification	5,292	
<u>Total expenses per Form 5500</u>	<u>\$ 15,871,407</u>	

- 12. Subsequent event** On January 1, 2014, the Plan was amended and restated as a result of the transfer to Principal. Effective with the amendment, the Plan name changed to MCR, LLC 401(k) & Profit Sharing Plan. Also under the amendment, employees working on the PEO STRI Seta contract, former employees of Aerodyne, Inc. and JB&A Inc. employees were removed from the excluded class of participants permitted to receive profit sharing contributions. In addition, effective January 1, 2014 employees of LPTA were added to the excluded class of participants ineligible to receive profit sharing contributions.
