Swank Audio Visuals, LLC Employee Profit Sharing 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Swank Audio Visuals, LLC Employee Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Swank Audio Visuals, LLC (the "Company") who become eligible to participate immediately upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may elect to reduce their salary and have that amount contributed to the Plan. The elective deferred amount may not be more than the lesser of: (a) 100% of their compensation, (b) the maximum dollar limit allowed under the requirements of the Internal Revenue Code (\$17,500 for 2013) or (c) such lesser amount as determined by the discrimination tests for the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in addition to their regular deferred contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. The Plan was amended effective November 1, 2012 to allow roth rollovers into the Plan.

The Company may make discretionary matching contributions of employees' salary reduction amounts at a percentage determined by the Company. The Company may also contribution an annual profit-sharing amount, as determined by the Company's board of directors. There were no annual profit-sharing contributions made to the Plan during 2013.

Certain participant contributions in years 2012 and 2013 were paid after the timeframe required by the Department of Labor. The Company remitted these contributions during the respective plan years. The Company reimbursed the Plan for lost interest in the amount of \$302 and \$1 related to 2013 and 2012 late deposits, respectively. The Company filed Form 5330 and paid the applicable excise tax in 2013. The excise tax payments were made from the Company's assets and not from the assets of the Plan.

Participant Accounts - Each participant's account is credited with the participant contribution, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Swank Audio Visuals, LLC Employee Profit Sharing 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company after 1000 hours of service, which starts after two years of service at 25% and increases ratably until they become fully vested after five years of service.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 7.25 percent, which are commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Benefit Payments - Distributions are payable upon the retirement, disability, or termination of employment in the form of a lump-sum amount or installments equal to the value of their accounts, unless benefits are less than \$5,000. If benefits are less than \$5,000, participants can either receive a lump sum distribution or roll funds over into an Individual Retirement Account or other qualified plan. If a participant dies, a death benefit equal to the value of the participant's account is paid to the participant's beneficiary.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on their termination date, the non-vested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. At December 31, 2013 and 2012, forfeited account balances totaled \$0 and \$5,130, respectively. For the 2013 Plan year, \$32,779 and \$16,229 were used to reduce employer contributions and administrative expenses, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Great West Trust Company, LLC and Great West Life & Annuity Insurance Company or its affiliates. Great West Trust Company, LLC and Great West Life & Annuity Insurance Company are the custodians of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances. See Note 7.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 9, 2014, which is the date the financial statements were available to be issued.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012. As detailed in Note 7, all Plan assets were transferred to the Audio Visual Services Retirement Savings Plan effective December 31, 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Note 4 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Unallocated Contract - The unallocated contract invests in the general assets of Great West. Great West Life & Annuity Company (Great West) considers this contract to be benefit-responsive; however, since there are no specific securities in Great West's general account related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period.

Note 5 - Tax Status

The Plan, as adopted, is a volume submitter plan of Great West Trust Company, LLC (fka Orchard Trust Company, LLC), which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2008. The Plan has received a determination letter from the IRS.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 6 - Investment Contracts

The Plan has a benefit-responsive investment contract with Great West. Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Note 6 - Investment Contracts (Continued)

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. No events, including the plan merger, had an impact on the Plan's ability to transact at contract value.

Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

As described in Note 4, because the unallocated insurance contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the unallocated insurance contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

As a result of the plan merger at December 31, 2013 (see Note 7), the investment was no longer held by the Plan at December 31, 2013.
