NOTE 5 - FAIR VALUE MEASUREMENTS

Unaudited information certified by the plan trust.

FASB ASC 820, Fair Value Measurement and Disclosures, establishes a framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Valued at fair value by applying the valuation return less a date's total management fee to the prior business day's unit value.

Participant loans: Valued at the amortized cost, which approximates fair value.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation the may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

NOTE 6 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

Unaudited information certified by the plan trust.

The Plan entered into a fully benefit-responsive investment contract with ING Life Insurance and Annuity Company (ING). ING maintains the contributions in pooled separate accounts and common and collective trusts. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by ING. Contract value represents contributions made under the contract , plus earnings, less participants withdraws and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. ING may terminate the contract with reasonable cause, and upon termination a market value adjustment may apply.

ING is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rating of the contract will track current yields on a trailing basis.

NOTE 7 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by ING. ING is the trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions.

NOTE 7 – RELATED PARTY TRANSACTIONS (CONTINUED)

Certain employees of the Company provide administrative and trustee services to the Plan and are not reimbursed for these services. Certain other administrative expenses are paid by the Company on behalf of the Plan.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 - TAX STATUS

The Internal Revenue Service has determined and informed the company by letter, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by the taxing jurisdictions: however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.
