Note 1. DESCRIPTION OF PLAN

The following description of the Ben's Restaurant Group Retirement Savings Plan (the "Plan") provides only general information. Users of the financial statements and supplemental schedules should refer to the Plan documents for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established to provide for contributions made under salary deferral agreements pursuant to Section 401(k) of the Internal Revenue Code (the "Code"). The Plan covers substantially all employees of Ben's Restaurant Group, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Employees who have attained the age of 18 and completed at least one year of service with the Company are eligible to participate in the Plan on the first day of January and July of each year.

Contributions: Eligible employees may make contributions via payroll deductions up to limits as defined in the Plan and other limits in accordance with the Code. Elective deferrals can be made in whole percentages of compensation or in specific dollar amounts. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan.

The Company may make matching contributions, at its discretion, equal to a specified percent of each participant's deferral amounts. In addition, the Company may make an additional discretionary contribution to participants of the Plan as deemed appropriate. Contributions are subject to limitations as provided in the Code and as defined in the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. DESCRIPTION OF PLAN (continued…)

Vesting: Participants are immediately vested in their contributions, voluntary rollovers, and the actual allocated earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon occurs under the following schedule:

Years of Service	Vested Percentage
1	20 %
2	40 %
3	60 %
4	80 %
5	100 %

A participant will become 100% vested in the Company's matching and discretionary contributions under any of the following circumstances…

- Death before retirement date.
- Disability before retirement date.
- Attainment of normal retirement age.
- Termination of the Plan.

Notes Receivable from Participants: Participants may borrow from their accounts up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: Upon reaching normal retirement age, termination of employment, death or disability, or termination of the Plan, the participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account under several options. A participant may defer paying tax on some taxable payments by electing a rollover distribution.

In the event of a participant's death, his or her designated beneficiary may request a distribution of his or her account.

Withdrawals may also be made in conjunction with IRS hardship distribution regulations.

Forfeitures: Upon termination of employment the non-vested portion of a participant's account is forfeited. Forfeitures may be used to pay eligible administrative expenses of the Plan as they come due or they may be paid back to the Company.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The financial statements of the Plan have been prepared in accordance with the accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expense: The cost and expense of administering the Plan shall be paid, at the discretion of the Company, either directly by the Company or by the Plan through fees deducted from participant accounts.

Subsequent Events: Subsequent events have been evaluated through September 11, 2014, which is the date the financial statements were available to be issued.

NOTE 3. INVESTMENTS

Certification of Investment Information: TD Ameritrade Trust Company, the custodian of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets held as of December 31, 2013 and 2012.

The following presents investments that represent 5 percent or more of the plan's net assets.

NOTE 4. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable market data by correlation or other means;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

NOTE 4. FAIR VALUE MEASUREMENTS (Continued…)

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies used at December 31, 2013 and 2012.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the quoted net asset value of shares held by the plan at year end. Investments in the mutual funds can be redeemed with no advance notice on any day on which the NYSE is open for trading.

TD Bank USA MMDA: The Institutional MMDA is provided by TD Bank USA, N.A. (TD Bank USA), an affiliate of TD Ameritrade Trust Company. TD Bank USA is a wholly-owned, indirect subsidiary of The Toronto Dominion Bank.

Balances in the Institutional MMDA are insured by The Federal Deposit Insurance Corporation (FDIC) (not covered by SIPC). Currently the FDIC insures consumer balances up to $250,000 at insured institutions.

Interest on the Institutional MMDA is accrued daily and is credited to the depositor's account on the last business day of the month. There is no minimum deposit. Because the Institutional MMDA is a bank account rather than an SEC-registered money market fund, there is no expense ratio or prospectus. The rate of return may vary with market conditions and is subject to adjustment periodically by TD Bank USA.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued…)

MetLife Group Annuity Contract No. 25554: Valued at the fluctuating value of the separate account assets backing the contract. This contract is comprised of three separate accounts: 1) the MetLife Aggregate Bond Index Separate Account, 2) the Wilmington Short/Intermediate Bond Separate Account, and 3) the Wilmington Broad Market Bond Separate Account.

The MetLife Aggregate Bond Index Separate Account is managed by the Metropolitan Life Insurance Company and will invest in investment-grade fixed income securities, including U.S. Treasury, Government-Related, Corporate, Agency-Issued Mortgage-Backed, Commercial Mortgage-Backed and Asset-Backed Securities. The MetLife Aggregate Bond Index Separate Account may invest in such securities in order to maintain the Index characteristics. With the exception of Treasury, U.S. Agency and U.S. Government-sponsored enterprises (i.e. FNMA, FHLMC, FHLB), no issue will represent more than 5% of the overall account. Cash and cash-equivalents may be held in portions as deemed appropriate by MetLife to ensure liquidity. There will be no assets of below investment-grade quality.

The Wilmington Short/Intermediate Bond Separate Account is sub-advised by the Wilmington Trust Company and will invest in fixed income securities such as U.S. government and agency securities, publicly traded mortgage and asset-backed securities (including CMOs), Yankee securities, public corporate debt (including Capital Securities) and cash equivalents. A weighted-average credit quality of A or higher will be maintained in the account. Assets which are downgraded below these ratings will be liquidated as market conditions reasonably permit.

The contract provides a fixed interest rate for a fixed period that will apply to the entire guaranteed value. MetLife will periodically declare a new interest rate. Interest rates will reflect capital market developments, the performance of the separate account assets backing the contract, and the expected and actual contributions and withdrawals of all the plans participating in the contract. MetLife guarantees that no interest rate will ever be less than 0%.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued…)

The following table sets forth by level, within the fair value hierarchy, the plan's fair value measurements at December 31, 2013 and 2012:

The following table presents additional information about Level 3 assets and liabilities measured at fair value. Both observable and unobservable inputs may be used to determine the fair value of positions the Plan has categorized within the Level 3 category. As a result, the unrealized gains and losses for assets and liabilities within the Level 3 category may include changes in fair value that were attributed to both observable and unobservable inputs.

Changes in Level 3 assets measured at fair value for the year ended December 31, 2013 were as follows...

	Fair Value Beginning	Realized & Unrealized Gains (Losses)	Purchases	Sales	Fair Value Ending	Change in Unrealized Gains (Losses) for Investments Held at End
MetLife GAC 25554	211,416	3,141	29,152	-45,097	198,612

Totals	212,235	3,142	641,122	-652,226	204,273	

NOTE 5. RELATED-PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by TD Ameritrade Trust Company, the custodian, and, therefore, these transactions qualify as party in interest transactions. Fees paid by the plan for the investment management services are included in net appreciation in fair value of investments.

Administrative fees include investment fees, third party administrative fees, and other professional services, and are based on customary charges as shall be agreed to from time to time. Certain of these expenses are absorbed by the Plan sponsor. Certain administrative functions are performed by officers or employees of the Plan's sponsor. No such officer or employee receives compensation from the Plan.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 7. TAX STATUS

Although the Plan has not received a determination letter from the Internal Revenue Service, it has adopted a pre-approved Prototype Plan. The Plan has been amended and the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Certain differences may exist between the recording of accruals for financial reporting purposes and IRS/Department of Labor's (DOL) Form 5500 purposes. There were no such differences as of and for the years ended December 31, 2013 and 2012.
